THE SPRINGFIELD COLLECTION

BOWERS AND RUDDY GALLERIES, INC.

PUBLIC AUCTION SALE
DECEMBER 15-18, 1981
PART II

Bowers & Ruddy is a dynamic, growing company. Our professional services are expanding and we have moved to expanded facilities on Wilshire Boulevard in Los Angeles. To dramatize these changes and yet honor the traditions and principles of our company, we have introduced a new trademark based on our longstanding Griffin motif.

For Bowers & Ruddy, the griffin is an ideal representative. Its stature as the most classic of mythical characters conveys a sense of antiquity: a link with the most elegant elements of the past. The griffin's role as keeper of the world's treasures could not be more appropriate.

To celebrate the beginning of our fall auction season, we are holding the Springfield Collection sale at our new headquarters. We look forward to seeing you there and will be pleased to help you in anyway we can.

Helpful Mail Bidding Instructions

Bidding in this sale can be an interesting, enjoyable, and numismatically rewarding experience. If you're an old-time bidder with us you may find some of the following comments will increase your bidding success. If this is your first sale then we particularly recommend that you read this commentary. The paragraphs are numbered for reference in the event that you wish to ask further questions about any aspect. Have a question? You get *personal service* at Bowers and Ruddy Galleries. Please feel free to write or call and a member of our Auction Department staff will gladly answer it.

1. Read the Terms of Sale in the front of the catalogue. Note a 10%buyers premium will be added to all successful bids.

2. Mail your bid sheet as early as possible. This is particularly important if you're a new bidder, for it takes us time to check your references. Also, this assures that your bid sheet will be received before the sale. A bid sheet mailed a few days before the sale might not reach us until a week later—at which time the coins have all been sold to others!

3. We've found it best to use a *work sheet* to compile bids. In this way you can check back and forth throughout the catalogue, make changes and revisions, and so on. Then when you've decided on your final bids enter them on the bid sheet. Try your best to keep the bid sheet neat and clearly understandable, listing the lots in order.

4. If you are a new bidder, send along references and a 25% deposit.

5. Be prepared to pay in full for all lots for which your bids are successful. Don't bid more than you want to pay! Review your financial circumstances carefully before bidding. If you are awarded lots you are legally bound to pay for them.

6. Please keep current price levels in mind when bidding. While high and low prices sometimes occur, most items sell within market ranges. If a popular coin sells for $500 on the retail market, chances are not good that a bid of, say, less than $400 will win it. On the other hand, chances are excellent that a bid in the $500 to $600 range will be a winner. There is no harm in bargain hunting, but as your time is valuable (and so is ours) it is most productive if you keep current values in mind while bidding!

7. Auction invoices are due upon receipt unless *prior* credit arrangements have been made with us.

8. You may pay for your auction lots with Visa, Master Charge, or American Express charge card.

9. Be sure to sign your bid sheet.

10. Ink is best for writing bids. Pencil tends to blur.

11. If bid changes are necessary, do not write over any figures. Instead, cross them out completely and re-enter the bids.

12. Put your telephone number on the bid sheet. In this way we can call you if there is any question about a bid.

13. Submit bids in even dollar amounts. Cents and fractional dollar amounts will be ignored.

14. Check your bid sheet carefully. You will be responsible for any bids on wrong lots or for the wrong amounts. Please, please be careful!

15. Don't forget to take advantage, if you wish, of the optional 10% or 20% increase to really help your chances of being a successful bidder.

16. If you wish to limit your total expenditure, please write MAXIMUM EXPENDITURE $_____ and the amount at the *top* of your bid sheet. You can then submit bids for amounts up to *four times* the amount of the maximum expenditure. This is a *personal service* and a Bowers and Ruddy customer representative will personally attend to your bid sheet by bidding from the auction floor, buying lots for your account until your authorized expenditure is reached. Due to the bookkeeping involved, this service is offered only to bidders with maximum expenditures of $1000 or more. MAXIMUM EXPENDITURE and "ONE LOT ONLY" bidding cannot be combined.

17. Up to five lots may be grouped with brackets for a "ONE LOT ONLY" purchase, if you wish to purchase only one example of a coin of which several examples appear in the sale. Such lots should be bracketed with the notation "ONE LOT ONLY" appearing.

18. Lots may be inspected by mail prior to the auction. Please write or call for further information.

19. Our Auction Department is here to serve your needs. We really appreciate your interest and business and will do anything we can to make auction bidding by mail more enjoyable for you. We look forward to receiving your bids.

20. If you want to *sell* your coins by auction, call or write for our free, informative brochure, *How to Sell Your Coins for the Best Price.*

TERMS OF SALE

1. All bids are to be per lot; no lots will be broken. In the event of identical bids on the same lot, the lot will be awarded to the first bid received. In the event of a dispute during floor bidding the auctioneer may at his discretion immediately put the lot up for sale again.

2. A buyers charge of 10% on each individual lot will be added to all purchases made by all bidders and will be based upon the total amount of the final bid. This buyers charge will be added to all invoices.

3. All sales are strictly for cash payable in U.S. dollars drawn on a U.S. bank. Invoices must be paid within 5 days of receipt. Shipping, handling, postage and registration charges will be added for lots delivered by mail. All bidders not furnishing resale permits will be responsible for sales tax as required under the law for lots delivered in the state of California. Any account not paid within the prescribed terms as outlined above will be billed additional interest and collection charges at the rate of 1½% per month.

4. Bidders not known to us must furnish satisfactory references and/or a deposit equal to 25% of the bids submitted (which will be applied to purchases; any difference will be billed; any overage will be refunded). We reserve the right to obtain payment in full before delivery of the lots from any successful bidder even if satisfactory references are submitted. Title does not pass until lots are paid for in full.

5. All lots must be paid in full prior to shipment, unless previous credit arrangements have been specifically agreed to by Bowers & Ruddy. Please contact our credit department in advance if you have any questions regarding your purchase.

6. No "buy" or unlimited bids will be accepted. No bids will be accepted from minors. The auctioneer and/or the cataloguer reserves the right to refuse any bid which, in our opinion, is not made in good faith or does not qualify by reason of credit.

7. All items are guaranteed genuine.

8. **We cannot be responsible for your errors in bidding,** so check your bid sheet carefully. Please bid in even dollar amounts. All bids not in even dollar figures, including those increased by 10% to 20% (see our special service on the bid sheet), will be rounded off to the lower whole dollar amount. All bid sheets must be signed.

9. **Auction sales are not approval sales.** Any lot may be examined before bidding. **No lot may be returned by a mail bidder without our permission in writing. Requests to return coins must be made in writing within three days of receipt of the coins.** Late remittance for purchases, however, is cause to negate this privilege.

10. **No lots may be returned for any reason by floor buyers** (including those acting as agents for others). **All floor sales are final.**

11. **Any claims involving errors in the catalogue or for other reasons must be made within three days of receipt of the coins.** Bowers and Ruddy Galleries acts as agents for the various consignors. For this reason, **no claims of any kind can be considered after the settlements have been made with the consignors.** Any dispute after the settlement date is strictly between the bidder and the consignor, without involvement or responsibility of Bowers and Ruddy Galleries and/or the cataloguers. Bowers and Ruddy Galleries reserves the right to include its own material in any auction. In the event of a typographical error or attribution error or other error, **the cataloguer reserves the right to withdraw any item from the sale without notice,** or, if the error is discovered at a later date, to refund the buyer's money without further obligation. By placing a bid in this sale you agree that this transaction and these terms shall be construed in accordance with the laws of the state of California. Any controversy or claim arising out of or relating to this sale shall be settled by binding arbitration in Los Angeles, California, in accordance with the rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof.

Introduction

Welcome to the Springfield Collection Part Two! In this catalogue we are indeed proud to offer one of the largest and most diverse selections of coins we have ever catalogued. The majority of pieces in this sale come from the Springfield, Massachusetts, Library and Museum Association.

Located in the heart of downtown Springfield, "the Quadrangle" , as it is known, is a unique cultural center. It combines in one association and in one stimulating atmosphere four diverse museums and a city library, each administered by its own director and staff. Serving as its focal point is a picturesque common outlined by a pedestrian walk and a drive which afford easy access to all the units. It also creates a quiet setting for the Quadrangle in sharp contrast to the concrete and asphalt of the rising buildings and bustling business community around it.

Organized in 1857, the Springfield Library and Museum Assocation was incorporated in 1864 as a non-profit organization dependent on private and municipal funding. It is made up of the Springfield City Library System, the Science Museum, the George Walter Vincent Smith Art Museum, the Connecticut Valley Historical Museum and the Museum of Fine Arts, all governed by one Board of Trustees.

Now, in 1981, the Springfield Library and Museum Association, like numerous other institutions in America, feels that the assets represented by the rare coin collection, a collection which requires specialized cataloguing expertise, extensive security protection, and custom display facilities, can be better utilized in other areas of activity. So, the decision was made to offer the pieces through unrestricted public auction sale by Bowers and Ruddy Galleries. In September we conducted the Springfield, Part II, which included a beautiful and extensive collection of United States Proof issues of the 19th century.

This sale promises to be a fitting finale to an exciting year of Bowers & Ruddy auction. We are proud to have offered the Springfield Collection to the numismatic public, and we look forward to your participation in this most unusual sale.

Sincerely,

Cole Danehower
Auction Manager

World Coins

Bowers & Ruddy Galleries is proud to offer the World Coins portion of the Springfield Collection Part two. This selection of what Americans somewhat chauvanistically call "foreign" coins, is perhaps the most varied and interesting we have yet catalogued. For the collectors there is much to tempt, for the investor there is much to ponder. We urge you to carefully read through the descriptions for those pieces you are particularly interested in.

The World coins in this catalogue are nothing short of spectacular. Included is a choice group of French pieces in gold and silver, a large group of German crowns and minors, highlighted by a German New Guinea 1895 10 Marks piece, as well as silver proofs.

Also included is a rare 1892 seven piece South African proof set, an 1876 Venezolano, many early European madals, a choice group of Switzerland crowns and minors, many high grade British pieces, including two fine early gold coins, a rare Japanese Meiji 3 20 Yen, a magnificent 1855 seven piece Peruvian pattern set, a fantastic collection of coins of the Netherlands, including an 1848 proof 20 Gulden.

The quality and variety of World coins promises to be very exciting for collectors, so bid liberally.

These patterns were struck in Philadelphia and are the first coins to be struck at a United States mint for a foreign government. Coins for general circulation in foreign countries were not made until 1876. The Peruvian government contracted for these coins to be made in preparation for a transition from the old Real type coinage to a decimal system as most other countries had already done. Actual adoption of the decimal system did not occur until 1863.

Ancient Coins

The Springfield Collection Part Two contains a small but select grouping of ancient coins that will be of considerable interest to afficionados of this most fascinating branch of numismatics. Nearly all of the major ancient Western coinages are represented by fine specimens.

Highlighting the ancient portion of our catalogue is a wonderful Decadrachm of Syracuse executed by the ancient artist Euainetos (pictured above). This particular piece has been authenticated by G. K. Jenkins of the British Museum, and has been in the consignor's collection for a number of years. It should attract considerable bidding from knowledgeable buyers.

Also of interest is a small but quite high quality collection of Greek bronze coinage, pieces that are often underrated by comparison to their more glamourous silver relatives. A beautiful gold 20 litrai of Syracuse, an excellent gold stater of Alexander III The Great, and a marvelous electrum hecte of Cyzicus are the highlights of the Greek gold coins. These are matched by high quality silver coins from most of the major Greek provinces.

The Roman coins include a very nice AEGYPTO CAPTA denarius of Augustus, a beautiful As of Hadrian, as well as an interesting group of Roman Colonial pieces and Byzantine gold.

Syracusan decadrachms are among the most spectacular and desirable coins in all of numismatics. The designs are unusual in that they were signed by the artist, in this case Euainetos, and were executed in the highest style. This type was struck as a commemoration of the defeat of the Athenians in 414-413. The presently offered specimen is Gallatin CIX and RIV. Accompanying the coin is a letter from G.K. Jenkins attesting to the coin's authenticity, as well as a special first edition of Gallatin's *Syracusan Dekadrachms of the Euainetos Type* limited to 25 copies.

This magnificent work is one of the most famous in all of ancient numismatics. The volume of text is in German, but the huge sized volume of plates can be used without the text by English speaking collectors. The photographs are wonderful to behold, showing the large Aes Grave pieces as life size. The book is in generally good condition overall. The volume of text has some browning on the pages, but is very fine and completely intact. The volume of plates has the cover board damaged and scuffed, with the loose binding separated, but the plates, which were issued unbound, are complete and unharmed. A very valuable publication.

Military Orders and Decorations

The collecting of Military Medals is not as popular in this country as it is in Great Britain, where the hobby is huge and avidly pursued. This is perhaps understandable because of our country's limited military history, and our democratic suspicion of things military. Yet it is also very unfortunate, because the collecting of Military Medals can provide the numismatist with a collection that combines all of the best in numismatics: intimate historical association, artistic virtuosity, legitimate scarcity, and a multitude of designs and variations.

The Springfield Collection is unusual in having a wide and varied group of military medals. On the pages that follow we are proud to offer the Springfield Collection of British Campaign Medals. We encourage you to read through the descriptions. There is much to interest the history buff, Anglophile, military afficionado, and numismatist.

Historical Background

Campaign Medals were authorized by the Monarch to be given to men who served in particular British Military and Naval campaigns and battles. In most instances they were inscribed with the individual recipient's name and his unit. In most cases the medals were made at the Royal Mint, and many of the most popular designs were executed by that paramount family of medallists, the Wyons.

The very first sort of campaign medal was probably awarded by Elizabeth I in 1588, with other medals in gold and silver being intermittently awarded into the early 1800s. Today most collectors begin their interest at the Military or Naval General Service medals, commemorating battles beginning in 1793. The custom of awarding these medals continued into the 20th century, and is still commonplace.

The medals were most often made of silver and were suspended by a multicolored ribbon, with different color patterns to match each different medal series. Some medals are made of captured enemy cannon, a fitting momento of successful battle.

The medals themselves were proudly worn by all rank of recipient, from the lowly "Boy" to the Admiral or General. They were often enshrined by the family of deceased recipients as a momento of the valor of their loved one, even though the award was given for service and not awarded for any particular bravery. Still, the Campaign Medal has been almost a cliche, an enduring symbol of the days of the British Empire, and their fascination for collectors has been undiminished by the demise of that great institutional symbol.

Collecting

Many English collectors studiously trace the service record of recipients (often the more information they find, the more valuable the medal), and try to obtain other medals awarded to one person. Other collectors pursue the gathering of particular regiments, or medals from only one rank of recipient. Perhaps the most popular method of collecting is to assemble sets of particular medals with all of the bar combinations (a bar being issued to commemorate a particular battle in a campaign) possible. This can be difficult since some battles had a very limited participation, and consequently the number of bars awarded was small.

In the collection which follows all medals are complete with ribbon unless otherwise mentioned. We have assigned grades as follows: Extremely Fine indicates a medal that is in top condition, with only the slightest signs of wear; Very Fine describes a medal that has obviously been worn for a period and thus has noticeable imperfections. Please keep in mind that these medals are not coins and their conditions or desirability cannot be judged by the same standards.

In our descriptions we have put the name of the bar or bars in bold face and the inscription in quotation marks. We have used our best judgement in assessing the rarity and value of each specimen, though this was often difficult due to the lack of a good market history for these medals appearing in this country.

3500 **Waterloo Medal, 1815,** to "William Standing, Gunner, Royal Foot Artillery." With original steel claw and ring suspension. Good Very Fine, some edge knocks, common on these pieces. Est. ($200-275)

This medal, commonly called the Waterloo Medal, was awarded to anyone who had taken part in any of three battles, those of Ligny on June 16, Quatre Bras on June 16, and Waterloo on June 18. This was the first medal issued by the British Government to all soldiers present at a battle, and was issued soon after the battle in 1816 (as opposed to an issue date of 1848 for medals pertaining to earlier Napoleonic campaigns). Because of this early issue most of these medals were worn for years, accounting for their usually less than pristine state of condition. The medals were issued with a steel clip and ring which many men removed and replaced with fancy silver attachments. The most desirable medals are those from regiments which suffered heavy casualties in the battle. The Royal Foot Artillery was the largest of the regiments under the Duke of Wellington's command, with a strength exceeding 5,000 men. It is, therefore, one of the commoner regiments.

3501 **Waterloo Medal, 1815,** Hanoverian issue, to "Soldat Matthias Frerker Leichte Bat. Osnabrueck." Extra Fine, with some edge knocks, though not serious. Est. ($175-250)

3502 **Military General Service Medal, 1793-1814.** One bar, **Coruna,** to "Robert Craig, 26th Foot." Extremely Fine, well toned steel and iridescent blue. Est. ($250-275)

The Military General Service Medal was authorized in 1847 and issued in 1848 to commemorate the participation of the recipient in one of the many battles fought in the Napoleonic Wars. The last battle for which this medal was issued took place 34 years before the issuance of the medal. Personal application had to be made for the medal and there were about 25,050 applications made including medals for the next-of-kin of men who had died before the medal was issued.

3503 **Military General Service Medal, 1793-1814.** One bar, **Talavera,** to "William Thompson, 23rd Light Dragoons." Good Extremely Fine with blue and gold toning. Est. ($300-375)

Only 123 medals were given to the 23rd Light Dragoons, and only 60 Talavera bars. Scarce.

3504 **Military General Service Medal, 1793-1814.** Three bars, **Salamanca, Vittoria, Toulouse,** to "J. McNellie, Corpl. 2nd Foot." Extremely Fine and toned overall. Est. ($550-625)

Medals issued to officers and those other than privates are often more desirable. In the 2nd Foot regiment it was possible for an officer to wear a total of six bars and other ranks a maximum of ten. A fairly low number of medals were issued for this regiment, 103.

3505 **Military General Service Medal, 1793-1814.** One bar, **Vittoria,** to "W. Whitehead, R.H. Gds." Good Extra Fine with marvelous deep blue reflective toning in the peripheral areas. Est. ($475-550)

Besides the bars being rare, certain regiments are desired by collectors either for the low number of medals issued for each regiment or a particular regiment's association to history. For instance, the above medal, issued to a member of the Royal Horse Guards, is more desirable than one of the line foot regiments, both for its moderately low number of medals issued, 158, and for its historical connection. Only two bars were issued for the Royal Horse Guards, Vittoria and Toulouse.

3506 **Military General Service Medal, 1793-1814.** Four bars, **Vittoria, St. Sebastian, Orthes, Toulouse,** to "Peter Black, Royal Sappers & Miners." Good Extremely Fine, with attractive colored toning and reflective surfaces. Est. ($500-550)

Bars were issued to commemorate particular battles in which a medal recipient took part. Each bar names a battle and there are a number of, and sometimes quite confusing, combinations. In all, 29 different bars were issued and they vary in collector appeal and value. When there are multiple bars they are read from the bottom up, that is, from the bar closest to the medal.

3507 **Military General Service Medal, 1793-1814.** Three bars, **Pyrenees, Orthes, Toulouse,** to "Andw. McFarland 61st Foot." Name engraved at a later date by hand. Extremely Fine. Est. ($300-350)

3508 **Military General Service Medal, 1793-1814.** Two bars, **Nivelle, Nive,** to "Geo. Tetley, 1st Foot Gds." Good Very Fine with blue toning on periphery. Est. ($300-350)

Some medals are more scarce with certain single bars than they are with a large number of multiple bars. Among the rarest of bars are Benevente, of which only ten were issued singly, and those issued for action during the War of 1812 with the young United States at Fort Detroit, Chateauguay and Chrysler's Farm. Nivelle and Nive, though not the rarest of bars, have some moderate scarcity.

3509 **Military General Service Medal, 1793-1814.** One bar, **Toulouse,** to "C. Webb, 39th Foot." Extremely Fine, dark toning. Est. ($150-200)

3510 **Naval General Service Medal, 1793-1840.** One bar, **Algiers,** to "William Peck." Extremely Fine. Est. ($400-475)

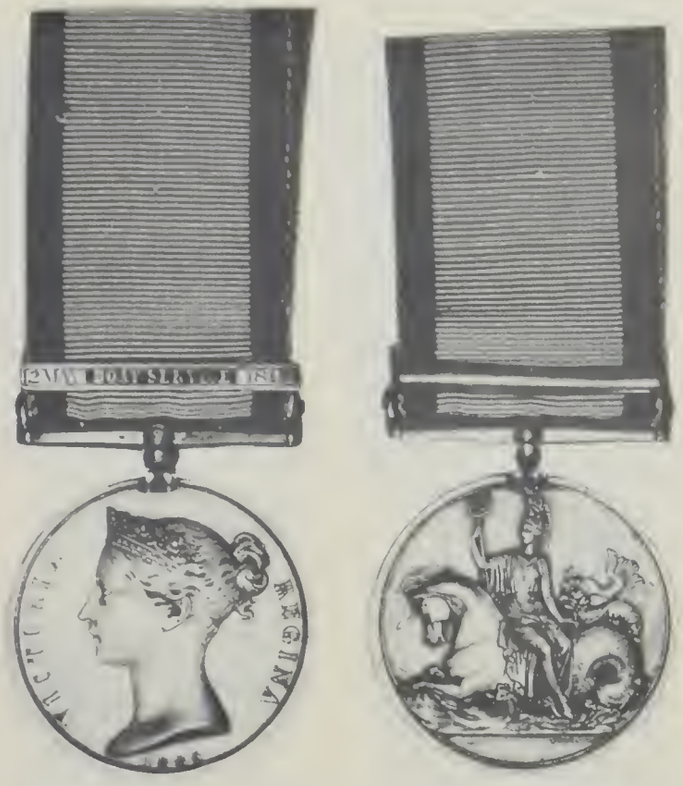
For a battle on August 27, 1816. A total of 1,302 bars were issued. This medal was issued in 1849 to commemorate naval action from 1793-1840. A total of 20,901 medals were issued with a single bar and about 24,000 bars were issued in total. Medals were given only to survivors then living, none being given posthumously to surviving families. Those who felt eligible for a medal had to apply to the Staff Officer of Pensions in the district where they lived. When all was said and done certain bars had been authorized, but no one claimed them, all those who participated in the actions apparently having died or missed the application deadline.

3511 **Naval General Service Medal, 1793-1840.** One bar, **Navarino,** to "John Dasey." Good Extremely Fine, strong toning. Est. ($400-475)

The battle of Navarino was fought on October 20, 1827. A total of 1,137 bars were issued.

3512 **Naval General Service Medal, 1793-1840.** One bar, **Syria,** to "Geo. Yealland." Good Very Fine with dark toning. Est. ($275-325)

The bar for Syria was awarded for action in November, 1840. A total of 7,057 bars were issued.



3513 **Naval General Service Medal, 1793-1840.** One bar, **2 May Boat Service 1813,** to "James Leers." Extremely Fine, darkly toned. Est. ($1000 — UP)

Bars were awarded for "Boat Actions," which were for smaller engagements. On the whole, Boat Service bars are very much rarer than most of the other bars, though they commemorate less historical battles. The Boat Service bar for May 2, 1813 was for an action undertaken by four ships in the harbor of Morgion, near Toulon. A total of only 53 bars were issued, making this particular medal quite scarce.

3514 **Army of India Medal, 1799-1826.** One bar, **Ava.** Unnamed. Very Fine. Est. ($200-250)

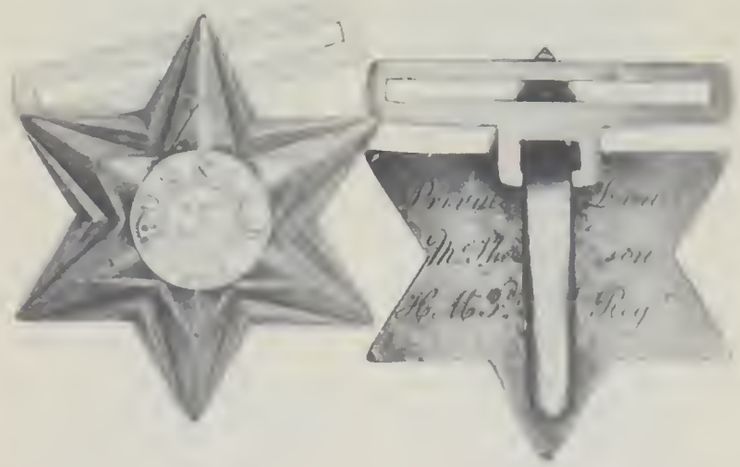
The Army of India Medal was issued in 1851 to survivors who had served in India between the dates mentioned. A total of 4,500 medals were awarded and multiple bars should be read downward instead of upward (last battle placed nearest the medal). The bar for Ava, a campaign in Burma from 1824 to 1826 is the commonest.

3515 **Cabul Medal, 1841-1842.** No bar, as issued, to "No. 300. Henry Wright. 3rd. K.O.L.D." Extremely Fine. Est. ($275-325)

Awarded for action September 15, 1842. It is tragically ironic to think that probably today there are Russian soldiers wearing military medals inscribed, in Cyrillic letters, "Kabul, Afghanistan."

3516 **Gwalior Campaign Star, 1843.** Maharajpoor Star. Original suspension hook partially removed and bar suspender attached. Engraved on back "Private Michael Bryan H.M. 39th Regnt." Est. ($300-375)

These bronze stars, made from captured guns, were awarded to all troops who had taken part in the battles on December 29, 1843 under the command of Sir Hugh Gough or Major-General Grey.



3517 **Gwalior Campaign Star, 1843.** Punniar Star. Engraved on back "Private Daniel McPherson H.M. 3rd Regt." Original suspension hook in place and bar suspension attached. Without ribbon. Est. ($400-475)

These stars were made, and probably designed, at the Calcutta Mint. Both issues are prized today, with the Punniar Star being the rarer of the pair.

3518 **Sutlej Campaign Medal, 1845-1846.** Moodkee reverse, two bars, **Ferozeshuhur and Sobraon,** to "Francis Burrough 3rd Lt. Dragns." Good Very Fine. Est. ($250-300)

This medal was awarded for action against the Sikh Army's invasion of Punjab, signalled by their crossing of the Sutlej on December 11. The first action in which a recipient took part was given in the exergue on the reverse, and subsequent actions were awarded bars up to a maximum of three. 520 medals were claimed from this regiment.

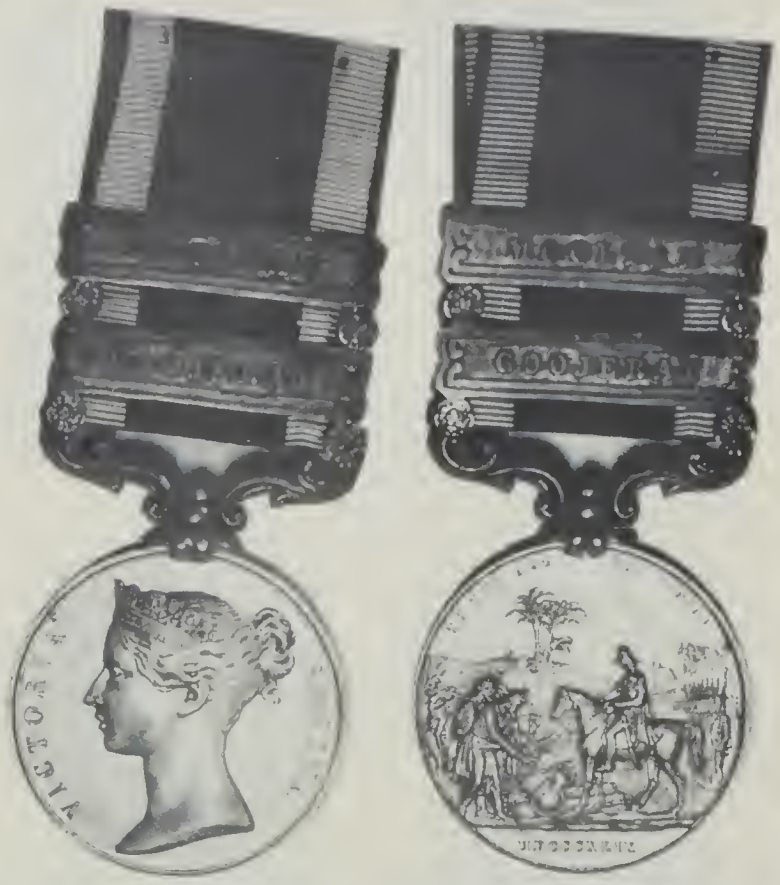
3519 **Sutlej Campaign Medal, 1845-1846.** Moodkee reverse, one bar, **Sobraon,** to "James Claydon 31st Regt." Very Fine. Est. ($250-300)

3520 **Sutlej Campaign Medal, 1845-1846.** Aliwal reverse, no bar, to "Serjt. J. Johnstone 2nd Brigade H.A." Extremely Fine. Est. ($250-300)

3521 **Sutlej Campaign Medal, 1845-1846.** Sobraon reverse, no bar, to "Gunner J. Clifford 6th Batn. Arty." Good Very Fine with dark toning. Est. ($250-300)

3522 **Sutlej Campaign Medal, 1845-1846.** Sobraon reverse, one bar, **Ferozeshuhur,** to "Saml. Tapsell 9th Lancers." Very Fine. Est. ($250-300)

Technically, this medal cannot be. Since the first battle Tapsell took part in was Sobraon on February 10, 1846, it is not possible for him to have been awarded a bar for Ferozeshuhur, which took place on December 21, 1845. Also, his regiment was not present at the battle of Ferozeshuhur. Perhaps someone switched bars with another medal, though there is no indication that it was switched with any of the other Sutlej medals in this collection.



3523 **Punjab Campaign Medal, 1848-1849.** Two bars, **Mooltan and Goojerat,** to "James Allen. 10th Foot." Extremely Fine. Est. ($375-425)

The Punjab Medals were issued to commemorate action against the Sikhs, reorganized from their earlier defeats of the Sutlej Campaign. The maximum number of bars awarded to one person was two.

3524 **Punjab Campaign Medal, 1848-1849.** One bar, **Mooltan,** to "Corpl. Saml. Pope, 1st Eur. Fus." Extremely Fine, one edge knock, with attractive multi-colored toning. Est. ($425-475)

Maj. L.L. Gordon in his book British Battles and Medals, *does not list this regiment as being present at any of the three battles. Medals issued to officers are rare.*

3525 **Punjab Campaign Medal, 1848-1849.** Two bars, **Chilianwala and Goojerat,** to "William Randall. 61st Foot." Extremely Fine. Est. ($375-425)

The bars on Punjab medals should read downwards, with the more recent battle nearest the medal.

3526 **Punjab Campaign Medal, 1848-1849.** One bar, **Goojerat,** to "D. Deehan, 24th Foot." Good Very Fine. Est. ($425-475)

One bar Punjab medals are scarcer than two bar medals.

3527 **Punjab Campaign Medal, 1848-1849.** No bar, to "Gunner Chas. Madgwick, 3rd Tp. 1st Bde. H. Arty." Very Fine. Est. ($300-375)

Some units were awarded Punjab medals even though they saw no fighting.

3528 **South Africa Campaigns, 1834-1853.** No bar, as issued, to "W.C.J. Collier. 2nd Class Ordy." Good Extremely Fine. Est. ($200-250)

This medal was awarded for three different campaigns between 1834 and 1853, though no distinction is made on the medal itself as to which campaign it was awarded for. This particular medal was awarded to an orderly and no regiment is mentioned. As such it is quite rare and desirable.

3529 **Baltic Medal, 1854-1855.** No bar and unnamed, as issued. Extremely Fine with attractive toning. Est. ($100-150)

Awarded for service in the Baltic under Admiral Sir Charles Napier and Rear Admiral Hon. R. Dundas.

3530 **Crimea War Medal, 1854-1856.** Four bars, **Alma, Balklava, Inkermann, Sebastopol,** to "P. Cody. 63rd Regt." Extremely Fine, darkish toning. Est. ($350-400)

This medal was originally authorized only for the battles of Alma and Inkermann, but after the battles of Balklava and Sebastopol bars were authorized (and one for Naval and Marine personnel who entered the Sea of Azov).

This medal has the maximum number of bars awarded to any one person. The medals were originally issued unnamed, but could be returned for official naming. Consequently, many medals were later engraved unofficially, while others were officially impressed. This particular medal was officially impressed and is thus quite scarce. It is interesting to note that this is the identical medal to that pictured on the cover of the 5th edition of Major L.L. Gordon's British Battles and Medals.

3531 **Crimea War Medal, 1854-1856.** Three bars, **Alma, Inkermann, Sebastopol,** to "J. Hickey 88th Regt." Extremely Fine. Est. ($275-300)

The name on this medal is impressed.

3532 **Crimea War Medal, 1854-1856.** Two bars, **Alma, Sebastopol,** to "John Bryce 4th Regt." Extremely Fine. Est. ($275-300)

The name on this medal is engraved.

3533 **Crimea War Medal, 1854-1856.** One bar, **Sebastopol,** unnamed. Extremely Fine, and with a miniature version, complete with ribbon and bar, also Extremely Fine. (Total: 2 pieces) Est. ($175-250)

3534 **Crimea War Medal, 1854-1856.** One bar, **Sebastopol,** to "Thos. Walsh 62nd Reg." Good. The medal is well worn, somewhat scratched and is extremely dark, as though it had been in a fire. Included in the lot is a miniature similar to the preceding lot, with some interesting differences in manufacture, and a ribbon of incorrect color. The normal size medal does not have a ribbon. (Total: 2 pieces) Est. ($50-75)

3535 **Crimea War Medal, 1854-1856.** No bar, unnamed. Good Extremely Fine. Est. ($75-100)

3536 **Indian Mutiny Medal, 1857-1858.** One bar, **Defence of Lucknow,** to "Corpl. A. Hayes, 90th Lt. Infy." Extremely Fine. Est. ($250-300)

The Defence of Lucknow bar is particularly desirable and values are based upon whether the recipient was part of the original defenders, or of the first relief force. In the case of the above, the recipient was among the relief force, and, therefore, is slightly less desirable than the original defenders.

3537 **Indian Mutiny Medal, 1857-1858.** One bar, **Relief of Lucknow,** to "Ml. McGee. 82nd Regt." Good Very Fine Est. ($200-250)

The single bar, Relief of Lucknow is scarce.

3538 **Indian Mutiny Medal, 1857-1858.** One bar, **Lucknow,** to "Drumr. F.G. Weale. 34th Regt." Extremely Fine. Est. ($175-200)

3539 **Indian Mutiny Medal, 1857-1858.** One bar, **Central India,** to "M. Williams. 14th Lgt. Drgns." Extremely Fine. Est. ($175-200)

3540 **Indian Mutiny Medal, 1857-1858.** Two medals, each with one bar, **Delhi.** One with ribbon, one without. With ribbon is to "Corpl. J. Strange. 61st Regt.," without ribbon is to "Patk. Leary, 75th Regt." Both medals Extremely Fine. (Total: 2 pieces) Est. ($200-250)

(Photo Reduced)

3541 **Second China War Medal, 1857-1860.** Three bars, **Fatshan 1857, Taku Forts 1860, Pekin 1860,** unnamed. Extremely Fine. Est. ($200-250)

This medal was issued to naval and military personnel engaged in Chinese campaigns between the years stated. Unnamed medals were issued to the Royal Navy, named medals to the Army. Though six bars were issued the highest known combination is five, awarded to only one person, with four being the scarcest generally encountered maximum.

3542 **Second China War Medal, 1857-1860.** One bar, **Canton 1857,** to "Gunner John Tucker, No. 4 B. 12th Bde. Rl. Arty." Extremely Fine. Est. ($175-200)

3543 **Second China War Medal, 1857-1860.** One bar, **Taku Forts 1858,** unnamed. Extremely Fine. Est. ($100-150)

Awarded to members of 11 ships which took part in the action.

3544 **Second China War Medal, 1857-1860.** One bar, **Taku Forts 1860,** to "Gunr. Robt. Gillon, No. 3 B. 13th Bde. R. Art." Extremely Fine. Est. ($175-200)

3545 **Second China War Medal, 1857-1860.** One bar, **Pekin 1860,** to "Drumr. Jas. Murnane. 99th Regt." Extremely Fine. Est. ($175-200)

3546 **Second China War Medal, 1857-1860.** Two bars, **Taku Forts 1860, Pekin 1860,** to "Ml. Tibyl. 67th Regt." Good Extremely Fine. Est. ($175-200)

3547 **Second China War Medal, 1857-1860.** No bar, unnamed. Extremely Fine. Est. ($50-75)

3548 **New Zealand Medal, 1860-1864.** To "216 Cpl. T. Oakshott, 49th Regt." Extremely Fine. Est. ($200-250)

Issued to commemorate actions in New Zealand, particularly against the Maori tribe. Various dates were issued on the reverse, some engraved at a later date, and others issued undated. Some dates are scarcer than others, the one above being less rare, and all dates between 1845 and 1848 being desirable.

3549 **New Zealand Medal, dated 1861-1866.** To "3297 Patk. Cleary. 57th Regt." Extremely Fine. Est. ($200-250)

3550 **New Zealand Medal, undated.** To "785. T. Richardson 40th Foot." Extremely Fine. Est. ($75-125)

3551 **Abyssinian War Medal, 1867-1868.** To "Clerk J.S. Pamsay H.M.S. Octavia." Extremely Fine. Est. ($175-250)

The Abyssinian Campaign was nearly bloodless, only two killed and 27 wounded but 14,000 medals were issued (12,000 to the Army and 2,000 to the Navy). Each recipient had his name embossed on the reverse. This is the scarcer Naval Medal.

3552 **Abyssinian War Medal, 1867-1868.** To "1456 P. Towey. 26th Regt." Extremely Fine. Est. ($125-175)

Medals were also awarded to native Indian troops and their names are most often engraved. This is the Army Medal.

3553 **Ashantee War Medal, 1873-1874.** One bar, **Coomassie,** to "4306, Dr. T. Neill, 42nd Highds, 1873-4." Extremely Fine. Est. ($500-600)

Only one bar was issued for this campaign and is scarcer than those medals without the bar. The issue to a doctor is very rare.

3554 **Ashantee War Medal, 1873-1874.** No bar, to "W.H. Lucas, Boy 1 Cl. H.M.S. Simoom. 73-74." Extremely Fine. Est. ($200-250)

The quaint rank of "Boy, First Class" is of interest, as well as the misspelling of the ship Simoon.

3555 **South Africa Medal, 1877-1879.** First medal has one bar, **1878-9** to "2051 Pte. J. Wright. 80th Foot," second medal has one bar. **1879,** to "1976. Pte. F. Goston 2/4tb. Foot." Both are Extremely Fine. (Total: 2 pieces) Est. ($200-275)

Medals were issued for action against native tribes including the Zulu. Each medal can have no more than one bar, each bar containing a date of action.

3556 **South Africa Medals, 1877-1879.** First medal has one bar, **1877-8-9** to "1417 Pte. J. Hayes. 2-24th Foot.", second medal has no bar, to "Asst. Commy. T.G. Alderton. A.S. Corps." Both medals Extremely Fine. (Total: 2 pieces) Est. ($275-325)

The second medal in this group is of particular importance due to the rank of the recipient.

3557 **Afghanistan War Medal, 1878-1880.** Three bars, **Charasia, Kabul, Kandahar,** to "B/394. Pte. A. Thompson. 92nd Highrs." Good Very Fine. Est. ($175-200)

A fascinating depiction of the campaign appears on the reverse of these medals.

3558 **Afghanistan War Medals, 1878-1880.** Three medals of consecutive regiments. First medal with one bar, **Kandahar,** to "2130 Pte. W.E. Insley. 2/7th Foot." Second medal with one bar, **Peiwar Kotal,** to "546 Lce. Corpl. M. Cooper, 2/8th Regt." Third medal, one bar, **Kabul,** to "451 Pte. C. Pullen, 2/9th Foot." All three are Extremely Fine with luscious toning throughout. (Total: 3 pieces) Est. ($350-450)

A fascinating group, including an interesting piece given to a Lance Corporal and a medal given for action in Kabul — a name that still reverberates with military action even today.

3559 **Afghanistan War Medals, 1878-1880.** Two medals, the first with one bar, **Ahmed Khel,** to "4554, Gunr. P. Healey, A/B, R.H.A." and the second medal with two bars, **Charasia, Kabul,** to "6811 Gr. J. Hunter. G/3rd. R.A." Both Extremely Fine. (Total: 2 pieces) Est. ($200-250)

Two interesting medals given to artillerymen.

3560 **Afghanistan War Medals, 1878-1880.** Three medals. The first with two bars, **Ahmed Khel, Kandahar,** to "1824. Pte C Rogers. 2/60th Foot" and the second with one bar, **Ali Musjid,** to "949, Pte. J. Murphy, 1/17th Regt." The third medal has no bar or ribbon, to "440 Pte. G. Glass. 78th Foot." All Extremely Fine. (Total: 3 pieces) Est. ($250-275)

3561 **Kabul to Kandahar Star, August, 1880.** Unnamed. Extremely Fine. Est. ($75-100)

This bronze star was awarded to men who had taken part in General Roberts' 300 mile march from Kabul to Kandahar between August 9th and 31st. The medal was made from captured guns and names were often impressed or engraved on the reverse.

3562 **Northwest Canada Medal, 1885.** One bar, **Saskatchewan,** to "Lieut. Lede. Labelle. 65eme. Bat." Grey toned Extremely Fine. Est. ($125-175)

This medal was awarded by the Canadian Government on September 18, 1885 to all who had taken part in suppressing Ribel's Rebellion, an uprising of local Indians led by a self-styled Utopian leader. The bar for Saskatchewan was the only one issued, to about 850 men who served at any or all of the three main battles.

3563 **Northwest Canada Medal, 1885.** No bar, unnamed and without ribbon. Attractively toned Extremely Fine. Est. ($75-100)

3564 **Egyptian Medal, 1882-1889.** Three bars, **El-Teb Tamaai, Suakin 1884, Tel-El-Kebir,** to "200 Pte. H. Money. 1/Gord: Highrs." Extremely Fine with some pitting. Est. ($150-200)

These three bars are in the wrong date sequence, and it is not uncommon to find medals of the Egyptian campaigns with mixed bars. Indeed, some were actually counterfeited, though there is no reason to suspect the authenticity of this medal.

3565 **Egyptian Medal, 1882-1889.** One bar, **The Nile 1884-85,** to "2232. Pte. J. Jones. 1/S. Staff: R." Extremely Fine, some pitting. Est. ($150-200)

The Egyptian Medal was often worn next to the pointed Khedive's Star, which resulted in pitting of the medal. It is rare to find a truly mint condition Egyptian medal, since most have been pitted or gouged.

3566 **Egyptian Medal, 1882-1889.** Two bars, **Kirbekan, The Nile 1884-85,** to "2252, Pte. R. Ropertson, I/R1. Highrs." Very Fine with edge knock and pitting. Est. ($200-250)

L.L. Gordon states that "This bar (Kirbekan), of which only 1,200 were issued, is never found singly, but always in conjunction with that for 'The Nile 1884-85,' and others when applicable. A medal with only these two bars is quite rare." He does not list the Royal Highlanders as being present at either battle with the result that this cataloguer does not know quite what the rarity or value of this piece is.

3567 **Egyptian Medal, 1882-1889.** One bar, **Gemaizah 1888,** to "2427. Pte. V. Higham. 20th Hussars." Good Very Fine, typical pitting. Est. ($175-225)

The owner of this medal scratched in his own initial "V." before the normally impressed name.

3568 **Egyptian Medal, 1882-1889.** One bar, **El-Teb Tamaai,** to "1129, Pte. G. Dickinson, 3/K.R.RIF. C." Good Very Fine. Est. ($175-225)

This bar is scarce.

3569 **Egyptian Medal, 1882-1889.** One bar, **Alexandria 11th July,** to "G. Gunnery Caps. Mate. H.M.S. Alexandria." Extremely Fine without pitting. Est. ($125-175)

A total of 821 medals were awarded to this ship for the bombardment of Alexandria.

3570 **Egyptian Medal, 1882-1889.** One bar, **Suakin 1884,** to "J. Elford, Pte. R.M.H.M.S. 'Euryalus.' " Very Fine, pitting. Est. ($175-225)

A total of 304 medals were issued to this ship.

3571 **Egyptian Medal, 1882-1889.** One bar, **Suakin 1885,** to "17066. Sapr. A. Andrews. 24th Co. R.E." Extremely Fine, no pitting. Est. ($125-175)

3572 **Egyptian Medal, 1882-1889.** Two bars, **Tofrek and Suakin 1885,** to "1873. Pte. J. Underwood. 20th Husrs." Extremely Fine, attractive dark toning. Est. ($200-250)

Only 82 medals were awarded to the one squadron of the 20th Hussars, and the bar, which is always in combination with Suakin 1885, is quite rare owing to the small number of British troops engaged at Tofrek.

3573 **Egyptian Medals, 1882-1889.** One bar, **Tel-El-Kebir,** to "1205. Pte. Ge. Glass 1st R/Hrs." and one miniature medal identical. Both Very Fine. Total: (2 pieces) Est. ($175-225)

3574 **Egyptian Medal, 1882-1889.** No bar, to "L.G. Spring. A.B. H.M.S. 'Minotaur'." Extremely Fine. Est. ($125-175)

3575 **Khedive's Egyptian Star, 1882.** No bar, unnamed. Extremely Fine. Est. ($50-75)

These five pointed bronze stars were issued by the Khedive Tewfik Mahommed to all who were awarded a medal for the Egyptian campaigns from 1882-1889.

3576 **Khedive's Egyptian Star, 1884.** No bar, to "725 Pte. George Pryor. 1st. Y & L.R." Extremely Fine. Est. ($50-75)

Four types of stars were issued, including an undated star awarded for the campaign near Suakin in 1887 and the Nile in 1889.

3577 **Khedive's Egyptian Star, 1884-6.** No bar, unnamed. Extremely Fine. Est. ($50-75)

One bar was issued, in Arabic for Takar, and names on the reverses were not officially engraved.

3578 **Indian General Service Medal, 1854-1895.** One bar, **Pegu,** to "Michl. Dee. 18th Royal Irish Regt." Extremely Fine with quite pleasing toning. Est. ($175-225)

Covering such a long period, the Indian General Service medal is frequently encountered. Bars were issued for widely separated campaigns, rather than issuing entirely new medal designs. Though the medals were authorized in 1854, the Pegu bar commemorates a campaign that took place from 1852-53.

3579 **Indian General Service Medal, 1854-1895.** One bar, **Persia,** to "Gunner R. Hoskins. Artillery." Good Very Fine. Est. ($175-225)

The war for which this bar was awarded took place in 1856 and 1857.

3580 **Indian General Service Medal, 1854-1895.** One bar, **Northwest Frontier,** to "981. J. Seaston H.M.S. 1st. Bn., 6th Regt." Extremely Fine. Est. ($175-225)

This bar was awarded for campaigns spread out over 19 years.

3581 **Indian General Service Medal, 1854-1895.** One bar, **Umbeyla,** to "2079. GR. A. Hickling R.A." Extremely Fine with multi-colored toning on obverse. Est. ($175-225)

This medal was awarded for action taking place from October to December, 1863.

3582 **Indian General Service Medal, 1854-1895.** One bar, **Bhootan,** to "3428. J Lloyd H. M's. 80th Regt." Toned Extremely Fine. Est. ($175-225)

Missing from this collection is the third Burma bar, with the dates 1889-92. It is unusual to find two medals from the same unit, and especially a unit with such association as the Royal Scottish Fusiliers.

3587 **Indian General Service Medal, 1854-1895.** One bar, **Burma 1887-89,** to "2363 Pte. T. Woodcock 2d. Bn. Leic. R." Extremely Fine. Est. ($175-225)

Miscellaneous British Decorations and Medals

3591 **Arctic Medal, 1818-1855.** No bar, as issued, and unnamed, as issued. Extremely Fine, wonderfully toned. Est. ($100-150)

A total of 1,486 men who took part in Arctic expeditions received this medal. The one here does not have the star and ring suspension, but rather the more traditional bar suspension. This unconventional suspension was probably placed on the medal some time ago. A charming medal.

3592 **Naval Long Service and Good Conduct Medal.** No bar, as issued, to "Alexr. Bain. Musician. 2nd. Co. R.M.L.I." Good Very Fine, nicely toned. Est. ($100-150)

A fascinating medal given to a musician. Beautifully executed, there are three kinds of Victorian Long Service medals, this being the commoner type.

3593 **Army Long Service and Good Conduct Medal,** to "3011 J. Carroll 87th Foot." Extremely Fine and wonderfully toned. Est. ($100-150)

3594 Two unusual medals, the first a small diamond shaped piece with a thin sky blue ribbon reading "The Soldier's Total Abstinence Association, Watch and Be Sober" on the obverse and a small lion and the word "India" on the reverse. The second is a larger oval piece with the same obverse as previous, but with the added date "MDCCCLXII," and on the reverse the legend "The Association Medal for Fidelity + India +." A fascinating pair of medals that well compliment some of the India General Service medals offered earlier. (Total: 2 pieces) Est. ($175-200)

End of Session IV

Americana

The Americana portion of the Springfield Collection is unusual in both its breadth and depth of representative areas. Not since our Garrett Collection, Part IV has there been such an extensive offering of American medallic expression.

Washington medals are represented from early to late issues, with a number of unpublished specimens. The U. S. Mint medal section covers Assay medals, Indian Peace and an unusual Presidential series. In the token area, Hard Times, Merchants and Civil War tokens are represented by many issues, including some great rarities. The political tokens section is outstanding with many rarely offered pieces. The balance of the collection represents a wide range of medals—so-called dollars, Columbian, Lincoln, and fraternal issues, concluding with a small section of obsolete currency.

Indeed, it can properly be said that this section of the catalogue offers something for everyone. Specialists and novices will find it worthwhile to carefully read the lot descriptions for pieces they desire, and then to reserve a place on their library shelf for the catalogue—it will prove to be a valuable reference source in the future.

Washington Medals

The consistent popularity of the Washington series is evident by their strong showing in the Garrett IV Sale and in the recent ANA Sale. The standard reference cited throughout is *Medallic Portraits of Washington* by W. S. Baker, 1885, revised by G. J. Fuld in reprint form in 1965. The 1889 centennial series by S. H. Douglas, reprinted from *The Numismatist* of 1949 is used for attribution of this medal series. The following group of medals offers a number of rarities and some depth in the middle-of-the-road areas, as it comprises the amalgamation of three distinct collections.

4000 Baker 14 The bronze Robinson fantasy cent (Lot 1743 of Garrett at $200); Baker 50A with missing inscription, white metal, reeded edge, Uncirculated; and B-81 which probably once was mounted at 12 o'clock with minimal disturbance otherwise. Very Fine. Total: 3 pieces. ($135-175)

4001 B-25 Idler struck copies of Getz half dollar of 1792. Two specimens, one in copper, mostly red Uncirculated, and brass Uncirculated but few copper spots and poorly struck on shield. Total: 2 pieces. ($150-200)

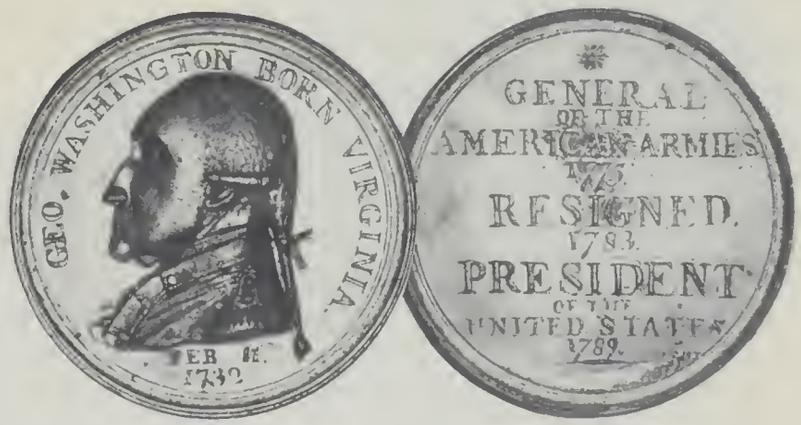
4002 Same as preceding, but struck in bronze. Fully as handsome a medal and quite attractive. ($85-120)

4003 Same as preceding, B-25 struck copy, but in copper; dull Uncirculated with some red. ($85-120)

4004 B-48 The French Mint restrike of the Washington Before Boston medal, bronze Fuld Type III-C (See article in the *TAMS Journal*, October, 1964). Lustrous bronze strike, Uncirculated with slightest rubbing on peak of hair. ($125-165)

4005 B-48 Duplicate of preceding, Fuld Type III-C. Undoubtedly bronze, but duller in appearance and may be copper. About same die state as preceding lot, struck about 1860. Uncirculated ($125-165)

4006 B-50 Brass, reeded edge, Uncirculated: B-91 silver Mint medal, About Uncirculated with only slightest rub on hair; B-113 white metal Uncirculated but few fingerprints in field. Total: 3 pieces. ($100-130)



4007 **B-61 Manly medal,** fully Uncirculated with much mint red and probably the finest known, except that Manly or a sales agent removed his name from the lower reverse with an engraving tool. Extremely rare in this exceptional condition. ($600 +)

4008 B-66 The Wyon medal, only known in white metal. This specimen is About Fine with some field nicks. It was holed at 12 o'clock and then broke through the thin edge; B-69 the popular Wyon penny size piece of 1796 (but the undated type) often called a colonial coin. This specimen evenly worn Fine to Very Fine with some obverse rim bruises. The prooflike Garrett piece went for $450. Total: 2 pieces. ($175-225)

4009 B-72 The Sansom restrike in bronze, Uncirculated; B-91 silver Mint medal in Proof with mottled toning; B-94 Providence in copper, dull Uncirculated; B-97 bronze Uncirculated with very slight hair rub. Total: 4 pieces. ($70-95)

4010 B-76 An unusual grouping in four different metals: bronze Uncirculated; white metal Uncirculated; brass Uncirculated and copper partly red Uncirculated. Total: 4 pieces. ($110-140)

4011 **B-78 The Voltaire medal.** A choice example in copper Uncirculated condition. Certainly rare in this condition and not in the Garrett Collection. Struck in France in 1778 or so, with a completely fictitious portrait — an important early Washington medal. ($300-350)

4012 B-79 The Hero of Freedom medal. Struck in copper, Extremely Fine and fully equal to Garrett's specimen which sold for $450. ($300-350)

4013 **B-79 Another Hero of Freedom medal,** but this one struck in fire gilt as noted in Fuld reprint. Extremely rare contemporary fabric. Extremely Fine with slight rubbing of the gold finish apparent on the high spots. Rim ding on the reverse. ($325-375)

4014 B-81 The Westwood medal — struck in copper, prooflike Uncirculated with traces of mint red in protected regions. Virtually identical to Garrett's B-80, the other die type which sold for $450. ($300-350)

4015 **B-85 The Eccelston medal.** Because of it's historical significance, it is worth repeating the description of Lot 1769 from our Garrett sale.

As noted on page 177 of *The History of United States Coinage as Illustrated by the Garrett Collection,* this piece apparently was issued with a twist of subtle satire. The obverse of the medal depicts Washington in a heavy suit of armor, 'a singular conceit', notes Baker. The reverse has an Indian standing head downcast, with an arrow in his right hand and leaning on a bow. The legend reads in several concentric circles: HE LAID THE FOUNDATION OF AMERICAN LIBERTY IN THE XVIII CENTURY. INNUMERABLE MILLIONS YET UNBORN WILL VENERATE THE MEMORY OF THE MAN WHO OBTAINED THEIR COUNTRY'S FREEDOM. Then, surrounding the Indian at the center, are the words THE LAND WAS OURS. The medal appears to be more of a commentary of the expropriation by colonists of Indian lands than a tribute to Washington.

In any event, the Eccleston medal today stands as one of the most beautiful, handsome productions honoring Washington. Daniel Eccelston, who produced the piece, was a resident of England. He also produced a Condor token bearing his likeness in 1800.

The present specimen is About Uncirculated in copper, with considerable mint lustre in the protected region. It has a few minor scratches. ($750 — up)

4016 B-91 Silver Mint medal in Fine; B-91 in thick bronze Uncirculated with traces of mint red in protected regions. Virtually identical to Garrett's B-80, the other die type which sold for $450. ($300-350)

4017 B-95 Double headed medal, struck in brass and unknown in this fabric to Fuld in 1965, Uncirculated and Extremely rare; B-95 in copper red Uncirculated; B-113 the Home in white metal, Uncirculated with some toning; and B-113A laurel wreath obverse with blank reverse in white metal. 4100 **The famous Society of the Cincinnatus gold membership badge**, probably by Bailey, Banks and Biddle. **Gold**, probably 18 carat from hue; with enameling in green, white and blue. Ruby inside both eyes of the eagle.

From its appearance it is probably not one of the early badges dating to the early eighteenth century, but probably dates from about 1860 to 1880. Fresh and new — even the ribbon is perfect. Gross weight of badge is 480 grains.

The Society of the Cincinnatus was the first patriotic order founded in America in 1783, and Washington was persuaded to serve as its first President. Presumably the Society is still in existence today, but we have heard of no recent activities. Exceedingly rare and desirable. ($1000-up)

This ends the Section on Washington medals.

Assay Commission Medals

The Assay Commission has been an important part of American coinage tradition. Once each year an honorary group of important citizens has met to review samples of the previous year's coinage to determine that the coinage is right and proper. The custom dates back to the old British trial of the pyx. This was formally instituted by an order of King Edward I in 1279, but actually it had been in use for some years earlier.

In America, the Assay Commission first met in 1793 and met continually from that time until President Jimmy Carter, in a flush of enthusiasm for government economy early in his administration abolished it.

The first Assay Commission medals were struck in 1860 and were distributed to members of the commission as well as to various officials of the Treasury Department. Although no specific documents exist as to why the first Assay Commission medals were produced in this year, it is believed that James Ross Snowden produced them to honor members of the Commission with a memento of their service and, more important, as part of Snowden's campaign in the 1860 era to enlarge the Medal Department of the Mint. New medal products of the Mint were featured with pride in other exhibits and were the focus of attention by Mint officials.

Following the issuance of Assay Commission medals in 1860 and 1861, there was a lapse in production until 1867, after which pieces were produced continually on an annual basis. The medals, with rare exception, were made in very limited quantities strictly for members of the Assay Commission, Mint officials and an example for the United States Mint Collection. Certain issues were struck in different metals or in odd die combinations, possibly to create rarities, but considering the potential for abuse, very few fantasy productions appeared.

Today the Assay Commission medals are considered to be among the rarest of all United States medallic productions. In recent decades there have only been four public offerings of significance: the 1952 ANA Sale by New Netherlands Coin Co (referred to in the list as NNC lot), our own fixed price offering of December, 1969 (cited as H & B 69), a fine auction presentation of Lester Merkin on September 25, 1970 (referred to as LM Lot), and the Garrett IV offering(referred to as Garrett Lot).

The cataloguers recommend that prospective bidders acquire or consult a copy of *Medals of the United States Mint, the First Century, 1792-1892*, by R. W. Julian, edited by Neil Harris, published by the Token and Medal Society in 1976. This superb book gives detailed information on Assay Commission medals as well as many other productions including, Mint medallets, Indian Peace medals, award medals, and other productions. Julian will be the cited reference for these series which immediately follow the grouping of Assay Medals.

4101 **1860 Assay Commission Medal.** Bronze 33 mm. Julian AC-1.Bronzed Proof but slight coin contact abrasions at several points. Obverse of Longacre's head as proposed for certain pattern half dollars the preceding year. Identical type sold as Garrett Lot 1931 for $375. Not in LM sale or NNC sale. ($275-325)

4102 **1870 Assay Commission Medal.** Bronze 33 mm. Bronzed Proof. Julian AC-8. New design by William Barber, whose initials appear at lower left of obverse. Features Columbia standing with symbols in background. J. POLLOCK DIRECTOR appears on obverse, a distinct departure from tradition.

Bronze appears to have been the intended fabric for commission members. Interestingly enough the extensive NNC offering had the 'rare' silver piece, but none in bronze. Garrett Lot 1938 sold for $550—indicating its rarity. ($400-450)

4103 **1870 Assay Commission Medal.** Aluminum 33 mm. Julian AC-8 Proof, with some minor planchet striations as on preceding lot as well as on the Garrett coin. Believed to be an issue made strictly for coin collectors.

As noted in Garrett Lot 1940, all 1870 seen have a prominent die break at the upper right sector of the '8' of 1870. There was no aluminum specimen in NNC sale. The present specimen is in the original case of issue!! Garrett Lot 1940 sold for $400. ($300-350)

4104 An exact duplicate of Lot 4103. Struck as a proof but hairlined, and pea-sized corrosion spot has formed at 3 o'clock. An unusual offering of two specimens of the same medal at one time. It is interesting that although Garrett had an aluminum piece, none was available to Raymond (NNC) but Merkin illustrated Lot 637. ($250-300)

(See Color Photo)

4105 **1871 Assay Commission Medal.** Silver 33 mm. Julian AC-9. Silver Proof but dipped years ago and retoning. Not in the Garrett offering, but was offered as NNC Lot 1533, and LM Lot 638.

This new design by Barber carries Pollock's ego-trip one step further — the engraver's name does not even appear on the medal. Silver was the regular issue given to the members and apparently 24 were struck. All Garrett silver assays sold above $900 apiece — we assume this specimen will approach that figure. ($750-850)

4106 **1877 Assay Commission Medal.** Bronze 33 mm. Julian AC-16. Bronzed Proof. This continues the design of 1871, but Pollock's name does not appear. A single metal issue with 25 pieces struck. Listed as NNC Lot 1538, LM Lot 646, but not in Garrett. ($400-450)

4107 **1879 Assay Commission Medal.** Bronze 38 mm. Julian AC-19. Bronzed Proof. This medal by Barber is in memory of H. R. Linderman, late director of the mint. The reverse is in honor of J. Henry Secretary of the Smithsonian, but death date is in error — should be 1878. Four silver and 30 bronze medals were struck. ($400-450)

4108 **1880 Assay Commission medal.** Bronze 33 mm. Julian AC-20. Bronzed Proof. A unique medal, since it was the first to show a President currently in office. Engraved by George Morgan (of Morgan dollar fame) on the obverse, and Charles Barber on the reverse (of note for the Barber dime, quarter, and half dollar fame). Records show that 38 silver specimens were struck, but bronze was apparently not an official metal. Certainly bronze should have been issued in much more limited quantities and are obviously quite rare. Not in the Garrett offering, but one sold as NNC Lot 1542 and LM Lots 651 and Lot 652. A rare opportunity to obtain this exceedingly rare medal. ($400-450)

(See Color Photo)

4109 **1880 Assay Commission medal.** Bronze 33 mm. This is the unadopted pattern issue listed as Julian AC-22. Bronzed Proof. This obviously limited issue with a reverse also by Morgan shows a bearded assayer at work. Not in the Garrett offerring, but sold at NNC Lot 1541 and LM Lot 653. Quite rare and a unique opportunity to obtain this pattern Assay medal in pristine condition. ($425-475)

(See Color Photo)

4110 **1881 Assay Commission medal.** Silver 33 mm. Julian AC-24 but with the alternate reverse C.E.B. and for some reason not given a separate number. Silver, toned Proof and a magnificent appearing specimen. This type is a subvariety of AC-24 as listed by Julian with the C.E.B. reverse. (The illustration in Julian shows the regular reverse with the signature 'B' — the present coin is not even illustrated. Julian indicated that he was puzzled as to whether the B. or the C.E.B. reverse was the originally issued piece — a search of Mint records apparently did not shed light on this problem. Records show that 27 net medals were struck, but there is no indication as to the mixture of the issue between the two varieties. Obviously this reverse variation was not always recognized by previous offerings so little further light can be offered on this odd situation. A strikingly beautiful specimen. Sold as NNC Lot 1543 but reverse not noted, not in Garrett. LM Lot 654 was noted as C.E.B. and this may well be the same specimen. ($800-850)

4111 **1884 Assay Commission medal.** Bronze 33 mm. Julian AC-27. Bronzed Proof. An attractive piece showing President Arthur in bronze (only one specimen struck in silver, apparently for the President). A lovely specimen. Offered as NNC Lot 1546, and LM Lot 657. ($400-450)

4112 **1887 Assay Commission medal.** Bronze 33 mm. Very Fine to Extremely Fine, obviously it has seen some wear, perhaps as a pocket piece. Bust of Grover Cleveland with justice reverse. No records exist as to the number struck as base metals records were rarely kept — but probably about 30 were struck. Offered as NNC Lot 1549. ($350-400)

(Photo Reduced)

4113 **1888 Assay Commission medal.** Bronze **76 mm.** Julian AC-31. Bronzed Proof. This is a startling departure in the Assay medal series — being struck in a jumbo 76 mm. size, using the regular Presidential inaugural die of 1885. There is no valid explanation for this big size jump in 1888 and 1889 — sanity returned to the Coin and Medal department in 1890! Records indicate that 30 pieces were struck — this is the first of these large size pieces seen by the present cataloger (GJF) and the large size medal's rarity may be attested to by the absence of both 1888 and 1889 issues from the very extensive Raymond Collection in the 1952 NNC and the Lester Merkin offerings. Certainly very rare, and especially desirable for its departure from the standard size issue. ($500-600)

(See Color Photo)

4114 **1890 Assay Commission medal.** Silver 33 mm. Julian AC-33. Struck as a Proof, but dipped and not retoned. Bust of Benjamin Harrison to right. Engraved by C. E. Barber and apparently 26 copies struck in silver, although bronze specimens do exist. Offered as NNC Lot 1550, LM Lot 660. Rare as always. ($800-850)

NOTE: Julian only lists medals through 1892 (the first century) so all listings after this do not refer to Julian!

4115 **1901 Assay Commission medal.** Silver **37 x 54 mm. Plaque style.** This short series of plaque type medals, another departure from uniformity (like the 1888 and 1889 issues) were made in the more modern matte type finish, and are best described as Uncirculated with lovely original toning.

The change in the Assay medal design to the plaque shape occurred in 1901 and continued unchanged in style until 1909, when the issuance of round 44 mm. medals started again. The radical departure from the round medals in 1901 is in a way less startling than the simple expedient of adapting larger existing mint dies done in 1888 — there is a considerable case for artistic merit for the plaque designs, although there was minimal design change from year to year during their tenure. Perhaps one can attribute the new design to the upsurge of contemporary American sculpture in the early years of the 20th century.

Plaque medals have always been in great demand, especially ones showing Teddy Roosevelt. Although most of the years were represented in the Raymond NNC 1952 offering, this particular 1901 piece was notably missing, but offered as LM Lots 667 and 668. Of great rarity. ($700-750)

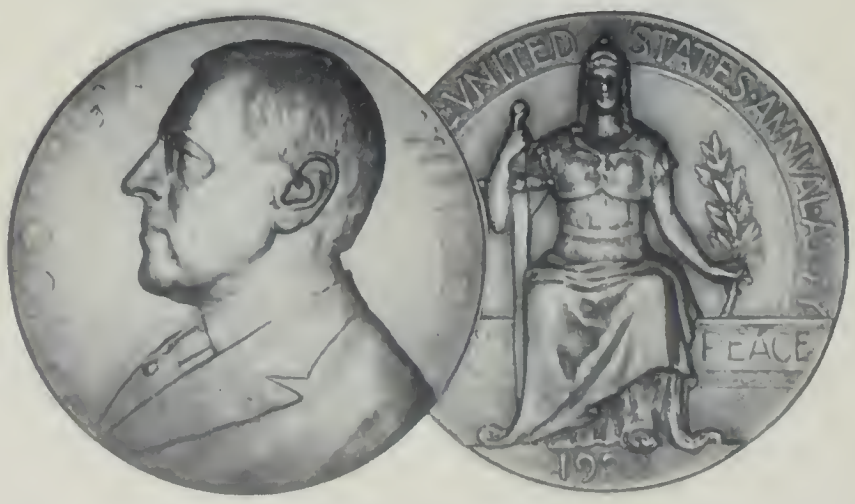
(See Color Photo)

4116 **1907 Assay Commission medal.** Silver 37 x 54 mm. Listed in *Medallic Portraits of Theodore Roosevelt* as Fuld N.RO.ME.1907.2. The piece shows minor signs of handling and is About Uncirculated. This striking portrait of Roosevelt was used from 1902 to 1907, and followed the McKinley tradition. This has always been a popular Roosevelt collectible, as well as an Assay piece. A specimen resides in the ANS collection, and was offered as NNC Lot 1563, but was absent from the Merkin sale. ($700-750)

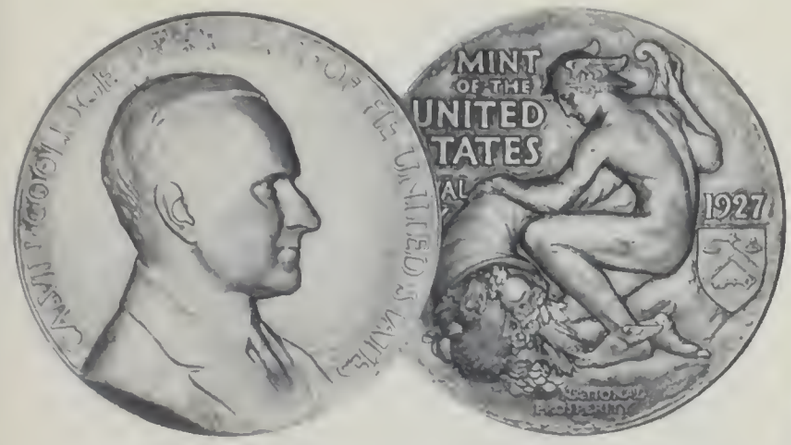
NOTE: The extensive Raymond collection sold by NNC in 1952 contained no issues after 1913 — extensive 20th-century collections of Assay medals are virtually unknown.

4117 **1919 Assay Commission medals.** Bronze 50 mm. In modern bronze, Uncirculated condition. This piece represents the standard size medal from 1910 to the series discontinuance in 1976. This shows a standard portrait of Wilson, with about 30 issued. All 20th-century pieces tend to be harder to locate than 19th-century Assay medals. A choice and rare specimen. ($350-400)

4118 **1919 Assay Commission medal die trial.** Bronze 50 mm. In typical 20th-century bronze late finish, Uncirculated. This particular medal is a blank side die trial of the 1919 reverse only of the regularly issued Assay medal. Die trials of Assay Commission medals are always rare — certainly less than a handful exist. Of the utmost rarity and first we have seen. ($500-up)



4119 **1920 Assay Commission medal.** Bronze 50 mm. Uncirculated. Identical obverse to the 1919 medal, but with World War I victory scenario on reverse. A strong but slightly awkward rendering. Again about 25-30 pieces struck. ($400-450)



4120 **1927 Assay Commission medal.** Bronze 50 mm. About Uncirculated. Obverse of Calvin Coolidge with national prosperity reverse. This piece is unusual in that the edge of the medal is stamped with the commission member's name ROBERT S. GRAHAM. It is assumed that this practice occurred more frequently, but it has seldom been noted. ($350-400)

4121 **1931 Assay Commission medal.** Bronze 50 mm. Uncirculated. This portrait medals of Hoover facing right, showing the U. S. Mint on the reverse, often used in later years is one of the more uninspiring issues of the Assay medals. Very rare. ($275-325)

4122 1931 Assay Commission medal. Bronze 50 mm. About Uncirculated with some mottling of the finish possibly not due to wear. It is identical to Lot 4121 — it is rare to seen duplicates of these late Assay medals — obviously the owner acquired all offered him in hopes of trading duplicates for ones that he did not have. ($250-300)

4123 **1932 Assay Commission medal.** Bronze 50 mm. Uncirculated as issued. The very popular and certainly one of the rarest Washington Bicentennial medals of 1932 showing medallion portrait of Washington on the obverse. Although full data is not available, there is no reason to assume that more than the usual 25-30 medals were struck in this Bicentennial year. Rare and valuable. ($300-350)

4124 1932 Assay Commission medal. Bronze 50 mm. Uncirculated but pea-sized mild corrosion spot on obverse. Once again a rare occassion when two of a very rare medal are offered in the same auction — this may never occur again in numismatic history. ($250-300)

4125 **1933 Assay Commission medal.** Bronze 50 mm. Light golden color as issued, Uncirculated but slight rub on high spots. This piece shows a portrait of the Secretary of the Treasury, Ogden Mills facing left engraved by John R. Sinnock. Note date 1933 over 1931 as first mentioned by Merkin. Again very rare and valuable. ($275-325)

4126 **1934 Assay Commission medal.** Bronze 50 mm. About Uncirculated. Certainly one of the most unprepossessing of the Assay medals. Obverse is like the reverse of 1931, while the reverse is identical to the reverse of 1932 with necessary date change. Thus we have a 'beautiful' medal with a picture of the U.S. Mint on **both** sides. Due to the depression, the Mint might have tried to save money emitting this 'albatross' of a production as a result.

This medal is unequalled in its lack of imagination in the Assay medal series. Very rare and obviously rare as any issue since supposedly the money was limited. Rarely offered. ($275-325)

End of the Assay Commission medal series.

Indian Peace Medals

The second series of U.S. Mint medals covered by Julian in detail are the well known Indian Peace medals. Although the first Indian Peace medals, issued by Great Britain in 1717 were bronze, virtually all the official presentation pieces given Indians by the U. S. Government were struck in silver. For additional details on these medals, the reader is referred to John Paul Prucha's *Indian Peace Medals* and the extensive introductory material to this series in the Garrett IV sale.

There has been some comment by collectors that bronze medals were in some cases presented to Indians, and a few have been unearthed at burial sites. The common consensus of the experts in the field is that all issues from 1789 to 1896 (the last recorded presentations) were silver. There is the possibility that some of the Indian agents or Indian traders purchased bronze specimens and either sold or traded some of these to Indians in the later part of the nineteenth century. It is not beyond the realm of possibility that some of the more unscrupulous agents had the medals silver plated and holed to make them look more authentic but there is no contemporary proof of this. Large groups of holed, silver plated medals have turned up in recent years — all seen are twentieth century strikes, and some have accompanying documents from Indians on reservations, especially in the Oklahoma area. All examined (upwards of 150) have proved to be completely spurious and have not been offered by Bowers and Ruddy to the collecting public.

The first U.S. pieces were large oval hand engraved silver pieces under Washington's administration, dated 1789, 1792, 1793 and 1795 and all made outside the Mint. All are of extreme rarity, and numerous deceptive counterfeits exist. The first Mint made pieces, with the familiar crossed peace pipe and tomahawk were made in 1804 under the administration of Thomas Jefferson.

The Mint made available to collectors copies of the medals in bronze, officially starting in 1861 and unofficially earlier. Most silver issues were struck in three basic sizes — 76 mm., 62 mm. and 52 mm. — not all were generally distributed in copper or bronze. To make matters more intriguing, the Mint made available bronze (and silver on special order) 76 mm. Washington medal, but the dies were first manufactured in **1903** and a bronze 52 mm. John Adams medals first produced about 1878. The ensuing collection of medals was nearly complete in the regular issues in bronze. It is composed mainly of the Springfield collection, all acquired before 1905 with a few additions.

The large holding of these medals in the well catalogued NASCA-Spangenberger collection in April, 1981 is referred to where appropiate — many pieces offered here were not represented in that extensive holding.

After the conclusion of the Indian Peace series (Julian IP listings) the regular Presidential series will be be offered (Julian PR listings) — the later group has not been offered in any recent catalogues.

4127 **John Adams 1797** Bronze 51 mm. Julian IP-1. Light brown bronze Proof obviously struck before 1905 and probably in the 1890 period. Both recent specimens offered by NASCA, Lot 1591 and 1592 had the early reverse (pre-1846). This specimen with heaving reverse lettering and square E's in PEACE, is from the 1846 dies and thus is completely different from the specimen shown by Julian and the NASCA Providence sale. A superb specimen of high rarity, struck only for collectors — it may well be the 1878 piece referred to by Julian. ($150-up)

4128 Thomas Jefferson 1801. Bronze 76 mm. Medium chocolate bronze Proof with long 45° die break from center to l o'clock as mentioned by Julian. Virtually mar free and far superior to NASCA Lot 1592. ($125-up)

4129 James Madison 1809. Bronze 62 mm. Julian IP-6. Dark red-brown Proof. This specimen is from the 1880 period with the 1846 reverse. It is a much earlier strike than NASCA Lot 1595. An attractive specimen. ($125-up)

4130 James Munroe 1817. Bronze 62 mm. Julian IP-9. Deep red-brown finish, dull bronze Proof. This is not the size customarily sold by the Mint to collectors, and probably dates to the 1861 issues using the 1846 reverse. No die repolishing like NASCA Lot 1598 and thus presumably an earlier strike. ($100-up)

4131 John Quincy Adams 1825. Bronze 62 mm. Julian IP-12. Deep chocolate mahogany, but some minor abrasions causing us to grade the piece Choice About Uncirculated. Similar to NASCA Lot 1602 with reverse of 1846 type. ($125-up)

4132 Andrew Jackson 1829. Bronze 62 mm. Julian IP-15. About Uncirculated from a Proof strike by virtue of a few minor rubs **not** penetrating the bronze finish. Medium brown finish of the 1860-1880 period with the reverse of 1846. As on NASCA Lot 1605, the specimen has a broken R in FURST and a bulge under T of UNITED on the obverse. Minimal, if any, die rust. ($150-up)

4133 Martin Van Buren 1837. Bronze 62 mm. Julian IP-18. Bronze Proof with infinitesimal rub on high point of reverse. Reverse of 1846 type with medium red-brown color of 1860-1880 strikes. **Not** offered in the NASCA Sale. Obviously quite rare. ($150-up)

4134 John Tyler 1841. Bronze 62 mm. Julian IP-22. Struck in Proof with deep red-brown color. As with NASCA Lot 1610, there is recutting of the 8 in 1841, with the reverse of 1846. There is a large period above and between EN of PRESIDENT, obviously intended for a guide when holing the medal. This period shows on the Julian plate but is not mentioned — obviously this is an original obverse die. Scarce and desirable. ($150-up)

4135 James Polk 1845. Bronze 62 mm. Julian IP-25. Struck as a Proof in red-brown lustrous finish in high relief and clearly original dies. NASCA Lot 1615 drew active bidding — this specimen in even better state of preservation. ($225-up)

4136 Zachary Taylor 1849. Bronze 62 mm. Julian IP-28. Bronze Proof in red-brown mahogany color of the 1860-1880 period from **original** dies. Unlike the restrike IP-28 in NASCA Lot 1619 with early pre-1846 die, this specimen has the proper post-1846 reverse die. Certainly rare. ($175-up)

4137 **Millard Fillmore 1850.** Bronze 62 mm. Julian IP-31. Bronze Proof though slightly dull in deep red-brown mahogany. These were struck before 1892 when the 76 mm. size were offered for sale to the general public.

This medal is the first use of the Joseph Willson reverse showing a standing settler conversing with an Indian standing in front of a large United States flag. As on the inferior NASCA Lot 1622, there is a raised die scratch to the right of VIRTUE and a die break across the Indian's left foot and ankle. This does not appear on later usage of this reverse, which were probably made from a new hubbing. The slightly poorer NASCA piece sold for $450, this should realize more. ($450-up)

4138 Franklin Pierce 1853. Bronze 62 mm. by Ellis and Willson. Julian IP-33. Bronze Proof. There is a thin but very apparent die break on the obverse at 45° through the first N of FRANKLIN, but it nowhere near as progressed as on NASCA Lot 1628. Struck with a red-brown mahogany finish, undoubtedly struck near 1860 — the reverse die is perfect in contradistinction to the reverse of Lot 4137. Julian surprisingly does not mention premature obverse die failure. ($150-up).

4139 **James Buchanan 1857. SILVER** 76 mm. Julian IP-34. In Fine to Very Fine condition, with original hanger as illustrated, but there has been retooling on the reverse to remove the bow and arrow and the quiver of arrows. There are a number of handling marks, consistent with actual Indian usage.

This extremely rare silver Peace medal was not offered in either the Garrett or NASCA holdings, although the Mint records indicate that 69 medals were struck in silver. Obviously Julian found this medal elusive, since it was **not** illustrated from the ANS holdings nor from a specimen of the extremely rare bronze piece that follows in Lot 4140. Presumably the silver pieces were struck about 1859, outside the Mint, the delay being due to the death of Ellis.

The reverse shown here on the medallion was another new departure in the design of Indian Peace medals, and was used for the next several issues including that of Lincoln.

The present specimen was acquired through a Joseph Lepzyck Sale several years ago, but there are no other meaningful sales records on this rare silver medal. Certainly this is the stellar attraction of the Indian Peace medals offering in this sale. ($3500-up)

4140 **James Buchanan 1857. Bronze** 76 mm. Julian IP-34. Bronze Proof with just the scantiest trace of contact marks. Red-mahogany color of the 1860 period.

Surprisingly enough this is probably the rarest single regular issue bronze Peace medal, and again is **not** illustrated in Julian. Julian could only trace one medal, in the Longacre Sale of 1870, Lot 293 and apparently none have been offered publically since then. The significance of this bronze strike from the **regular** die combination cannot be overemphasized (the 'regular' mule pieces offered for sale by the Mint like IP-36 all utilized the old, obsolete reverse.

Note that the reverse pictured here is signed J. WILLSON, but was not able to have been used after 1862 when it broke after eight strikes of the Lincoln silver Peace medal. New dies when prepared left off Willson's name. Worthy of a run-away bid. ($750-up)

(See Color Photo)

(Photo Reduced)

4141 **Abraham Lincoln 1862.** Bronze 76 mm. Julian IP-38. Strong red mahogany Proof and probably the single most attractive finish in this extensive offering of Mint medals. Virtually no rust marks, like those apparent on NASCA Lot 1830, but of course like all bronze copies, this is from the new reverse die without the J. Willson signature.

Lincoln pieces were always popular with collectors, but the Ellis-Willson was less so than the Morgan Lincoln medal — accounting for its apparent greater rarity. In great demand — the slightly inferior NASCA Lot 1630 sold for $430, but this specimen should bring a higher price due to the beauty of this particular specimen. ($450-up)

(Photo Reduced)

4142 **Andrew Johnson 1865.** Bronze 76 mm. Julian IP-40. A deep red mahogany Proof, fully as nice as NASCA Lot 1633 which sold for $475. Once again the inventive Mint engravers came up with a new reverse design, although the cataloguer does not feel it is an improvement on the Willson design. ($400-up)

4143 Andrew Johnson 1865. Bronze. 76 mm. Julian IP-40. Bronze Proof, and virtually identical to Lot 4142, but bright red mahogany finish, much different from that on Lot 4142. A true **GEM** medal. ($450-up)

4144 **Ulysses S. Grant 1871.** Bronze 62 mm. Julian IP-42. Deep brown bronze Proof with just the slightest hair rub. Lovely specimen of another great design departure in the Peace medal series, struct before 1879 when they were no longer sold to collectors. The NASCA specimen Lot 1636 sold for $400, this lovely piece will undoubtedly bring more. ($400-up)

(See Color Photo)

4146 **Rutherford B. Hayes 1877.** Bronze. 20 x 76 mm. Julian IP-43. Deep chocolate bronze Proof. Mint records show that only **38 specimens of this medal were struck.** A slightly inferior copy sold as NASCA Lot 1637 for $600. This is the first of the series of the Mint designers newest wrinkle in Indian Peace medals, the oval form. A beautiful example of the exceedingly rare bronze oval medal. ($600-up)

4145 Ulysses S. Grant 1871. Bronze 62 mm. Julian IP-42. Reddish bronze Proof, with several minor contact abrasions in the field. Choice, equally as desirable as Lot 4144, and of course struct before 1879. In great demand. ($400-up)

NOTE: A special reminder to our mail bidders. On the page of Helpful Mail Bidding Suggestions, bidders may take advantage of the "ONE LOT ONLY" option where several examples of the same piece appear in the sale. Thus if a bidder wants only one copy of the Grant medal in Lot 4144 and 4145, this option may be used. See the detailed discussion at the front of this catalogue.

(See Color Photo)

4147 **James A. Garfield. 1881.** Bronze 60 x 76 mm. Julian IP-44. Deep red Brilliant Proof and aside from the Lincoln medal mentioned earlier the most startlingly beautiful finish to appear. Extremely rare in early bronze — not in the NASCA offering. Records show than **only 32 early bronze medals were struck.** In great demand. ($750-up)

4148 **Chester A. Arthur 1881.** Bronze 60 x 76 mm. Julian IP-45. Deep red-brown Proof. A pristine specimen of the oval Peace medal, also lacking from the NASCA offering. According to Mint records, only **21 pieces were struck in bronze** making it probably the rarest of the Indian Peace medals. Of obvious extreme rarity, and the first specimen ever seen by the cataloguer in over 30 years. Good luck! ($650-up).

4150 **Benjamin Harrison 1889.** Bronze 60 x 76 mm. Julian IP-47. Light brown-red mahogany Proof in superb preservation. This was one of the few oval Peace medals offered in the recent NASCA Sale, Lot 1638, but their data showing only 22 minted is different from our interpretation of Mint reports which shows actually **51 specimens minted**, still an extraordinarily small issue for a publically sold Mint product. A beautiful and rare piece. ($600-up)

(See Color Photo)

4149 **Grover Cleveland 1885.** Bronze 60 x 76 mm. Julian IP-46. Light mahagony Proof in superb condition. Like the preceding Lot, with apparently only **19 pieces struck**, actually making it by a small margin the rarest of the oval Peace medals. Of course also lacking in the NASCA Sale, or in any other recent offering. Obviously of extreme rarity. ($650-up)

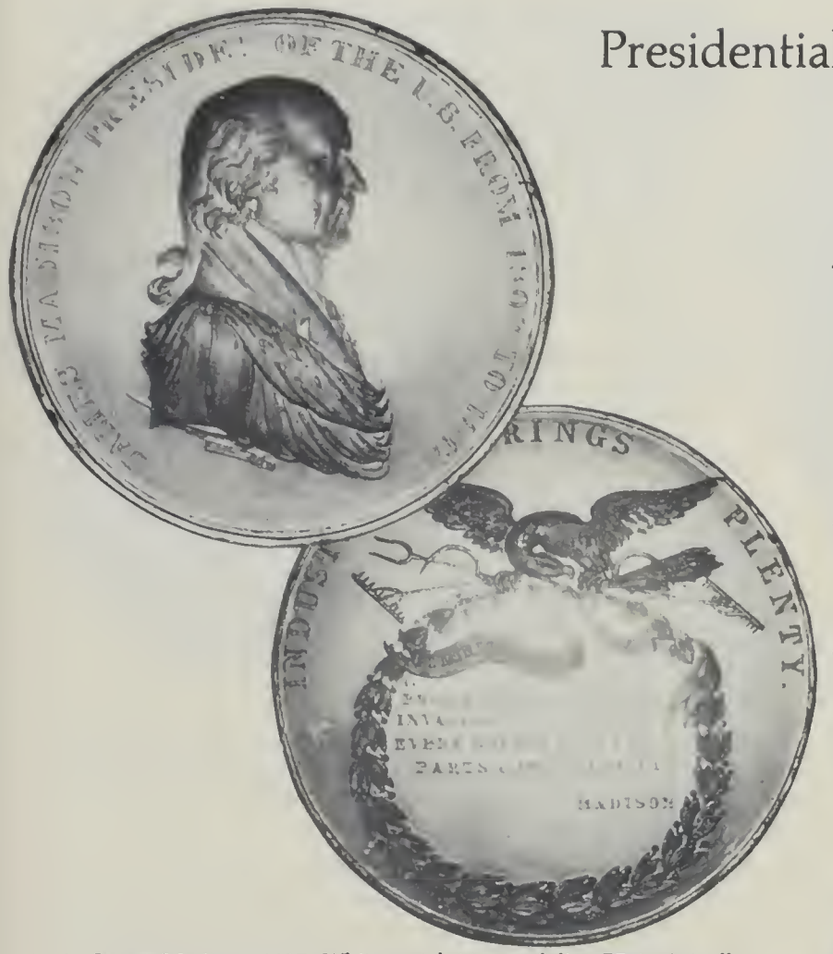
(See Color Photo)

(Photo Reduced)

4151 **Benjamin Harrison (1890).** Bronze 76 mm. Julian IP-48. Lovely light brown mahogany Proof of this exceptionally rare medal. This size medal was especially engraved by C. E. Barber for the Indian Affairs office. It was **never** sold to the general public, and Mint records show that only **28 pieces were struck.** The NASCA specimen, Lot 1639 in About Uncirculated sold for $950—this specimen should certainly sell for more. A beauty. ($950-up)

4152 **George II (1757).** Bronze 44 mm. Julian IP-49. Red-brown Proof condition. These dies engraved by Edward Duffield were made in 1757 as a Peace medal, with the Mint eventually acquiring them. This is a late strike from the **original** dies, with obverse broken into four quarters on a thick flan. Listed as Betts 401. Made just before complete obverse die failure—see NASCA Lot 1641. ($100-up)

Presidential Medals



4153 **James Madison 1817.** White metal 64 mm. Julian PR-3. Actually struck in prooflike Uncirculated but few minor scuffs and contacts, especially in the field causes us to call this About Uncirculated. A very rare Furst production, which may have been made outside the Mint because of its composition. Rare and seldom seen. ($250-up)

4154 **Martin Van Buren 1837.** Bronze 62 mm. Julian PR-6. In slightly mottled red-brown mahogany Proof. An unusual Inaugural issue by Furst, probably made in 1837. Very limited mintage, **probably under 50 made,** as mint records are not clear during this period. Not offered in the NASCA sale. It should be noted that the obverse is identical to the Van Buren Indian Peace medal. Hake in his Volume III book on Political medals apparently shows this medal twice, as 3012 at $300. and as 3013 at $100. The first specimen the cataloguer has seen in 30 years. ($250-up)

4155 William Henry Harrison 1841. Bronze 76 mm. Julian PR-7. Reddish mahogany Proof. Although dated for Harrison's death in 1841, this medal was first issued in 1886. Total mintage of this medal was **only 144 pieces.** ($100-up)

4156 John Tyler 1841. Bronze 62 mm. Julian PR-8. Deep red-brown mahogany Proof, but some attractive surface mottling. Obverse of the Indian Peace medal, and exceptionally rare. Not in NASCA Sale, and a lovely mate to Lot 4154. ($200-up)

4157 **James K. Polk 1845.** Bronze 62 mm. Julian PR-9. Deep red-brown Proof. Probably made about 1847—Peale was told by the Mint that the six gilted medals made for a Presidential visit would not be paid for by Mint funds. The total bill of $17 including the cases was made up contributions of Mint employees. This was a sharp nail into the coffin of Peale in the Mint scandal hearings of 1850-1. The medal is extremely rare, seldom sold and not in the NASCA Sale. ($250-up)

(Photo Reduced)

4158 Andrew Johnson 1865 (dated 1867). Bronze 76 mm. Julian PR-13. Chocolate brown Proof. Struck mainly for a "political club" of Philadelphia in 1868. It is hard to determine if many more than **the initial 50 were struck,** but this is once again an exceedingly rare medal by William Barber. Not in the NASCA Sale. ($200-up)

4159 Ulysses S. Grant. Bronze 45 mm. Julian PR-14. Struck in late 1872, in a brown mahogany Proof. ($40-up)

4160 Ulysses S. Grant Bronze 76 mm. Julian PR-15. Light red-brown glossy Proof—far different from the late restrike pictured in Julian. **Total copper coinage of 197 pieces.** ($100-up)

4161 Rutherford B. Hayes. 1877. Bronze 76 mm. Julian PR-19. Reddish brown Proof with glossy surfaces similar to Lot 4160. **Total mintage of 164 pieces.** Choice and rare. ($100-up)

(Photo Reduced)

4162 James A. Garfield 1881. Bronze 76 mm. Julian PR-20. Dark red-brown mahogany Proof. Obviously struck in very limited quantities, as the reverse was replaced by one inscribed with his death date in September, 1881 (Julian PRT-21). No exact figures can be extracted from the Mint records of how many were actually struck of this early type Garfield Inaugural. Probably the reverse usage was discontinued in 1882 and **under 20 were struck.** Exceedingly rare and valuable. ($225-up)

4163 Chester A. Arthur 1881. Bronze 76 mm. Julian PR-22. Red mahogany glossy Proof. **Only 147 pieces struck** and rare. ($100-up)

4164 Grover Cleveland. Bronze 76 mm. Julian PR-23. Reddish mahogany Proof. This is undoubtedly a rare issue, as the medal generally sold to the public is from Cleveland's second inauguration, not the first as shown here. No exact records differentiate these two pieces, but certainly **less than 50 of this particular medal were made.** Very rare ($150-up)

4165 Benjamin Harrison. Bronze 76 mm. Julian PR-24. Reddish mahogany glossy Proof. **Only 169 struck in total** and obviously quite rare. ($100-up)

4166 William McKinley 1897. Bronze 76 mm. Not in Julian (post 1892). Red-brown Proof as on late issues of the Secretary of the Treasury medals. Limited issue in early bronze by C. E. Barber. ($100-up).

(See Color Photo)

4167 **Andrew Jackson 1833. GOLD.** 20 mm. Julian PR-33. Brilliant Proof. An original copy of the gold Mint Inaugural medal and really quite rare. A specimen in Garrett IV Lot 1970 sold for $1350. Rarely offered and in demand. ($1200-up)

4168 Smaller U.S. Mint medals. Lincoln/Garfield in silver 25 mm. Julian PR-40 and Garfield death medal in silver 25 mm. Julian PR-43, both in Extremely Fine. Getting scarce today. Total: 2 pieces. ($75-100)

Military Medals

The following listing of Military Medals does not include the first issue MI-1, the Washington Before Boston medal, which was offered earlier in this session as Lot 4004 and 4005. The following group of Military award medals is a most complete offering.

(See Color Photo)

4169 **Horatio Gates (1777).** Bronze 56 mm. Julian MI-2. Glossy red-brown mahogany Proof. **Original** dies. CISTR and COMITIA repunched on obverse, O of OCCEPTO in lower border. **Total mintage in bronze was 76 pieces.** NASCA Lot 1650 sold for $525 in About Uncirculated. ($550-up)

4170 **Identical to the preceding Lot.** Brown-red Proof probably struck in the 90's, but **Original** dies. Reverse has distinct flaw on the outside edge of the border—some of the excess metal seems to have been ground away by hand before bronzing. Breakthrough ON of SEPTENTRIONAL very pronounced — much more so than on Lot 1650 in NASCA Sale or our Lot 4169. **This piece is included in the total of 76 mintage.** Very rare. ($400-up)

4171 **Anthony Wayne (1779).** Bronze 55 mm. By Gatteaux. Julian MI-3. Red-brown Proof. Finish is very much like NASCA Lot 1651. Choice and extremely rare — the NASCA specimen sold for $300. **Only 47 pieces in all struck in copper.** ($300-up)

4172 Lt. Colonel Francois Tessiedre De Fleury. Bronze 47 mm. Julian MI-4. Red-brown bronze Proof. Another French Mint made issue, where dies lost, were resurrected and remade in 1880. **Through 1904 only 37 copper pieces were made.** Not in the NASCA Sale, and Julian illustrates a late golden bronze restrike. Very rare and valuable. ($250-up)

4173 **Henry Lee (1779).** Bronze 46 mm. by Joseph Wright. Julian MI-5. Medium red-brown finish, choice Proof but obverse is irregular due to die failure. Almost all of the specimens of the Lee medal that the cataloguer has seen in 30 years were electrotypes. NASCA Lot 1652 sold for $210, a bargain. **Only 44 pieces in copper struck in total!** A great rarity. ($225-up).

4174 Daniel Morgan (1781). Copper 56 mm. Julian MI-7. Uncirculated, not Proof with little bronzing if any—plain toned copper as used on very early strikes **before 1860.** ORIGINAL die with wire-like edge on obverse. A much later strike appeared as NASCA Lot 1653 which sold for $300. These dies were first made in 1839 from which the gold specimen was struck. Extremely rare and desirable—**only 98 copper medals made in total.** Betts 593. (350-up)

4175 Same medal as the preceding but struck in the 1870 to 1880 period in red-brown mahogany Proof, like NASCA Lot 1653. **Again one of the 98 total struck.** ($300-up)

4176 Same medal as the preceding but in the lighter red-bronze Proof color of the 1880-1895 period. This is an amazing offering of three distinct types of this very rare Mint medal, whose total issue was only 98 pieces. This may never occur again in numismatic history. ($300-up)

4177 William Washington 1781 Julian MI-8 and John Eger Howard 1781 Julian MI-9. Both bronze 47 mm., and both brown mahagony Proofs from the French Mint, edge inscribed CUIVRE. Identical restrikes to these sold as NASCA 1654 and 1655 for a total of $340. Howard medal has an edge nick at 6 o'clock. A rare and desirable pair, which eventually found their way to the U.S. Mint dies by converting originals to gun metal dies—these lack the detail of the original die. The pair offered here were probably struck around 1850-1860. Total: 2 pieces. ($300-up)

4178 **Nathanieli Green (1781).** Bronze 57 mm. Julian MI-10, Betts 597. Nice red-brown glossy Proof, apparently identical to NASCA Lot 1657 at $400. This medal was first struck in the U.S. in 1886—there were only a few strikes from the French original die. **Only 40 copies in copper were struck in total.** Very rare. ($350-up)

4179 Identical to the preceding lot, red-brown Proof, but one minor cut on the cheek. It is rare to see two of only 40 pieces struck in the same sale. ($350-up)

4180 Colonel George Croghan 1813. Bronze 65 mm. Julian MI-12. Brown mahogany Proof. Beautiful specimen, ORIGINAL dies, with R of FURST (obverse) broken, but before rust spot or breaks mentioned by Julian. A lovely medal with a **total mintage of just 100 pieces.** ($200-up)

4181 Major General Edmund P. Gaines 1814. Bronze 65 mm. Julian MI-13. Deep brown mahogany Proof—one dark spot (not corrosion) on obverse. ORIGINAL die, broken R in FURST on reverse. **Total struck in copper was only 121 pieces.** Choice. ($125-up).

4182 Major General William H. Harrison 1813. Bronze 65 mm. Julian MI-14. Proof in rich brown mahogany. ORIGINAL dies with bulge on reverse below OF in field. Earlier die state than NASCA Lot 1662, which sold for $250. R of FURST slants to right. **Total copper mintage was 127 pieces.** ($200-up).

4183 Brigadier General James Miller 1814. Bronze 65 mm. Julian MI-17. Bronze Proof in red-brown made about 1880 from ORIGINAL dies. Note: P over O in SEP. on reverse. **Total of 116 made in copper.** ($100-up)

4184 Major General Peter Porter 1814. Bronze 65 mm. Julian MI-18. About Uncirculated because of nick in obverse field, but 1890 brown-red Proof color. ORIGINAL dies, SEP 17 over SEO. 13, not over SEO. 16 as NASCA points. **Only a total of 100 pieces in copper were made.** ($125-up)

4185 Brigadier General Eleazer W. Riply 1814. Bronze Proof (but little finish and possibly plain copper) Julian MI-19. Finish not applied evenly, as on NASCA Lot 1671. ORIGINAL die, broken R in FURST, die scratches at RAL, die rust on collar. About identical to NASCA piece. Rare, **only a total of 97 pieces struck in copper.** ($125-up)

4186 Major General Winfield Scott 1814. Bronze 65 mm. Julian MI-20. Choice About Uncirculated, due to minute coin contact — red-brown Proof finish about identical to NASCA Lot 1673. ORIGINAL—5 over 4 on July 5th date. **Total mintage in copper was 173 specimens.** ($125-up)

4187 Governor Isaac Shelby 1818. Bronze 65 mm. Julian MI-21. Red-brown mahogany Proof. Reverse has partial high wire edge — one minute rub on horse's rear. **Total copper mintage was 94 pieces.** NASCA Lot 1676 sold for $375. ($300-up)

4188 **Major General Zachary Taylor.** Bronze 64 mm. Julian MI-22. Proof, deep brown mahogany, one minor ding on rim. **Only 129 pieces struck in copper,** this one probably struck about 1870. NASCA Lot 1677 sold for $325. ORIGINAL dies. ($300-up)

4189 Similar to preceding lot, but Julian MI-23 for Monterey, 1846. ORIGINAL dies, in Proof with same color characteristics as Lot 4188. **Total copper mintage only 148 pieces.** A rim nick at 3 o'clock. ($300-up)

4190 Major General Zachary Taylor 1846. Bronze 76 mm. Julian MI-25 Fine to Very Fine — mostly coin contact wear and numerous nicks from coin contact. Large medal by C.C. Wright, presumably a Mint product. Rare, not in NASCA Sale. ($150-up)

4191 Colonel John Armstrong (1756). Bronze 46 mm. This medal listed as Betts 400, by Edward Duffield was transmitted to the Mint by Richardson. This piece is from ORIGINAL dies, in brown mahogany Proof, made before 1874. Thick, **original copper coinage only 50 medals struck.** NASCA Lot 1685 sold for $190. ($175-up)

Naval Medals

4192 **Captain Thomas Truxtun.** Copper 57 mm. Julian NA-2. Proof strike in light brown metal — it appears to be a very early strike well before 1860. Obviously a much earlier die state than NASCA Lot 1689 at $140 — the obverse fields are perfectly smooth with no circular die lines as on NASCA medal. Very similar in appearance to Garrett silver specimen. **Total copper coinage was 120 specimens.** Very rare. ($250-up)

4193 **Admiral Oliver Hazard Perry 1813.** Bronze 65 mm. Julian NA-17. Rich brown mahogany Proof. Die rim crumbling as on NASCA Lot 1708 which sold for $400. ($350-up)

4194 The Mexican War. Bronze 56 mm. Julian NA-24. Only About Uncirculated due to coin contact marks, even red mahogany color. **Total copper mintage was 90 medals.** ORIGINAL dies. ($300-up)

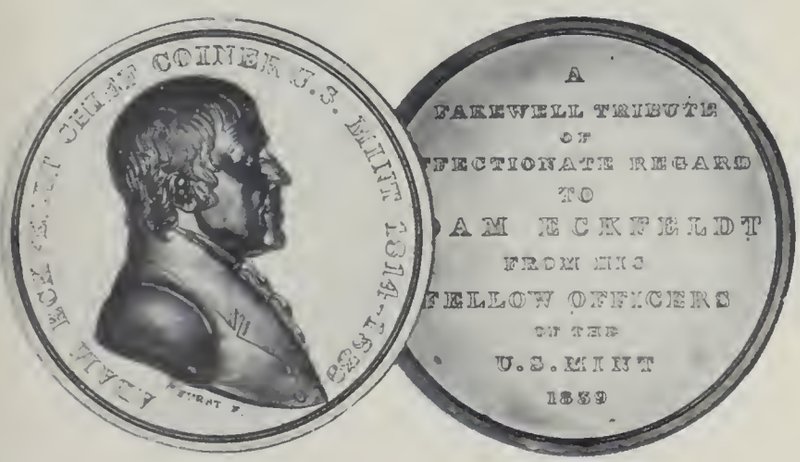
Mint and Treasury Medals

4195 David Rittenhouse. Bronze 45 mm. Julian MT-l. Deep chocolate Proof, undoubtedly an original strike made about 1874. Dies by C. E. Barber, scarce and seldom seen — only a golden bronze restrike shown in Julian. In addition, medal of Robert M. Patterson, bronze 65 mm. Julian MT-2. Red medium-brown Proof as on NASCA Lot 1808. Rare pair. Also, James Ross Snowden 1859. Bronze 75 mm. Julian MT-3. Red-chocolate mahogany Proof, with minor nick on nose and on reverse building line, now called About Uncirculated. Finish is different from NASCA Lot 1810, but reverse die break just slightly more than Garrett Lot 1984. Garrett specimen sold for $225—quite a rare medal. Total: 3 pieces. ($300-up)

4196 James Pollock (1871). Bronze 45 mm. Julian MT-4. Brown-red mahogany Proof. Scarce ORIGINAL — not in NASCA Sale, while Garrett's was in silver.

In addition, Henry P. Linderman in bronze, 76 mm. Julian MT-6. Brown-red mahogany Proof. Apparently very rare, no recent sale records including Garrett and NASCA. **Only 39 pieces struck in copper.** An unusual medal with obverse bust in a blank field, by C. E. Barber. Extremely rare. Total: 2 pieces. ($200-up)

4197 A. Louden Snowden. Bronze 79 mm. Julian MT-11, a mule issue. Red-brown glossy mahogany Proof, similar to Garrett Lot 1985 which sold for $250, and NASCA Lot 1813 in About Uncirculated which sold for $140. This combination, with the reverse of Julian MT-3 of J. Ross Snowden was not the regular issue—records show a **total mintage of 53 specimens in copper for all four types of** Snowden medals. In addition, an Oliver C. Bosbyshell medal, like Julian MT-17 but reduced in size to 25 mm. struck in ALUMINUM. Julian thinks that these reduced size medals, made outside of the Mint, were sold to visitors, but mentions bronze as the only fabric. Hence this aluminum issue must be rare, in Uncirculated condition. Total: 2 pieces. ($200-up)



4198 **Adam Eckfeldt (1839).** Bronze 51 mm. Julian MT-18. Red-brown Proof with a couple of insignificant reverse edge nicks. By Furst, not in Garrett collection, but sold as NASCA Lot 1812 at $290. This is obviously an earlier die strike than the NASCA coin, or the Julian plate coin as there are no rim cuds on the reverse. Rare and valuable, original dies. ($250-up)

4199 William Windom 1891. Bronze 76 mm. Julian MT-26. Red-brown bronze Proof of 1890 period, but called About Uncirculated due to contact marks on the forehead. By C. E. Barber, not in NASCA Sale. **A total of only 28 pieces were struck in copper through 1904,** and they may not all be the early bronze. Rare. ($100-up)

4200 Three post-Julian Secretary of the Treasury medals. All 76 mm. brown-red Proofs, but each with very minor contact marks, all appear about identical in condition. John Griffin Carlisle by Barber, 1893; Lyman J. Gage 1897 unsigned; and Daniel Manning (see NASCA Lot 1517) 1887, but struck 1897. **Total mintage of Carlisle 188 pieces; Gage only 21 pieces; and Manning 165 pieces.** The apparent rarity of the Gage piece is unaccounted for. Total: 3 pieces. ($225-up)

Personal Medals

In this category are various Mint produced personal medals, running the gamut from hero to villain — including even some foreign nationals.

4201 Cyrus Field (1868). Bronze 103 mm. Julian PE-10. Red-bronze Proof probably as well preserved as any in existence. About the largest medals ever produced by the U.S. Mint. Sold as Lot 1964 of the Garrett IV Sale for $400, and a slightly inferior specimen in NASCA Sale, Lot 1803 at $260. **Total copper mintage was only 125 pieces.** A spectacular medal!! ($300-up)

4202 Dr. David Hosack. Bronze 34 mm. Julian PE-15, Freeman 248 (In *Medals Relating to Medicine and Allied Subjects*) Red-brown Proof. By Furst, first struck during the 1830s. An obscure physician, but an always popular medical medal. RARE. In addition, Will Page medal (1843). Bronze 48 mm. Julian PE-24 Extremely Fine. Dies by C. C. Wright and scarce. Total: 2 pieces. ($150-up)

4203 Dr. Joseph Pancoast (1870). Bronze 76 mm. Julian PE-25, Freeman 382. Dark red-brown Proof by W. Barber. A controversial medal, apparently authorized by the Mint Director only, but relatively popular with the public. **Total issuance in copper was 57 pieces.** Quite rare today. ($150-up)

(Photo Reduced)

4204 George F. Robinson (1871). Bronze 76 mm. by Paquet. Julian PR-25. A superb red-brown glossy Proof of this magnificent medal. A pair in silver and bronze sold for $7500 as Lot 1927 in the Garrett IV Sale, while a single bronze Proof sold in NASCA Sale as Lot 1806 at $600. Certainly a striking product of the U. S. Mint by Anthony Paquet. **Total mintage in copper to 1904 was 75 pieces.** ($600-up)

(Photo Reduced)

4205 **Dr. Frederick Rose (1861)** Bronze 76 mm. Julian PE-29. Freeman 458. Red-bronze glossy Proof. A rare ORIGINAL copy of the Rose medal, a foreign national in the Royal Navy. This specimen of the 1880 period has a die break from border to N of NAVY, which was removed from the late golden bronze restrike shown in Julian. Beautifully engraved by Paquet using the Buchanan Japanese Embassy medal die for the obverse. **Total mintage through 1904 in copper was only 41 pieces.** Very rare and seldom available. ($200-up)

4206 Comm. Cornelius Vanderbilt (1869). Bronze 76 mm. Julian PE-36. Red-brown glossy Proof. Surprisingly not illustrated in Julian, but shown as Lot 1980 in Garrett IV Sale where it sold for $350. Engraved by S. Ellis, but certainly not one of his best productions. When Garrett acquired his specimen in 1884, it was called 'excessively rare'. **Total mintage in copper up to 1904 was 58 pieces,** but before 1884 only 17 pieces were struck, when Garrett acquired his. ($250-up)

4207 Daniel Webster (1852) Bronze 77 mm. Julian PE-37. Brown mahogany Proof in original red velvet box, now detached at its hinges. By C. C. Wright, the specimen sold as NASCA Lot 1807 was an electrotype — this is an absolute ORIGINAL. ($125-up)

Commemorative Medals

A variety of commemorative medals were issued by the Mint up to 1893 and a nice representative selection of them is offered in this section.

4208 **Benjamin Franklin (1776) but probably issued 1808.** Bronze 41 mm. Julian CM-8, Fuld FR.M.UN.1 (*Medals of Franklin, The Numismatist,* 1956). Red-brown Proof from , of course, the original dies, engraved by John Reich. NASCA offered as specimen in VF/EF as Lot 1950 which sold for $450. This perfect specimen, one of the Sansom series is for some reason not illustrated by Julian — an elusive medal but not extremely rare. In this exceptional condition we expect this early Franklin piece to sell at upwards of $550. ($550-up)

4209 Identical specimen to the preceding lot, Julian CM-8, nearly the same color Proof, but few minor obverse spots. Amazingly enough we have two specimens to offer in this sale, while apparently Julian was unable to locate a single specimen. ($550-up)

4210 United States Diplomatic Medal. Bronze 67 mm. Julian CM-15. Red-mahogany Proof, almost identical to NASCA Lot 1744. The remarkable history of this medal was told in the Garrett Sale (Lot 1959 which sold for $16,500). These official restrikes engraved by Barber in 1876 are very rare. **Total copper mintage through 1904 was 86 pieces.** ($250-up)

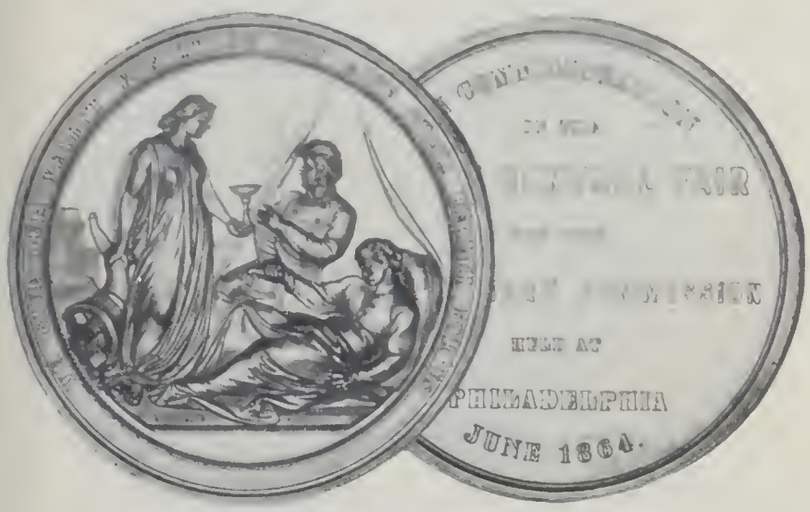
4211 Emancipation Proclamation (1871). Fire gilt 45mm. Julian CM-16. Proof, slight toning on hair. This piece, obviously officially gilt, was probably a presentation piece for a 'visiting firemen' to the Mint in the 70's. First piece seen gilt, and unlisted by King or Julian. ($100-up)

4212 Identical medal to preceding, Julian CM-16, but red-mahogany Proof with one minor field nick. Similar piece sold as NASCA Lot 1745. ($60-up)

4213 Pair of medals, another Lincoln Emancipation piece, Julian CM-16 in brownish About Uncirculated plus a mule of the Atlantic Telegraph medallet, of August 1858, 28 mm. white metal in Extremely Fine toned, listed as Adams NY 495. Total: 2 pieces. ($100-up)

4214 Japanese Embassy (1860). Bronze 76 mm. Julian CM-23, second obverse by Paquet. About Uncirculated, red-bronze color, but highlighting on hair. A rare early medal, **total copper mintage was only 146 pieces,** one sold as NASCA Lot 1746 for $130. (125-up)

4215 New Haven Bicentennial 1838. Bronze 55 mm. Julian CM-37. Brown mahogany Proof, little red color. Reverse shows die break apparent in Julian and NASCA Lot 1756, which sold for only $50. Extremely attractive piece. ($60 -up)



4216 **U.S. Sanitary Commission 1864.** Copper 57 mm. Julian CM-44. Proof in toned copper! In the summer of 1864 901 specimens of this medal were struck in copper, and apparently never restruck. His piece is in copper, there is no evidence of bronzing. A beautiful example of this Civil War medal, only recent record was in NASCA Sale, where the medal was refinished. ($150-up)

Agricultural, Mechanical, Scientific and Professional Medals

This intriguing series of medals for various professional groups is one of the most interesting of the Mint series. Many were struck in gold, and undoubtedly many made by the Mint have not yet been identified by Julian.

4217 Benjamin Count Rumford (1839). Bronze 65 mm. Julian AM-1. Red-brown mahogany Proof. Presentation pieces were struck in gold and silver, bronze strikes were unofficial. A handsome obverse by Furst. Mint records exist for silver and gold strikes, but virtually none appear in bronze. A very rare medal, the NASCA specimen Lot 1767 sold for a bargain $70, not at all reflective of the medal's rarity. ($100-up)

4218 Exhibition of all Nations 1853. Bronze 57 mm. Julian AM-6. About Uncirculated with brown finish, engraved by C.C. Wright. NASCA Lot 1777 went for a bargain $50. ($75-up)

4219 **Franklin Institute 1824.** SILVER, 50 mm. Julian AM-17, Fuld FR.M.FR.4. About Uncirculated with usual toning. Medal engraved by Christian Gobrecht, and used by the Institute for many years. This specimen inscribed to G.F. Uber & Co. in 1885. Original obverse die. ($120-up)

4220 Identical to preceding lot, also in SILVER, Uncirculated with toning, except minor rim cut. Inscribed to "F. Berwind, Phila, Pa. for Guitars, 1854". Choice ($120-up)

4221 Identical type to preceding two lots, but bronze Proof in red-brown. Thick and uninscribed, without a doubt, an unofficial restrike for collectors. ($60-up)

4222 **Franklin Institute, white metal die trial.** 54 mm. Julian AM-20, Fuld FR.M.FR.3. Extremely Fine. This trial, probably identical to the one mentioned by Julian as being in the Mint collection is excessively rare. First seen by the cataloguer in 30 years. ($150-up)

4223 Franklin Institute (undated). Bronze 54 mm. Julian AM-20, Fuld FR.M.FR.3. Red-brown bronze Proof. Unillustrated in both Julian and Fuld. Extremely rare, but not recognized as such by NASCA in Lot 1783. ($100-up)

4224 **Fulton Institute 1859**. SILVER 50 mm. Julian AM-23, Proof, unevenly toned. Engraved to "J. W. Morrell for Patent Butter Mill". Only struck in 1859 and 1860, **with a total strike of only 22 medals.** Julian's illustration not engraved. Excessively rare—no recent sale records. ($150-up)

4225 **Maryland Institute 1857.** SILVER 51 mm. Julian AM-31. Proof with wire edge on both obverse and reverse edges. Nicely toned with a few hairlines. Engraved to "Sewall Pearson for Combined Sofa and Spring Bed 1860"—undoubtedly the first sofa-bed! Over 107 pieces were struck in silver, but the medal is rarer than that. ($150-up)

4226 Massachusetts Charitable and Mechanics Assn. Silver, 49 mm. Julian AM-34. Extremely Fine, toned and engraved to Whipple File Co. 1860. ($100-up)

(See Color Photo)

4227 **St. Louis Agricultural and Mechanics Association.** SILVER, 70 mm. Julian AM-74 (Lindesmith 3). Proof with nice toning and a few hairlines. Engraved to "W. Manning & Co., First Prize for Barrel Heading Machine". No date is shown, a very unusual occurrence on these medals. Unillustrated in Julian—obviously very rare and desirable. ($250-up)

(Photo Reduced)

4228 **United States Agricultural Society 1852.** Julian AM-78. The medal appears to be silver, but it has no ring and a possible parting line on the edge, so it may be a silver based electrotype. It is possible that the Society ran short of medals, and had the silver electrotypes made on an emergency basis (or to save money). The medal is definitely engraved, to "Talcott, Emerson & Co. for one of the best combined Reaper and Mowers. Chicago 1859". An extremely rare medal, a gold copy was sold by Bowers & Ruddy in the Newport Sale, Lot 1229 in 1975. Apparently no specimen was available to Julian for an illustration. Very rare. ($200-up)

Life Saving Medals

These medals were awarded to individuals, usually for sea rescues, often with the original struck in gold.

4229 **State Department (Leutze) 1859.** Bronze 71 mm. Julian LS-1. Red-brown mahogany Proof. Very rare, illustrated in Julian from a late golden bronze restrike. No recent offerings. **Mint records show that only 34 specimens struck in copper.** Very rare. ($200-up)

4230 **State Department (Koehler) 1859.** Bronze 66 mm. Julian LS-2. Brown-red Proof, but minor spot on obverse. This piece was struck unofficially in bronze for collectors, undoubtedly less than 25 were made. Extremely rare and no recent records. ($200-up)

4231 Coast Survey medal. Bronze 34 mm. Julian LS-4 Red-brown Proof. Not currently available from the Mint, but Julian's illustration is from a late golden bronze restrike. In addition the important Captains Crighton, Low and Stouffer medal presented by the City of Philadelphia. Bronze 75 mm. Julian LS-12. About Uncirculated. Very rare with an estimate of less than 30 specimens struck. The related medal, LS-11 sold for $300 in the recent NASCA Sale. Total: 2 pieces. ($300-up)

4232 John Horn 1874. Bronze 44 mm. Julian LS-14. Red-mahogany Proof. **Total copper mintage only 54 pieces.** The Extremely Fine NASCA piece went for a bargain price. This specimen is a gem! ($100-up)

A Few Additional Mint Medals

4233 Ulysses S. Grant. Bronze 45 mm. Julian PR-14. Struck in late 1872, in a red-brown mahogany Proof. Similar to Lot 4159. ($45-up)

4234 **U. S. Grant Birthday medal of 1892, Julian PR-18.** This extremely rare medal was known to Julian only through the presence of the original dies in the Philadelphia Mint vault. The reverse is a picture of Grant's Tomb—the exact die used on Julian PR-17, but the obverse, by MORGAN was unknown to Julian except through the die. The obverse shows three conjoined busts of Washington, Lincoln and Grant, with legend around "Father Savior Protector". This style of obverse was used on at least three other medals, all brass in 25 mm. In further researching this medal, it is listed by Robert P. King in *Lincoln in Numismatics*, and not only in bronze, but gilt and white metal inferring that others are known — but King did have medals made to order, and his collection resides in a Buffalo museum. The King number is 768.

The interesting background on this medal, contained in its original red plush case, is that it was purchased by its present owner from a jewelery-pawn shop in Mexico City. The owner of the shop bought it from a Polish refugee about 1945, and it remained in the shop until 10 years ago. The medal is red-brown mahogany Proof and perfect. ($125-200)

4235 Daniel Webster (1852). Bronze 77 mm. Julian PE-37 in red-brown Proof, virtually identical to Lot 4207, without the original case. ($125-up)

A Few Colonial Coins and Related Items

4236 **A struck copy of the NON-DEPENDENS. STATUS cent.** This intriguing piece, struck by Alfred Robinson about 1860 was afforded a full listing by Crosby in his 1875 opus, as he assumed that the original must exist, as all copies had the word COPY below the bust. One of Crosby's few blunders! In 50 % mint red condition and choice. ($125-200)

4237 The Dickeson copy of the Continental Dollar in white metal. Brilliant Prooflike Uncirculated. Clearly different from the Empire thicker copies of 1958 and the Bashlow off-strikes. Quite thin, and in museum since around 1900. The only "good" struck copy of the dollar. ($75-125)

4238 The Washington Liberty and Security reverse colonial mule with the obverse of the "Irish Halfpenny", edge lettered "Payable in London Liverpool or Bristol". In original Lyman Low auction envelope, Lot 59d but no date. Very Fine but weakly struck in parts. ($200-up)

Early American Medals

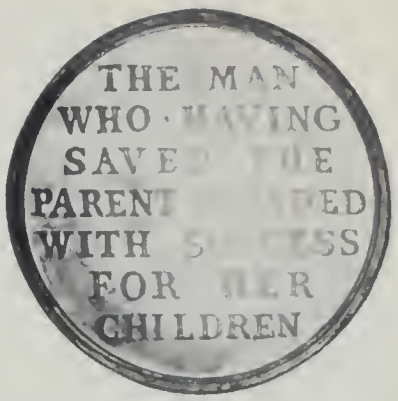
4239 **Admiral Vernon medal of 1739, rare type.** Vernon won several major victories in the West Indies in 1739 (Porto Bello) and 1741 (Carthagena), but never was in Havana even though some medals state such. The medallic outpouring from England was amazing — over 300 different medals were issued. The most comprehensive booklet on these types was by Ambassador L. McCormick-Goodhart in 1945, still the standard reference.

The specimen illustrated is McC-G 39, with a three quarter half-left figure of Vernon, called RR — this is a term not used lightly by the English (an RRR is 1 to 4 known usually). Copper and Very Fine. ($125-175)

4240 Two Vernon medals, McC-G 68 brass. About Uncirculated but two small holes at 3 and 9 o'clock, but never mounted; and McCG 93 Full length left, Extremely Fine with much mint red. Total: 2 pieces. ($100-125)

4241 Two Vernon medals, McC-G 214 in strong Very Fine brass; and McC-G 237 Havana medal, scarce type brass Very Fine. Total: 2 pieces. ($100-125)

4242 Four Vernon medals. McC-G 44. Brass Very Fine with very small hole at top; McC-G 69 copper, Fine but badly pitted; McC-G 210 Fine plus brass for Carthagena; and McC-G 237 for Havana, but About Good and copper. Total: 4 pieces. ($150-200)



(See Color Photo)

4243 **William Pitt (1762). Betts 516.** This magnificent Proof in beautifully toned silver is by far the finest Pitt medal we have seen. These medals relating to early America are listed by C. W. Betts in *American History as Illustrated by Contemporary Medals* published in 1894 and still the standard reference (an illustrated and priced reprint was produced about 10 years ago). Vernon medals listed above are in Betts, but McCormick-Goodhart is far better—all others as in this group are by Betts.

This magnificent Pitt piece in Silver is a Proof, with high sharp wire edge. Rare in this condition. ($250-325)

4244 The perfect mate to the above lot, Pitt Betts 516 in red mahogany Proof. Again virtually perfect, few minor hairlines. ($100-150)

4245 **Holland Declares America Free, 1782.** Listed as Betts 607 in silver, nicely toned Extremely Fine. Same medal offered in NASCA Lot 1958. In demand. ($450-525)

(See Color Photo)

4246 **The famous "Libertas America" medal, 1781 designed by Benjamin Franklin.** This most popular medal, listed as Betts 615 was designed with the Liberty Cap behind Liberty, the model for our first cents, and also for some 1790 vintage French revolutionary coinage.

The present piece is a glossy copper About Uncirculated with a few very minor nicks. It is far superior to NASCA Lot 1941 at $1600. ($1500-2000)

4247 Franklin issues of 1784, Genius of Electricity, Betts 619, Fuld FR.M.NL.5. These lovely medals by Auguste Dupree were made originally at the French Mint, these pieces were undoubtedly made about 1820-1840 in silver and bronze. The silver piece is Proof, partly toned with edge inscribed "Argent", and copper in brown mahogany Proof, edge inscribed "Cuivre". This pair, from an old time collection is the most perfect the cataloguer has seen — original envelopes must be 75 years old. Total: 2 pieces. ($175-250)

4248 Three Betts medals. Betts 619 as above, bronze About Uncirculated with edge "Cuivre"; Betts 620, Fuld FR.M.NL.6 similar front, wreath on reverse in bronze, Extremely Fine with no edge marking, hence an ORIGINAL and rare; and Betts 594 William Washington, 1890 or so from original die, edge "Bronze" Uncirculated. Total: 3 pieces. ($125-175)

So-Called Dollars and Related Medals

The subject of so-called dollars is always a controversial one. Basically they are official or semi-official silver dollar sized medals, even made by the U.S. Mint. They are never legal tender, and the first recorded ones that are generally accepted are for the U.S.'s 50th anniversary in 1826. Many are quite desirable, and they encompass other series such as important expositions such as 1876, the Columbian, and Washington medals. The standard work on the series by Hibler and Kappen *So-Called Dollars* was published in 1963. Although originally overpriced, many pieces sell for multiples of the original values. Using H-K criteria, there are a minimum of 500 unlisted pieces before 1920—a comprehensive revision is sorely needed. A number of bona-fide unlisted specimens will be offered below.

4249 **The Erie Canal medal by C.C. Wright, H-K 1.** This piece is the granddaddy of so-called, contained in its original cherrywood box with descriptive labels. Medal is Uncirculated white metal with toning. Very rare to see the original box, but part of top is missing on box. ($150-225)

4250 **The New York Crystal Palace 1853, H-K 5.** Actually the small size Crystal Palace medals are quite rare, and rarely met with. The present piece is copper Uncirculated and quite rare. ($150-200)

4251 Small medal, H-K 6 struck in white metal, bronzed About Uncirculated with a 37 1/2 mm. white metal Brilliant Prooflike Uncirculated award medal with legend "Scientia Est Potentia" which dates from about same period. Total: 2 pieces. ($150-200)

4252 Nassau Water Works, N Y 1859, H-K 589b. Struck in white metal, but with small copper plug inserted before striking, in About Uncirculated; and Pilgrim Memorial 1870, H-K 13 in silver-plated brass. Total: 2 pieces. ($125-160)

4253 **The official 1876 Centennial medal,** made by the U. S. Mint, listed by Julian, H-K 20. A perfect Proof in **silver**, toned and virtually no hairlines. A GEM. ($150-250)

4254 Pair of 1876 non-official medals, H-K 27 Independence Hall in bronze Uncirculated; and American Colonies in gilt Brilliant Uncirculated, H-K 58. Total: 2 pieces. (120-160)

4255 Two piece group. Battle of Newtown in bronze Uncirculated H-K 123; Fort Griswold 1881 struck in bronze (H-K only lists 125 in white metal) Uncirculated and Unlisted — rare. Total: 2 pieces. Rare lot. ($75-125)

4256 Three so-called, two in unlisted metals. Wm. Penn of 1882, but struck in bronze Proof (H-K only listed 140 in white metal); The World's Industrial & Cotton Centennial Exposition, bronze Proof (H-K lists only in white metal as 142); beautifully designed Old Hickory in bronze Proof 1896, H-K 275. Total: 3 pieces. ($160-200)

4257 Four so-called dollars, one unlisted mule and one unlisted metal. Centennial 1876 mule of reverse of H-K 59 and reverse of H-K 61 in white metal Brilliant Prooflike Uncirculated with some toning; Wm. Penn 1882 in white metal Brilliant Prooflike Uncirculated but slight rubbing and holed; Detroit-Fort Shelby 1896 in bronze Proof H-K 129; and Mardi Gras, New Orleans 1884-5 in white metal Brilliant Prooflike Uncirculated but only listed in gilt as H-K 143. Rare lot. Total: 4 pieces. ($125-165)

4258 Group of 3 So-Called dollars. Trans-Mississippi 1898 H-K 284 bronze Uncirculated; North Carolina 1902 H-K 293 bronze Proof and rare; Connecticut 1926, H-K 456 in light bronze Uncirculated and quite rare. Nice lot. Total: 3 pieces. ($110-140)

4259 South Carolina Inter-State and West Indian Exposition, 1903 H-K 293 in bronze Proof. Rare and hard to locate. ($50-75)

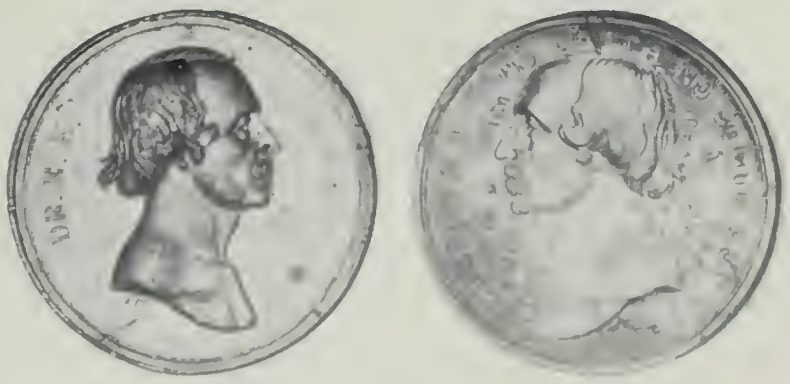
4260 **The Wilson Dollar, 1920 for opening of Manila Mint.** This piece was made at the San Francisco Mint, full weight and size of a standard dollar listed as H-K 449. Only 2200 were struck in silver, and most ended up at the bottom of the Manila Bay during World War II when the government tried to keep valuables from the Japanese. Some were recovered, but salt water took its toll. This is a lovely untouched Uncirculated piece, that if a coin we would grade 65 — some natural light toning. ($200-300)

4261 Three other So-Called pieces. Baltimore Festival 1882, H-K 552, white metal, Brilliant Prooflike Uncirculated; Albany 1886, H-K 602 in bronze prooflike Uncirculated; Roger Williams 1186, H-K 605 in bronze glossy Proof. Nice lot. Total: 3 pieces. ($110-150)

4262 **Springfield 250th Anniversary 1886.** This lovely pair of medals shows the seal of Springfield, H-K 608 is a bronze Proof; and H-K 609 is white metal, Brilliant Prooflike Uncirculated, with some scuffs and an eagle hanger. Certainly related to the Springfield Museum Collections! Total: 2 pieces. ($80-125)

4263 Four So-Called including two unlisted metals. Seneca Falls, N.Y. 1887, like H-K 612, but in white metal, Brilliant Prooflike Uncirculated with few scuffs; Fayetteville, N. C. 1889, H-K-615 in white metal, Brilliant Prooflike Uncirculated; New Haven, Conn. 1888, H-K 613 in white metal, Brilliant Prooflike Uncirculated; Alleghany, Pa. 1890, like H-K 617, but in white metal, Brilliant Prooflike Uncirculated. Obviously the two unlisteds are rare. Total: 4 pieces. ($125-175)

4264 Group of four So-Called. Columbia, S.C. 1891, H-K 622 in white metal, Brilliant Prooflike Uncirculated but 2 identical specimens; Unlisted, obverse of H-K 622, 1891 for Gala Week, Oct. 26-31 in white metal, Brilliant Prooflike Uncirculated with few scuffs; Bunker Hill 1893, like H-K 630 but in white metal, Brilliant Prooflike Uncirculated. Very rare lot. Total: 4 pieces. ($125-165)



4265 **Dr. E. K. Kane, of Arctic exploration fame, 1857.** Like H-K 757, but struck in lead with incuse reverse and overstruck with correct reverse. An excessively rare medal in it's own right, obviously this strike is **unique**. Uncirculated and unusual. In addition Peace Jubilee, Phila. 1898, like H-K 643 but struck in unlisted white metal, Brilliant Prooflike Uncirculated and rare. Two rare medals. Total: 2 pieces. ($250-325)

4266 Elder Continental Dollar type. Perseverando dollar, H-K 863 type, but in Uncirculated bronze. DeLorey lists in bronze as Dickeson 4, obviously rare. ($80-120)

4267 Elder Continental Dollar, "Exitus.In.Dubio.Est" listed as H-K 865a and Dickeson 6 by DeLorey. Over 4 mm. thick, bronze prooflike Uncirculated and very rare. ($90-135)

4268 **Unlisted Elder Dickeson type, not in DeLorey.** This combination with Confederation obverse and Currency reverse is listed in white metal by H-K as 866 and DeLorey Dickeson 3. However, DeLorey suggests that a thick copper strike exists—this is it. In bronze Uncirculated and 4 mm. thick. A new discovery piece and extremely rare. ($150-225)

This ends the regular section on listed So-Called Dollars. After the conclusion of the store card section, the balance of medals will be offered including Colombian Exposition, Lincoln, GAR and many other unusual exonumia including Transportation tokens. The sale will continue with the Political medals and tokens.

American Political Tokens and Medals

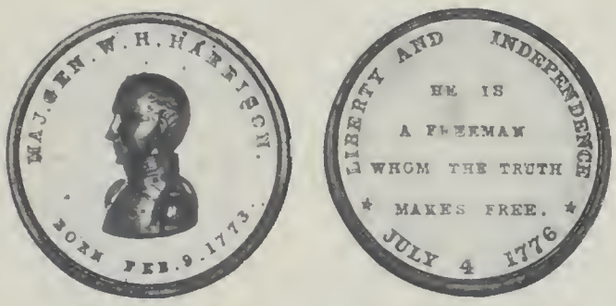
Medallic commemorations for Presidential campaigns started with the scarce 1789 Washington Inaugural buttons, but they were little used until the mid 1820s. They have taken many forms, in addition to regular medals including clothing buttons, Daguerrotypes usually mounted in brass frames as well as more diverse productions such as silk ribbons, glass cameos, and starting in 1896 the now familiar celluloid buttons. The early references on this series were by Bushnell in 1859 and Saterlee in 1860. It was not until the publication of J. Doyle DeWitt's monumental work *A Century of Campaign Buttons* in 1958 that a modern up to date (stopping at 1892) work was available for political token collectors. In 1981, Edmund B. Sullivan published a revision of DeWitt, retaining the same number, but adding new pieces only after old ones—making the listing order a bit cumbersome. The book is entitled *American Political Badges and Medalets 1789-1892*. It consists of 646 pages and is available from Bowers & Ruddy for $60 postpaid (Stock ES-1). We would be remiss if we did not mention the three volume paperback set on politicals by Theodore Hake, which basically illustrates and prices most political tokens and related items, with special concentration on the celluloid pin-back. Reference to Hake is made where appropriate.

The following listing of political items, made up of several combined outstanding collections is the finest grouping that Bowers and Ruddy Galleries has offered in our ten years of auctions—beginners and advanced collectors will find items of interest.

4269 **Martin Van Buren, DeWitt 1836-3,** Saterlee 37 and Hake 3017. Struck in white metal, Very Fine plus with some field abrasions. Quite rare. ($150-up)

4270 William Henry Harrison, DeWitt WHH-1840-4 in white metal, holed as most Very Fine and DeWitt WHH 1840-11 also in white metal Very Good to Fine, holed as all with a couple of bad scratches. Scarce. Total: 2 pieces. ($100-125)

4271 Henry Clay, DeWitt 1840-1 in copper, Fine to Very Fine. ($50-up)



4272 **William Henry Harrison muling.** These mules, of Harrison are specially listed by DeWitt, this piece being denoted as WHH-G-2. It is Brilliant Uncirculated, in brass and contemporary records **show only 20 pieces were struck,** made around 1860. A few minor carbon spots on the obverse and of the greatest rarity. ($125-up)

4273 William Henry Harrison. A pair of the same type mules as shown in Lot 4272, these being DeWitt WHH-G-5 in white metal Brilliant Prooflike Uncirculated with few minor contacts, and DeWitt WHH-G-7 in 100% mint red Brilliant Uncirculated copper. Both pieces may be assumed to have similar rarities to Lot 4272, but do not show Harrison's portrait. Total: 2 pieces. ($175-up)

4274 **Henry Clay, Champion of a Protective Tariff.** This piece listed as DeWitt HC 1844-S Prosky 4 is certainly one of the most striking of the Clay pieces — it is massive, 4 mm. thick in white metal, Brilliant Prooflike Uncirculated, with few minor abrasions. In great demand. ($200-up)

4275 **Henry Clay, with Bunker Hill reverse.** This piece, DeWitt HC-1844-2 and Prosky 27 but not in copper, is a well designed piece struck in copper with 100% full mint red Uncirculated on the obverse, little toning on reverse. ($150-up)

4276 Henry Clay "Beware of Foreign Influences" DeWitt HC 1844-15, and Prosky 16 where he obtained from the McCoy Sale in 1864 and only one Prosky had seen. **Extremely rare.** A 38 mm. non-portrait medal of the 1844 campaign. Holed as all, white metal, Brilliant Prooflike Uncirculated with minor toning. ($100-up)

4277 Henry Clay, politically related, since gives a death date. Listed as Saterlee 126 and Hake 3057, in white metal, Brilliant Prooflike Uncirculated with minor toning. ($75-up)

4278 **Henry Clay, DeWitt HC 1844-8 and Prosky 9 where he stated only one seen in bronze.** This specimen with the blank wreath is dark mahogany bronze Proof. Very rare type. ($150-up)

4279 Henry Clay defending our flag in white metal, Brilliant Prooflike Uncirculated. DeWitt HC 1844-9, Prosky 32, Hake 3059 with just a little toning. Very scarce. ($150-up)

4280 **Unlisted Clay muling.** This combination is the reverse of DeWitt HC 1844-10 with the reverse of DeWitt HC 1844-11. It is completely unpublished, including Prosky; probably made in the 1860 period, and very likely less than **five struck.** Uncirculated and struck in brass. ($175-up)

4281 Henry Clay, one of the listed mules DeWitt HC 1844-11 and Prosky 29 (but in white metal), in brass, dull Uncirculated, although reverse is brilliant. Records show only **10 copies of this medal were struck.** Obviously extremely rare. ($150-up)

4282 Henry Clay, "Encourage Our Manufacturers" (sounds like 1981!). DeWitt HC-1844-21, Prosky 36, Hake 3062 in white metal, Brilliant Prooflike Uncirculated with light toning, holed as all. ($75-up)

4283 James Polk with normal intended reverse, DeWitt JP 1844-1 in white metal, Brilliant Prooflike Uncirculated. Very rare in this condition. ($150-up)

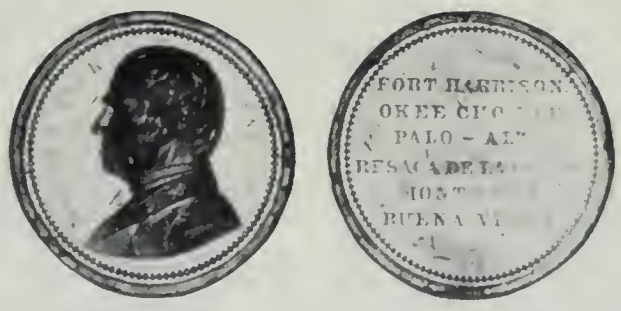
4284 **James Polk with George M. Dallas.** DeWitt JP 1844-2 in white metal, Brilliant Prooflike Uncirculated with light toning and a few nicks. Holed as all, engraved by Leonard and in great demand. ($200-up)

4285 James Polk, identical to preceding, but copper plated and no hole (although metal is raised in that region). About Uncirculated and unlisted fabric. ($225-up)

4286 Zachary Taylor, DeWitt ZT 1848-3. Undoubtedly one of the **25 only** restrikes made around 1860. In copper, mostly red Uncirculated. ($75-up)

4287 Zachary Taylor, DeWitt ZT 1848-5. This is the variety with the same obverse as the preceding lot, but with blank, uninscribed wreath on the reverse. Struck in white metal, Brilliant Prooflike Uncirculated. Exceptionally rare and **undoubtedly less than 15 copies struck.** ($150-up)

4288 Two pieces of Zachary Taylor, the first is DeWitt ZT 1848-15 a well struck contemporary white metal 30 mm. medal referring to his successful Mexican War engagements. About Uncirculated with light toning. Also represented is a brass clothing button, Sullivan ZT 1848-30, slightly dented but with shank intact. Quite scarce. Total: 2 pieces. ($90-up)



4289 **Unlisted Zachary Taylor medal, similar to DeWitt ZT 1844-15.** This unlisted medal, similar to ZT 1844-15, has the identical reverse as described, but entirely different obverse, similar punctuation, but spelling is **ZACK:** This might be the error in spelling alluded to by DeWitt under ZT 1844-13—in addition the diameter is larger by 1/2 mm., and there is additional space on the obverse rim as shown in the photo. Struck in white metal, Brilliant Prooflike Uncirculated with slight handling marks. Obviously excessively rare. In addition a regular brass copy of DeWitt ZT 1844-15 in brass, About Uncirculated. Total: 2 pieces. ($200-up)

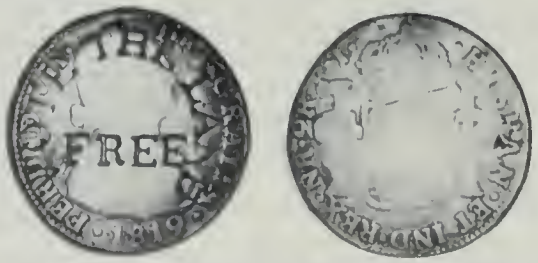
4290 **Zachary Taylor uniquely designed camp or field mirror.** This very novel political item is a two piece pewter shell encased mirror, 79 mm. in diameter, listed as Sullivan ZT 1848-59. The mirror is fully intact, although naturally it is slightly toned with two minor edge chips. All parts are intact including the brass pull ring and folding stand. The reverse is inscribed " BC/1844" obviously the manufacturer. It is hard to grade, but can be called overall Very Fine. In great demand. ($250-up)

4291 No Lot.

(See Color Photo)

(Photo Reduced)

4292 **Zachary Taylor hand colored snuff box cover.** This amazing political relic is not listed by DeWitt or Sullivan, but assigned No. 3004 by Hake. In fact his illustration appears to be surprisingly like the present specimen with horizontal crack, but repaired. Probably the outstanding political item in this session, and any estimates are just that. Very rare. ($500-up)



4293 **Martin Van Buren "Vote the Land Free" counterstamp on Mexican 2 reale.** Listed as DeWitt MVB 1848-4. Overstrikes on large cents do occur, but this is the first one the cataloguer can recall seeing in silver. Coin strong Very Good, counterstamp Very Fine. Rare. ($200-up)

4294 Martin Van Buren. DeWitt MVB 1848-3 on 1834 Fine large cent. Counterstamp Very Fine. ($60-up)

4295 **Lewis Cass ORIGINAL. DeWitt LC 1848-1.** This medal was restruck in limited quantities in white metal. Brilliant Prooflike Uncirculated and no hole—this specimen is dark colored, resembling lead, holed and on thin flan. Since Lot 4296 offers a prooflike copper restrike, it is easy to make a valid comparison. There is the beginning of the reverse die break on this piece — it is more distinct on restrikes. Very rare. ($350-up)

4296 **Lewis Cass-DeWitt LC 1848-1 in prooflike copper, a restrike.** This piece, alluded to above, is nearly as rare as originals, and Hake estimates it at $250. 100% mint red Uncirculated. ($250 -up)

4297 Lewis Cass. DeWitt 1848-5 in brass. Very Fine, but weakly struck on left obverse. No problems. ($75-up)

4298 Winfield Scott DeWitt WS 1852-1, the Leonard piece struck in copper with light silvering, Extremely Fine. Only 25 pieces were struck although there is no record of a silvered specimen. ($75-up)

4299 Winfield Scott. DeWitt WS 1852-3, a double headed muling with the Zachary Taylor obverse, DeWitt ZT 1848-3. Struck in copper, with brown mahogany bronze Proof. Probably made in 1860, and Excessively rare. ($150-up)

4300 Winfield Scott DeWitt WS 1852-7 struck in copper, with about half mint red Uncirculated. The "United We Stand" reverse was used as late as the Civil War, quite rare. ($120-up)

4301 Winfield Scott. DeWitt WS 1852-8 in white metal, with " Our Next President" reverse. Obverse is prooflike Uncirculated, while reverse is dull, apparently from die—not strike. ($75-up)

4302 Franklin Pierce. DeWitt FP 1852-1, an ORIGINAL struck in pewter, thin flan and holed. The few remaining originals are very rare. This piece grades Good to Very Good, with details readable, only minor damage. ($125-up)

4303 Group of Pierce and Fremont tokens. Included are DeWitt FP 1852-4 in Very Fine brass; FP 1852-5 in Very Fine brass; JF 1856-8 in brass, Very Fine with reverse verdigris; and JF 1856-14 in About Uncirculated with most original gilting. Total: 4 pieces. ($100-up)

4304 **Millard Fillmore. DeWitt 1856-1 struck in copper.** Saterlee states that **only 6 pieces were struck in copper.** A great rarity that was probably bronzed a light brown color and is About Uncirculated. Certainly the first one we have ever seen and how many of the 6 struck still exist? Excessively rare. ($250-up)

4305 Millard Fillmore. DeWitt MF 1856-2, in white metal with unusual "The Union" reverse. About Uncirculated with some toning and a little dirt. Clearly a rare type. ($85-125)

4306 Millard Fillmore, two pieces. DeWitt MF 1856-3 in white metal Brilliant Prooflike Uncirculated and MF 1856-4 in brass Extremely Fine. Nice specimens. Total: 2 pieces. ($75-up)

4307 **James C. Fremont DeWitt JF 1856-2.** The large, well executed medal with reverse surveying scene, "Honor to whom Honor is Due" by Smith and Hartman. Brown bronze Uncirculated and rare condition. ($150-up)

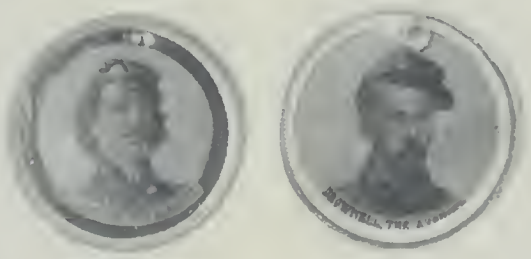
4308 James Buchanan DeWitt JB 1856-9 Very Fine in brass; and J. C. Fremont DeWitt JF 1856-12 in brass Very Fine. Total: 2 pieces. ($60-up)

4309 Antislavery issues of 1859. DeWitt SL 1859-1 John Brown in white metal Brilliant Prooflike Uncirculated; plus Massachusetts for Justice, DeWitt SL 1859-2 in white metal Brilliant Prooflike Uncirculated. Total: 2 pieces. ($80-up)

4310 **Abraham Lincoln DeWitt AL 1860-12 in white metal.** 1 in Extremely Fine, holed for suspension and attractive. Note that 1860 pieces show a beardless Lincoln. ($100-up)

4311 **Daguerrotype calendar similar to DeWitt AL 1860-79, but portrait of Major Anderson.** Major Anderson was the Commander of Fort Sumter during the first bombardment by Southern forces. This exceptionally rare Daguerrotype shell calendar, listed by Fuld as M.EL.3 in calendar series. Actually the use of Anderson instead of Lincoln, probably dates this extremely rare piece to 1861. The Lincoln piece has recently sold for over $1000, this should bring somewhat less. ($300-up)

4312 Nice group of 1860 pieces. Lincoln AL 1860-74 in copper Uncirculated, full mint red; Douglas SD 1860-37 a ferrotype but centers of both pictures badly rubbed, frame Very Fine; Douglas SD 1860-23 in copper-nickel (not nickel as described) in toned Uncirculated and **only 21 struck.** Finally J. Bell 1860-7 in brass toned Uncirculated. Nice lot. Total: 4 pieces. ($150-up)



4313 **Unlisted ferrotype of Ellsworth and Brownell, 1861.** For some reason DeWitt did not choose to include this interesting ferrotype in the 1861 pro-north series. Ellsworth was the first Union officer killed in the war at the Marshall House and formerly had served as Lincoln's law clerk. Brownell killed the owner of the Marshall House, who was responsible for Ellsworth's death.The portraits are inscribed "Ellsworth the Martyr" and "Brownell the Avenger". The piece is in a thin brass frame and most gilting remains. It grades About Uncirculated and may well be Uncirculated. In great demand. ($200-up)

4314 Union League issue of 1862, DeWitt U 1862-3 in silvered white metal, Brilliant Prooflike Uncirculated with natural silver toning. Holed as most. Scarce ($75-up)

4315 **Abraham Lincoln-DeWitt AL 1864-1, the largest issue of the '64 campaign.** Very popular with collectors since it shows the conjoined heads of Lincoln and Johnson in white metal, Brilliant Prooflike Uncirculated. Just lovely. ($200-up)

4316 Group of 1864 McClellan medals. DeWitt GMcC 1864-8 in 50 % mint red copper prooflike Uncirculated; GMcC 1864-24 in red-bronze, About Uncirculated with the very popular Monitor reverse date 1862 (often called a Civil War Token); plus a strangely **unlisted** mule, obverse GMcC 1864-27 with reverse of AL 1864-36 struck in brass Brilliant Uncirculated. We recall seeing this piece before, but maybe it was the Lincoln one. Potentially very rare. Total: 3 pieces. ($125-up)

4317 Large McClellan medal, listed as Sullivan GMcC 1864-86, 51 mm. and well struck by W. H. Key. White metal, Brilliant Prooflike Uncirculated with a few hairlines. We do agree that these additional McClellan pieces should be included with the political medals. Scarce. ($100-up)

4318 Pair of 1865 Andrew Johnson medals. DeWitt AJOHN 1866-1A a mule with Evans & Watson in white metal, Brilliant Prooflike Uncirculated (actual metal in which it occurs is not mentioned by DeWitt). A few hairlines. Plus AJOHN 1866-4 in prooflike Brilliant Uncirculated with 100 % mint red — an absolute gem. Rare and desirable. ($125-up)

4319 Ulysses S. Grant struck in black hard rubber, DeWitt 1868-19. This is one of only four or five political medals known in hard rubber — it shows conjoined busts of Grant and Colfax and is perfect Uncirculated. In demand. ($65-up)

4320 **Grant ferrotype DeWitt USG 1868-97.** This is a lovely 17 mm. jugate portrait ferro of Grant and Colfax. Set in a brass form virtually full gilt and must be called Brilliant Uncirculated. A gem pin. ($150-225)

4321 **Grant ferrotype on eagle hanger, DeWitt USG 1868-136.** Please note that the identical mate is offered in the sale for Seymour, DeWitt HS 1868-17, Lot 4323. This specimen has the original hanger and tri-color ribbon, not illustrated in DeWitt. About Very Fine to Extremely Fine. ($150-200)

4322 Pair of Horatio Seymour medals. DeWitt HS 1868-5 in Brilliant Uncirculated brass, light toning; and HS 1868-8A struck in copper, 100% mint red Uncirculated. The later is from the manufacturer, Key of Philadelphia and must be considered a very rare store card but this reverse is the large KEY initials, not the one described in DeWitt. **Another unlisted and rare mule.** Total: 2 pieces. ($90-125)

4323 Horatio Seymour ferrotype, DeWitt HS 1868-17 and mate to Lot 4321 of Grant. In about the same condition at Lot 4321, with eagle and tri-color ribbon. About Very Fine to Extremely Fine. ($100-150)

4324 **Seymour large pinback ferrotype, DeWitt HS 1868-20.** In lovely Extremely Fine condition, locking attachment pin intact. Definitely on the scarce side. ($150-200)

4325 Schuyler Colfax, a very limited series of metallic issues are available — two in all. This specimen, DeWitt SC 1868-3 is white metal, Brilliant Prooflike Uncirculated, about 4 mm. thick and rarely seen. Rare. ($75-125)

4326 Colfax ferrotype in form of small, 18 mm. stud. Picture has slight rub on center, but intact and brass most original gilt. Listed as Sullivan SC 1868-8. Rare. ($90-150)

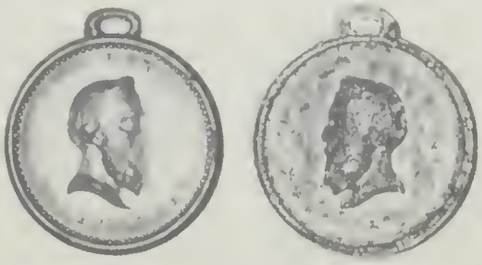
4327 **Horace Greeley, DeWitt HG 1872-22 magnificent prooflike shell.** This specimen is struck in copper with 100% mint red blazing color. It must be the finest copy existent. Rare in its own right, exceedingly so in this condition. DeWitt states that **twenty copies were struck.** ($250-350)

4328 Greeley double head, DeWitt HG 1872-3 in almost full mint red prooflike Uncirculated — Greeley side has no toning, as Brown was obviously stored face up. Few carbon spots. Listed as Hake 3044. Scarce. ($75-100)

NOTE: The following few lots of Rutherford B. Hays and Samuel J. Tilden were the subject of a specialized article by David Prosky in *The Numismatist*, and he is quoted on this intriguing series. Reprinted on page 208-ff of "Selected Articles on American Tokens" reprinted from *The Numismatist* by TAMS, 1969.

4329 Rutherford B. Hayes, pair of medals. DeWitt RBH 1876-6, Prosky 14, Hake 3034. This double headed piece of Hayes and Wheeler has numerous die varieties — this piece appears to be white metal silvered, while Prosky thought it might be silver. Extremely Fine and holed as most. Second piece, RBH 1876-12, Prosky 26 struck in white metal, Brilliant Prooflike Uncirculated but some toning. Scarce. Total: 2 pieces. ($120-160)

4330 Three additional Hayes medals. DeWitt RBH 1876-10, Prosky 30 in white metal, Brilliant Prooflike Uncirculated but some nicks probably from the striking process — some light toning; RBH 1876-13, Prosky 34, Hake 3037 in white metal, dull Uncirculated. Prosky states rare unpierced — this piece is unpierced; RBH 1876-14, Prosky 35, Hake 3038 crudely made in lead, Uncirculated. Three quite rare medals. Total: 3 pieces. ($175-250)



4331 Hayes, unlisted by DeWitt, but shown as Prosky 36. The description of DeWitt RBH 1876-27 is close, but inscription does not match. Struck in white metal, Brilliant Prooflike Uncirculated with decorative back. ($50-100)

4332 Matched pair of Hayes and Tilden medals, in celluloid in **unpublished** blue color. These medals were made by The Celluloid Co. of Newark, N.J. in five different colors, as mentioned by both Prosky and DeWitt. Neither mention the light blue color that these are struck in. The listings are RBH 1876-31 and SJT 1876-20. They rate about Extremely Fine. Rare pair. Total: 2 pieces. ($100-150)

4333 **Hayes-Wheeler conjugate ferrotype pinback, DeWitt RBH 1876-38.** This attractive rectangular ferrotype is very similar to SJT 1876-16, in a thin ornate frame with most original gilting and original pin, About Uncirculated and very rare. Unusual type and in demand. ($175-250)

4334 Three piece group of Samuel J. Tilden. DeWitt SJT 1876-6, Prosky 69 and Hake 3035 struck in copper, almost 100% mint red Uncirculated; SJT 1876-10, Prosky 78, Hake 3038 in white metal, Extremely Fine with few minor dings; and SJT 1876-11, Prosky 79, Hake 3039 crude dies in lead (mate to RBH 1876-14), holed as all, toned Uncirculated. A choice lot. Total: 3 pieces. ($175-250)

4335 **Choice Tilden Ferrotype, DeWitt SJT 1876-31, Hake 3020.** This gem specimen in silvered plated brass has the original eagle hanger, not mentioned by DeWitt or Hake. Must be called strictly Uncirculated and very rare. ($200-275)

(See Color Photo)

4330 **J. A. Garfield, DeWitt JG 1880-16 in GOLD.** This exceptionally rare political token in gold, although illustrated by DeWitt is virtually unknown to contemporary collectors. It strongly resembles California fractional gold, and is rare if for no other reason than that this tiny piece could be easily lost. In nice Extremely Fine and the first the cataloguer has seen. A show piece. ($150-250)

4337 Grover Cleveland large medal in WOOD, DeWitt GC 1884-1 and Hake 3125. These well made pieces are illustrated in DeWitt, and are orders of magnitude rarer than the wooden commemorative medals of the 1876 and 1892 Exhibitions. In choice Extremely Fine with a red felt ring around, brass loop attached to it. Very rare. ($75-125)

4338 Group of Cleveland medals. DeWitt GC 1884-5 in Extremely Fine white metal with some toning, holed as all; GC 1884-7 in about 50% mint red copper Uncirculated, holed as all; GC 1884-9 in About Uncirculated white metal, holed as all; GC 1888-3 in brass about 100% mint color Uncirculated, holed as all, choice lot. Total: 4 pieces. ($90-125)

4339 Pair of political calendars of Cleveland, DeWitt GC 1884-7 nickel plated (Fuld Calendar CA.N.CL.1), and GC 1884-7A in brass. Both calendars are the same, but are assembled differently. Nickeled piece is Extremely Fine and brass is Brilliant Uncirculated with original gilting and loop. A rare pair. Total: 2 pieces. ($100-150)

4340 Group of Cleveland and Harrison medals. DeWitt 1884-16 in brass Brilliant Uncirculated, holed as all; GC 1884-19 white metal, silvered dull Uncirculated; GC 1888-5 brass Brilliant Uncirculated holed as all; GC 1888-5a brass prooflike Brilliant Uncirculated (no hole); and BH 1884-24 in white metal, About Uncirculated with original ribbon. Choice lot. Total: 5 pieces. ($100-125)

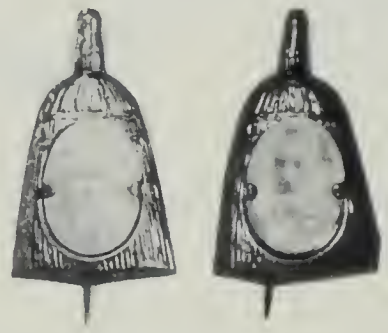
Desirable group. Total: 5 pieces. ($110-150)

4345 Grouping. DeWitt JCB 1884-11 gilt brass with bar Extremely Fine; BH 1888-8 in bronzed white metal, Extremely Fine but poor strike — no hole; and BH 1888-10 in gilt brass Brilliant Uncirculated with original hanger. Total: 3 pieces. ($120-160)

4346 A matched pair, Harrison BH 1888-3 in white metal, Brilliant Prooflike Uncirculated with very minor scuffs; and Cleveland GC1892-5 in white metal, Brilliant Prooflike Uncirculated. Both have identical reverses INAUGURATED MARCH 4, but one dated 1889 and one dated 1893. Important for the Inaugural collector also. Rare pair. Total: 2 pieces. ($100-150)

4347 Rare Cleveland Chair medal, DeWitt GC 1888-108 in Extremely Fine, fully operable, but Cleveland photo is missing. ($50-up)

4348 Harrison and Morton inaugural medal as found on the official ribbons. Listed as DeWitt BH 1888-9 and Douglas 34. DeWitt states occurs only in bronzed white metal which is about 95% correct, but this is red mahogany bronze Proof and as such exceptionally rare. There are die breaks on the piece here, also pictured in Douglas, but they do not occur on BH 1888-8. Very rare. ($100-175)



4349 **Rare photograph in a BROOM pair of Cleveland and Harrison.** The shell copper broom, one showing Cleveland is listed as Hake 3210, but nether DeWitt, Sullivan or Hake list Harrison type. 4416 Low 383 Samuel and Joseph Harvey in glossy brass Brilliant Uncirculated. Probably the choicest specimen seen in the past 30 years, and actually unpriced in 2nd edition of Rulau which is probably an oversight. Extremely rare grade. ($200-up)

This Lot concludes the Section on Hard Times Tokens.

Civil War Tokens

With the wide distribution of the two reference books on Civil War Tokens, and the strong almost thousand member Civil War Token Society, the popularity of this series has multiplied enormously, along with the prices, of course. The present offering of Civil War tokens is certainly the most important single group in the past five years, and is marked by not only many copper-nickel cent overstrikes, but by a lovely New York piece over an English six pence and many Southern and Rhode Island mules. The astounding part is that there are seven major unlisted varieties of Civil Wars in the section, almost unheard of today.

Copies of *U. S. Civil War Store Card Tokens*, the second printing by George and Melvin Fuld are available from us at $40 apiece postpaid (mention Stock No. F1). The new *Patriotic Civil War Tokens* in the new expanded 4th edition by Melvin and George Fuld, running about 500 pages is nearing completion and should be available in few months, at about the same price.

4420 Fuld 1/360 in white metal. Uncirculated with slight toning. Scarce. ($150-up)

(See Color Photo)

4421 **Fuld 26/Blank.** Only in rare cases do blank sided Civil War turn out to be genuine. This is one of the few examples, listed as R-10 (Unique). It is ex Fuld and Guttag collections. Uncirculated with much red — the illustration shows the unique features of the reverse. ($600-up)

4422 **Fuld 37/434 struck over a NY 630D.** This is a completely UNLISTED overstrike on H. D. Gerdts, a coin dealer. Called Extremely Fine, possibly but overstrike interferes with grading. ($250-up)

4423 Fuld 107/107 incuse. All incuse tokens are rare, this rates R-8. There is a rough appearance on the right side of the coin, but it is mirrored on the reverse incuse. For the die, we call the piece Very Fine. ($150-up)

4424 Fuld 132/202 struck in nickel. Washington on horseback type, with head facing — always crudely struck. Conservatively Very Fine. ($100-up)

4425 **Fuld 135/135 incuse.** This Jackson piece is a rarer incuse type, R-9 and is part red Uncirculated. ($300-up)

4426 **Fuld 142/348 white metal, McClellan political type.** Its political intent is obvious due to original loop attached, and probably will rate a R-8 in new edition, not R-9. Rare die type. About Uncirculated. ($150-up)

4427 Fuld 259/445 struck in **unlisted metal, brass.** Although not the bright yellow of many brass Civil Wars, this is guaranteed to be brass, and if memory serves it is ex Fuld collection. Extremely Fine. ($300-up)

4428 Fuld 286/382 overstruck on NY 630AE-1a and presently unlisted — may be unique. Fully Uncirculated with some mint red. ($200-up)

4429 **Fuld 481/488 a Rhode Island mule.** This specimen, struck in nickel (but from its appearance it is much more likely German silver) is controversial, but our feeling on the subject is summed up by the existance of the piece in Lot 4431. Brilliant Uncirculated and undoubtedly R-9, not R-8. ($250-up)

4430 Fuld 481/485 Rhode Island mule, also in nickel, but probably German silver as noted in previous Lot, 4429. Brilliant Uncirculated and again probably R-9, not R-8. ($225-up)

(See Color Photo)

4431 **Fuld 481/493 unlisted Rhode Island mule in nickel.** It often only takes one piece to prove a theory — the reverse of this piece, No. 493 is the first clear copy of this die seen (the only other reported piece was lead and not sharp). This specimen inscribed WAR OF 1861 above, and ENGAGED IN THE ABOVE BATTLES, below. There is no doubt that this specimen is of Civil War vintage, although we have never seen this die inscribed as a 'dog tag'. Brilliant Uncirculated with same German silver appearance as Lots 4429 and 4430. UNIQUE. ($300-up)

4432 **Fuld 508/509 A Southern mule.** These are fully double headed mules, Bell and Breckenridge, struck in copper with about 50% mint red Uncirculated. Rarely offered. ($150-up)

4433 Fuld 508/512 Southern mule. Struck in copper, almost full red Uncirculated. In demand. ($150-up)

4434 **Fuld 509/511 Another Southern mule,** but this is important type with Wealth of the South reverse, a much more meaningful combination. Most red Uncirculated. ($225-up)

4435 **A rare pair, Fuld 509/510A and 510/510A** the Presidents House combinations, newly added to the 4th edition. Although the cataloguer was outvoted, these are being collected as bonafide civil war pieces. Both specimens are Uncirculated, but the 510/510A piece is full red and prooflike. Total: 2 pieces. ($350-up)

4436 **Fuld 510/519 a blank reverse Southern mule.** This piece although listed as R-8, fully qualifies as R-9 and may even be unique. The cataloguer has never seen a duplicate, and is certain that this piece is Ex. Fuld, from a Lester Merkin Sale in 1967. Part red Uncirculated. ($400-up)

NOTE: More patriotic Civil Wars will be offered in the lots at the end of the Store Cards.

4437 **Indiana 570B-1b H. C. Eversole,** Logansport, Ind. This particular piece was discovered by the cataloguer about 15 years ago — listed as a R-9, it was unique or semi-unique until the surfacing of this specimen from an old-time collection (not Springfield). Identical to the Fuld plate specimen. Brass and mostly Brilliant Uncirculated. ($500-up)

4438 Massachusetts 970A-1a from Worcester. These Lang tokens are unusual in design, and difficult to find. This pair of pieces is in FULL red Brilliant Uncirculated condition, but one piece has minor obverse carbon spot. Rare pair. Total: 2 pieces. ($100-up)

4439 **Michigan 40A-1do over 1861 copper-nickel cent.** Some of the more intriguing Civil War cent survivors are overstrikes over other U.S. and foreign coins. Dime overstrikes are spectacular, quarters hardly ever seen, so the remaining one that can be obtained by many collectors are overstrikes over copper-nickel cents, a number of which are offered in this sale. Most pieces occur over 1860, 1861, 1862 and 1863 cents, but flying eagles are rarely seen, and rumor has it that at least one is overstruck on an 1856 flying eagle cent. Good hunting. The present specimen shows the overstrike quite clearly, is Uncirculated and rated R-7. ($300-up)

4440 Michigan 40A-1e struck in white metal, high rims and bright Uncirculated. ($150-up)

4441 **Michigan 40A-2do over copper-nickel Indian cent.** Very similar type to Lot 4439, but the reverse die inscribed Ann Arbor, rather than a dated Indian head. Rarer than Lot 4439, R-8, and fully Uncirculated. ($300-up)

4442 Michigan 40A-2e Bach of Ann Arbor struck in white metal. Uncirculated with some toning, flan slightly bent, probably from striking. ($135-up)

4443 **Michigan 40B-2do over an 1862 copper-nickel cent.** This Ann Arbor piece from Dean & Co. is toned Uncirculated with a clear overstrike. Much rarer than the Bach overstrikes, rating a full R-9 (2 to 4 known). ($350-up)

4444 Michigan 40B-2e struck in white metal. Only rated an R-7, fully Uncirculated with no toning. ($150-up)

4445 Nice Uncirculated grouping of Michigan tokens. Mich. 40C-1a, red Uncirculated BS R-4; Mich. 530A-1a, R-7 mostly red Uncirculated; Mich. 530B-1a, R-6 and part red Uncirculated; Mich. 530D-1a, R-4, part red Uncirculated; Mich. 700A-2a, R-6 part red Uncirculated; Mich. 700B-la, R-3 most red Uncirculated; Mich. 700C-2a R-6 Uncirculated with traces of red; Mich. 700E-2a, R-8 most red Uncirculated; and Mich. 700E-4a, R-4 most red Uncirculated. Total: 9 pieces. ($250-up)

4446 Michigan 225F-4b struck in prooflike Brilliant Uncirculated brass. R-8. ($75-up)

(See Color Photo)

4447 **New Jersey 55B-1do struck over a copper-nickel Indian cent.** This is one of the more unusual overstrike pieces, as the normal copper piece is slightly larger than the small cent, so there are some metal flow problems on the overstrike. Perfect Brilliant Uncirculated with slight toning, but underdate is not clear. ($350-up)

4448 New Jersey 555C-3c, Wightman of Newark struck in nickel. A lovely example of the imitation Indian head, Uncirculated with slight toning. ($150-up)

4449 New York 630L-4b struck in brass on a large flan, R-8 and it's mate N Y630L-4e struck in white metal, and a thin, hand cut flan, a R-7. Both specimens show the head of Franklin, regularly used on the Patriotic dies — Franklin is not commonly used on store cards. Both pieces are Brilliant Uncirculated. Total: 2 pieces. ($200-up)

4450 N Y630K-3f A Brimelow card, struck in SILVER. Lovely light toning on prooflike Uncirculated flan. ($250-up)

4451 A small, but rare group of Brimelow's. N Y630K-6b in brass and R-8; N Y630K-6e struck in white metal and a full R-9; plus TWO copies of N Y630K-3a in copper and a R-8. From an old-time collection. All are fully Uncirculated and choice. Total: 4 pieces. ($350-up)

4452 A small group of New York city store cards. There are 6 Uncirculated specimens, 4 of which are 100% mint red plus 9 other pieces in Very Fine to About Uncirculated. No rare types, but desirable. Total: 15 pieces. ($150-up)

4453 **N Y630W-1b the elusive No North No South dies.** This highly collectable issue by Strassberger & Nuhn undoubtedly struck in Germany by Lauer is in Brilliant Uncirculated with full gilting. A superb example of this highly interesting die. ($150-up)

(See Color Photo)

4454 **N Y630AC-fo2 struck over an early head Victorian six pence!** This most spectacular overstrike ranks in rarity with the Garrett Civil War cent overstruck on a U. S. quarter dollar. This issue of J. H. Warner is a relatively rare piece even in copper — the only other specimen known of a six pence overstrike was Ex. Fuld from Guttag Collection. To all intents this piece is a Brilliant Proof, with the undertype nicely outlined in toning. A magnificent display piece and the highlight of the current offering. ($1500-up)

(See Color Photo)

4455 **A completely new rediscovery of a Civil War Token.** Amazingly enough this ticket of A. A. Budd was listed by Dr. Wright in 1899 as No. 32 but never seen apparently by the past two generations of Civil War collectors. The piece, undoubtedly of Ohio origin, reads A.A.BUDD/WATCHMAKER with the handstamped number 9 in the center, apparently over a 7. It is struck over a 23 mm. brass McClellan 1864 token, and in Brilliant Uncirculated. Although we hesitate to call it unique, only other specimen in ANS as reported by Harris. We hesitate even to give a price estimate. ($400-up)

4456 Ohio 5A-5e. The Rare Grant die used on the Stoner & Shroyer token of Adamsville. Struck in white metal, Uncirculated with some toning and a full R-8. ($175-up)

4457 Two scarce thin brass tokens of Cincinnati. Ohio 165AMa-2bp Uncirculated with full silvering, and Ohio 165GD-1b Varwigs in brass, Uncirculated with spotty toning. Called R-7, listed as Adams Ohio 32, but underrated. A rare pair. Total: 2 pieces. ($125-up)

4458 Choice lot of Uncirculated Cincinnati store cards, no rare merchants but unattributed by die variety. The pieces have from 10 to 50% mint red, and include a Ross Drug piece in brass. A very worthwhile lot. Total: 11 pieces. ($150-up)

4459 A similar lot to 4458. All of the Cincinnati issues are Uncirculated with from 10 to 100% mint red. No rare merchants, but the lot includes a copper Zahm piece from Lancaster, Pa. Another choice lot. Total: 11 pieces. ($120-up)

4460 A final lot of Cincinnati tokens in Extremely Fine to About Uncirculated condition. No rare merchants, but includes a Ross Drugs in brass. There are 12 pieces of this type, plus 2 damaged tokens not counted. Total: 14 pieces. ($75-up)

4461 Two scarce Ohio Civil Wars, Ohio 165Ma-lbp about Extremely Fine and little plating remains; plus Ohio 165DZ-3b, a brass struck incuse shell. Fully Uncirculated but partly dull and a R-7. Total: 2 pieces. ($80-up)

4462 An unusual grouping of the tokens of Yankee Robinson, from an old-time collection. Included are Ohio 165EZ-3a, 2 copies, one Very Fine and other 100% mint red Uncirculated; 2 copies of Ohio 165EZ-3b in Brass, both Uncirculated, one dull and one brilliant; plus Ohio 165EZ-10a in 25% mint red Uncirculated. Nice lot. Total: 5 pieces. ($100-up)

4463 An excessively rare Civil War attributed to Cleveland, A & H, with extremely rare uninscribed clock reverse. Surprisingly we never noted that this piece was listed by Dr. Wright in 1899, and assigned No. 39. This is only the second specimen of this type seen by the cataloguers, and is similar to one attributed to Wilkes Barre which sold for the low four figure range at auction last year. Extremely important and valuable — we are giving a very conservative estimate range. ($800 plus).

4464 Ohio 505B-2e in white metal by Orr of Mansfield. This is struck on an oversize flan, picturing the scarce Washington die. One of the few off-metals obtainable from Ohio except for copper-nickel. Uncirculated with light toning. ($150-up)

4465 Ohio 905C-1b, the rare Wappakoneta Sanitary piece. This very rare token issued for the Sanitary Fair in 1864 (effectively a combination U.S.O. and Red Cross fund raiser, in today's terms for wounded soldiers) is every bit as rare as its counterpart from Philadelphia is common. The Great Central Fair which was struck by the Mint. The other fairs were in Nantucket and New York, both scarce but much more common than the Ohio Fair. Struck in brass, fully Uncirculated which is rare condition. ($350-up)

4466 Pa525A-1a, b, and e. A three metal set of Zahm a coin dealer from Lancaster, Pa. in part red Uncirculated copper, brass part Brilliant Uncirculated; and white metal with original silver plating nicely toned. This is a most unusual coin dealer piece, showing a scarce Franklin die dated 1861. Total: 3 pieces. ($150-up)

4467 Pa525A-1a and b. Two different Zahms in part red Uncirculated copper and Brilliant Uncirculated brass with a couple of carbon spots. Total: 2 pieces. ($85-up)

4468 **Pa750B-3a — a rare eagle reverse of M. Allebach of Philadelphia.** Brilliant Uncirculated with 100% mint red color — the reverse is prooflike. Rated an R-9 and certainly that rare. An especially desirable die type. ($250-up)

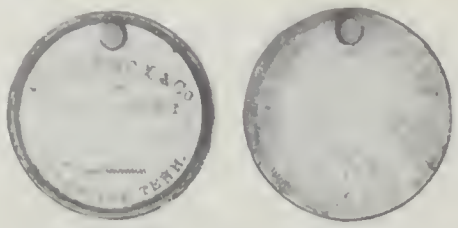
4469 Pair of Rogers milk tokens of Philadelphia, Pa750-1a in full mint red copper Uncirculated, R-6; and Pa750P-2c in nickel, fully Uncirculated and a R-5. In demand as only pieces showing a milk can. Total: 2 pieces. ($80-up)

4470 Pa750V-3b the very large tokens of N & G Taylor, this specimen struck in brass. A nice Extremely Fine with some lustre in protected areas. In demand also as a Washington store card, of course listed in Baker. ($150-up)

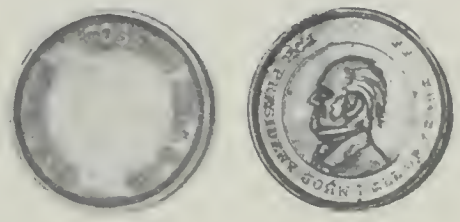
4471 **Pa750V-5e, a different die type of N & G Taylor in white metal.** A much rarer metal than brass, and present specimen is fully Uncirculated with light toning. Rated as R-7, but an R-8 or 9 in demand! ($225-up)

4472 Pa750V-5e, identical to preceding lot — as may be expected the two pieces came from different collections. Virtually identical, white metal Uncirculated, but just a few *minor* nicks in field. ($200-up)

4473 **A completely unique and reported Civil War die trial,** discovered in the Springfield Collection. There were a number of relatively rare Rhode Island (but surprisingly few Boston) Civil War tokens in the Springfield Collection, probably because of the proximity to Rhode Island. This lead strike, on a large 28 mm. lead flan, shows the obverse of RI700D-4, The City Fruit Store, but the reverse is blank but does show a denticled border, similar to the Rhode Island mules. The specimen is of course Uncirculated but it has the typical lead patina so often encountered on trials. Of utmost importance, as few Civil War trials are known, all of which are unique. An estimate is just a guess. ($300 plus)



4474 **Unlisted Tennessee Civil War token of N. L. Tarbox of Nashville.** This exceptionally rare Tennessee token surfaced in the old-time collection, and apparently was listed by Dr. Wright in the 1900 *Numismatist* as No. 1090, but never observed by contemporary collectors, until noted on page 17 of the Harris supplement. To help confuse the issue, a Tarbox token is listed under Memphis by Adams, as No. 4 but the initials are wrong and very likely it should have been Nashville, not Memphis. The present piece exactly fits the Wright description, 23 mm. brass, struck over an 1864 Lincoln campaign token, reading N.L.TARBOX&CO./CHURCH/NASHVILLE TENN. The piece is brass, almost fully Brilliant Uncirculated, and must be considered the only one to date. Of extreme rarity. ($500-up)



4475 **Tenn 600A-1a another rare die combination of Cossitt Hill of Memphis with John Bell,** Fuld die 1158. Part of the Wealth of the South mulings, of the utmost rarity, in copper, part mint red Uncirculated. ($600-up)

4476 **Tenn 600B-3a another political Southern Mule of Elliott, Vinson & Co. with John Breckenridge.** This rare combination is listed in Fuld, but all political mules are much rarer than other types. This piece is copper, Uncirculated with the reverse (Breckenridge) almost full mint red. Called an R-8 which is conservative. ($250-up)

(See Color Photo)

4477 **Tenn 600B-1a the other rare Bell Southern mule referred to in Lot 4475.** In copper, reverse with much mint red Uncirculated. Again, estimates are just a guess. ($500 plus)

4478 **Tenn 600F-7a another of the Southern mules for Stockman & Co.** Equally rare, given an R-6, copper and most mint red Uncirculated. In demand. ($225-up)

4479 Non-contemporary Civil Wars, of Warner the coin dealer of Philadelphia. Fuld NC-27a in copper, virtually full mint red Uncirculated, NS NC-28e in white metal, Brilliant Uncirculated. Both scarce. Total: 2 pieces. ($100-up)

Early American Store Cards

Early American Store Cards, encompass pieces struck from about 1789 to 1876 **excluding the Hard Times period of 1834 to 1844 and the Civil War period from 1861 to 1864.** These tokens encompass a wide range of type, design and value. Most are listed in Adams *United States Store Cards*. These are available form Bowers and Ruddy in 1981 reprint form at $10.00 postpaid (Stock No. EA-2), published in 1920, and revised by Miller in 1963. P. Wrights pioneering work are given in the Bibliography section. Where appropiate, reference is made to Rulau, *Early American Tokens*; and Rulau, *Hard Times Tokens*, 2nd edition, both available from Bowers avd Ruddy at $4.95 postpaid (Stock RR-2 and RR-1 respectively)

This group of tokens, of the early period, is made up of a number of nice consignments, plus the Springfield Collection. Many unlisted or unpublished varieties abound, and we wish the collector "good hunting".

4504 **The famous Baltimore Ship tokens, Adams 8.** The well known Baltimore Ship token, falls into the Hard Times series, and the same obverse die is used on the James Cole of Fells Point listed in Rulau's supplement. Most have turned up in Baltimore, and this lovely specimen is the identical die to Garrett IV Lot 2026, but on a very thin flan, and although probably Uncirculated, but because of the thinness of the flan it did not strike well. There is another reverse die, with a broader shield, also on thin flan — this is the one usually found countermarked. The Garrett pieces (2 in lot) sold for $350, one being Extremely Fine and one Very Good. See the discussion in Rulau's *Early American Tokens*. Again Uncirculated and on thin brass flan. ($300-500)

Although we have seen one or two of these, this is white metal Brilliant Prooflike Uncirculated with light toning and rare; Mass 128 Moore **Photographer** in white metal, only 400 struck, white metal Brilliant Prooflike Uncirculated with toning; and identical piece Mass 128A, in white metal, but thick, silver plated and Brilliant Uncirculated (see photo) — a great opportunity for photographic collectors. Total: 7 pieces. ($225-300)

4508 **An amazing group of J. A. Bolen Store Cards.** Because of proximity of the original donor of the Springfield Collection in 1907, it is not surprising that he owned some unusual Springfield produced items by the famous die sinker, J. A. Bolen. Actually there are FIVE completely unlisted cards of Bolen, and two of these occur in duplicate — we decided it was important to keep the group intact for historical purposes.

Mass. 102 Young America 1862 in brass Uncirculated, 75 struck; UNLISTED muling of J. A. Bolen advertising die like No. 101, with reverse of Armory medal "U.S. Armory Established by Act of Congress in April, 1794. Springfield, Mass.", struck in brass, Uncirculated. Two almost identical copies, (see photograph); Mass. 109 J. A. Bolen, 1865 struck in oroide, only 50 struck, copper part red Uncirculated — see photo; Mass 110 identical type, but struck in white metal, toned Uncirculated — also 50 struck; Similar to obverse of Mass. 115, dated 1867, with reverse of 109 struck in copper, mostly Brilliant Uncirculated and **unknown** — see photo; plus another pair of the same combination, also **unlisted** struck in toned white metal Uncirculated. An extremely rare and desirable lot. Total: 8 pieces. Any estimate is a guess. ($400-600)

Holed for suspension, coin Very Fine. Total: 3 pieces. ($150-up)

4567 **Pair of G. W. Felt Indian Traders tokens.** These Indian Traders pieces listed by both Curto and Wright were used in the period about 1885 according to Rhodehanel's articles in TAMS. They were manufactured by Scovill in Waterbury, and made only in brass. The two specimens here are $1.00 size (37 mm.) and 50c size (30 mm.). Both struck in thick brass, Brilliant Uncirculated with few spots on large size piece. Total: 2 pieces. ($250-325)

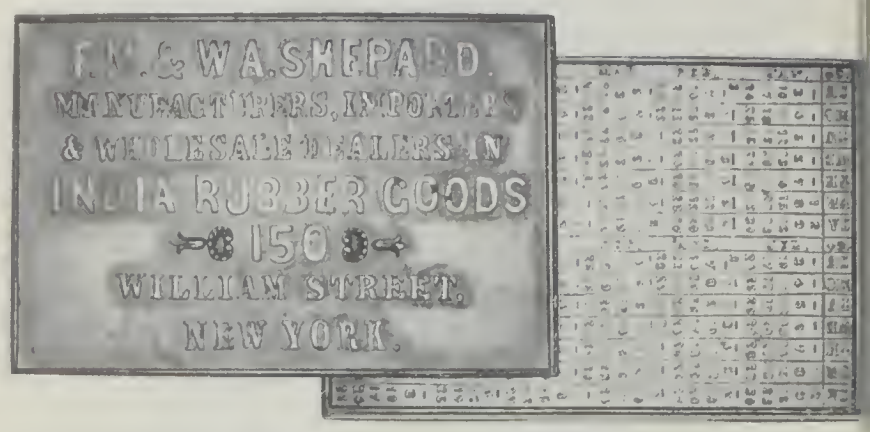
4568 **Pantheon Saloon, Honolulu, Hawaii, Good for One Draught Beer.** Rare token, holed at top as most not illustrated in Gould, listed in Gordon-Metcalf as TS-19. Brass, Extremely Fine and very rare. ($150-250)

Hard Rubber Store Cards

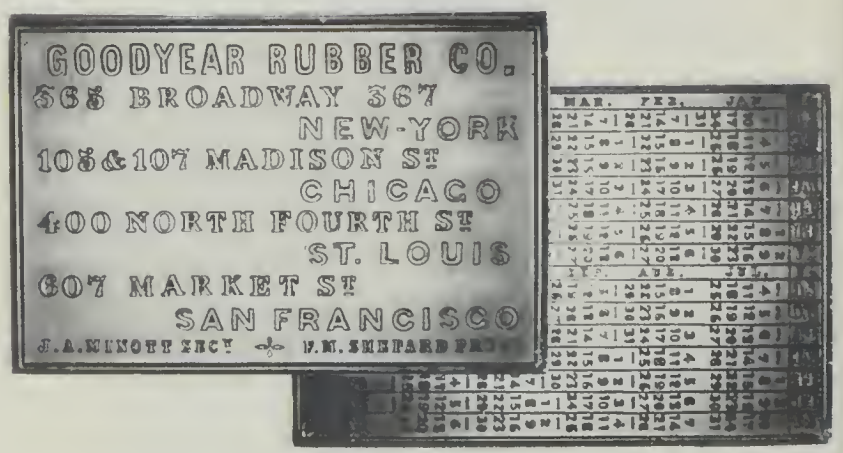
Hard rubber store card tokens and medals, have been a widely neglected area of exonumia. Except for the Tilton listing in 1883, little was published until a series in *The Numismatist* by Melvin and George Fuld where several hundred of these unusual tokens were listed, plus about 150 transportation tokens. David Schenkman has written further in this area, and plans a detailed listing of whole series in a new cohesive form. Both Fuld and Schenkman outline the invention and the manufacture of these pieces, and undoubtedly in years to come they will take their rightful place in the exonumia forefront.

Calendar Tokens and Medals

4569 **Hard Rubber Calendar token, F. M. & W. A. Shepard, 1863.** The first clearly dated hard rubber cards are the two 1863 issues of Shepard in this lot, and that of Rubber Clothing Co. Lot 4573 also dated 1863. Clearly a strong case for including the rubber calendar tokens of 1863 and 1864 as full fledged legitimate Civil War Tokens can be made. In fact, they are probably more legitimate issues than several hundred other issues that everyone accepts. Listed by Fuld in "Calendar Medals and Store Cards" which first appeared in *The Numismatist* in 1959 thru 1962 as N SH.1 — in thirty years of collecting this is only specimen seen of 1863 — in fact the following nine rubber store cards are all of excessive rarity. Both known 1863 issues, are a dull brown red, not the glossy black of the 1864 and later issues, and both are oval, not rectangular as the others. In perfect Uncirculated condition, a real Civil War token, albeit still unlisted, and highly collectible. ($150-250)



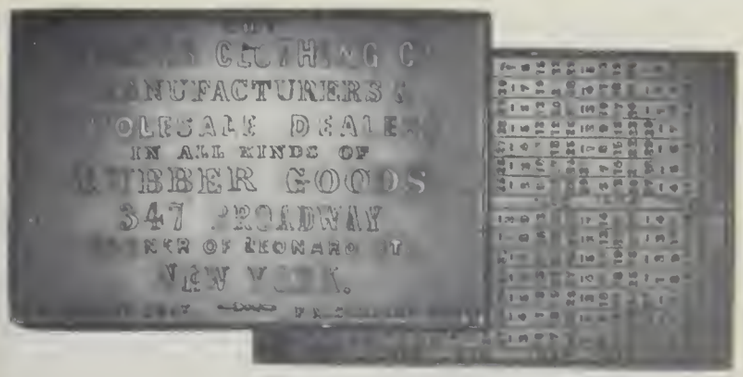
4570 **F.M. & W.A. Shepard, rectangular rubber card of 1864, Fuld CA.N.SH.2.** Same firm as preceding but rectangular, in glossy black, also extremely rare and Uncirculated. ($125-175)



4571 **Same issue, but under new name of Goodyear Rubber Co,** with addresses in New York, Chicago, St. Louis and San Francisco. Rectangular, glossy black Uncirculated. Fuld CA.N.GO.1. dated 1864 and also excessively rare. ($125-175)

4572 Identical obverse, but date 1873. Oblong, glossy black and Uncirculated. ($100-150)

4573 **Oval Rubber Clothing Co. of 1863 in red-brown, and excessively rare.** See comments under Lot 4569. The same comments about inclusion with Civil War tokens apply to this token — it is still the only other 1863 seen in 30 years of collecting. Excessively rare, Uncirculated. ($150-250)



4574 **The second issue of Rubber Clothing Co., dated 1864 in glossy black Uncirculated.** Virtually identical in type to Lot 4570, a Civil War Token, glossy black Uncirculated and excessively rare. Note that F. M. Shepard is President of the organization. Again excessively rare. ($125-up)

4575 The same manufacturer, dated 1866 now with offices in Chicago and San Francisco. Glossy black rubber Uncirculated. ($125-up)

4576 The same manufacturer, dated 1872 with same three offices as in preceding lot. Glossy black rubber Uncirculated. Very rare. ($125-up)

4577 W.B.S. Taylor's, agent for Rubber Clothing Co, rectangular rubber calendar for 1873. Glossy black Uncirculated. Fuld CA.N.TA.1. ($125-up)

Note: It is interesting to speculate why no calendars exist for the year 1865 to 1871 for these series with the exception of a lone 1866. After all the years of searching, if they exist, it is hard to believe they would not have already turned up — there have been no reports on the missing dates.

4581 William McKinley medal of 1901 in original box of issue which Levine states is many times rarer than the medal. Listed as McNeil WMcK 1901-3, in bronze Proof. Box has few notes on it from museum ascension, but otherwise perfect. ($190-210)

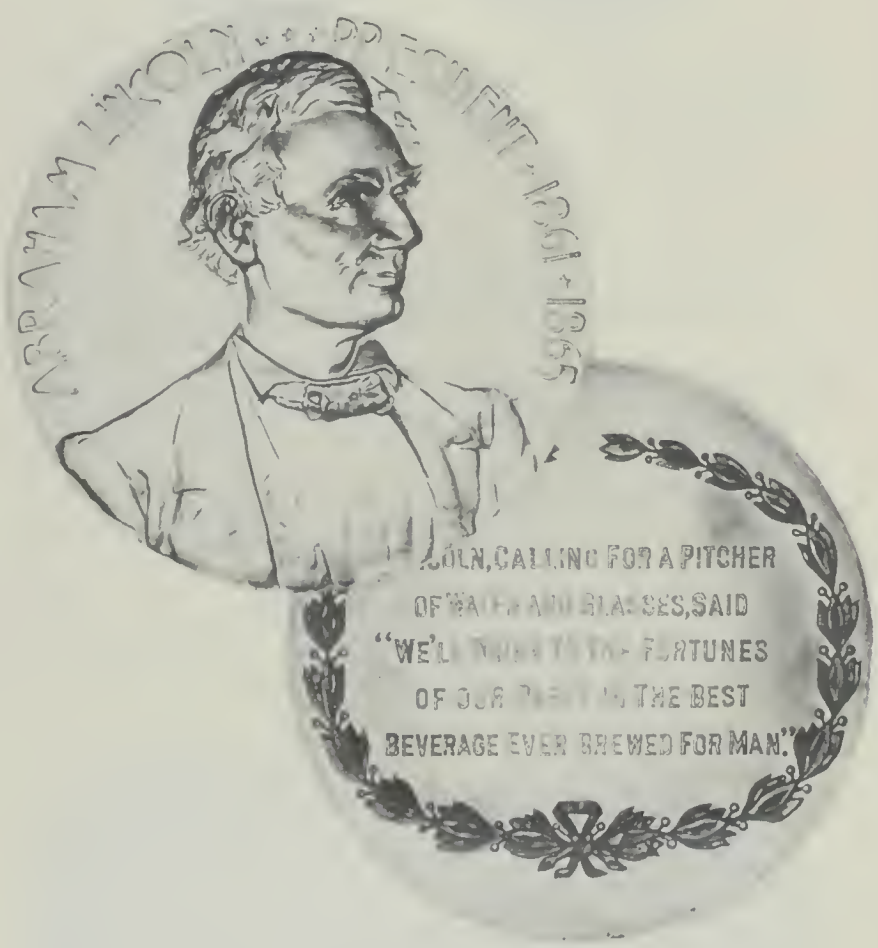
We've seen many more in gold than silver, toned Uncirculated; King 280 the handsome Bovey Martyr medal, issued in 1865 in Geneva, in copper gilt, About Uncirculated; and unlisted Guardian Savings & Loan medal, about 1909 issue Extremely Fine. Total: 3 pieces. ($100-150)

4586 1909 Lincoln medal by Roine, 62 mm. King 309 struck in copper but actually a nice bronze light finish. Relatively high relief. Uncirculated. ($65-90)

4587 Lincoln plaque trial strike King 323 by Robt. Sneider of New York. Probably about 1909, measures on King regular strikes as 55 x 39 mm.—this oversize copper strike is 66 x 55 mm. Uncirculated and obviously quite rare. First seen. ($100-up)



4588 **Magnificent five piece set of King 784 by H. Ryden.** This large 63 mm. set was struck in very limited quantities. All pieces are pristine, perfect as the day they were made in 1909, and all are Brilliant Uncirculated. Specimens are in silver (4 struck — although enclosed auction envelope states 3 made according to Elder), white metal (3 struck); brass gilt (25 struck); brass, with a few carbon spots, included in the 25 struck total; and aluminum (50 struck). An amazing set from an old-time collection, undisturbed for 50 years. Total: 5 pieces. ($300-400)

4590 **American Numismatic Society massive 82 mm. Lincoln death medal, issued in 1866.** The first of the extensive and popular ANS series King 244, this engraved by Emil Siegel of New York. Specimen struck in white metal, 10 mm. thick in high relief. Only **16** copies of this medal were struck in white metal before the dies broke, hence extremely rare. Uncirculated but some minor field scuffs due to contact with other coins. Rare and in demand. ($225-275)

4591 Group of four Lincoln medals. Key assasination medal, King 241 in white metal, Prooflike Brilliant Uncirculated with a few scuff marks, 51 mm.; an unlisted muling of Lincoln political token, King 180 with the reverse of King 262, 31 mm. holed for suspension, white metal, Prooflike Brilliant Uncirculated, King 266 in white metal, Prooflike Brilliant Uncirculated with original black ribbon — illustrated by King so he must have thought an important issue; and Bovy death medal in bronze, King 279, Extremely Fine. Total: 4 pieces.

End of Lincoln Medals.

4592 The famous self portrait medal of Elder, DeLorey 1, 100% mint red Uncirculated, almost Prooflike. Rarer in copper than aluminum, and popular. ($50-75)

4593 **Furst Decatur-Lawrence medal.** This 33 mm. production by Furst of the U. S. Mint, is a rare early issue showing Decatur on one side and Lawrence on the other. A silver specimen appeared in Garrett IV Sale, but only other white metal piece we've handled was holed. White metal, Extremely Fine. ($125-200)

4594 Two Edwin Forrest medals. Large 77 mm. bronze medal by F. B. Smith & Hartman, undoubtedly struck on his death. Extremely Fine. Also the very rare C. C. Agricultural Medals

This additional small grouping of Agricultural and Mechanical Fair medals (see Lot 4217 to 4228) are not listed by Julian — most are not mint products, but several undoubedly are, especially the one by S. Ellis of Utica (Lot 4599). Worthy of a specialists attention .

4595 **Beautifully engraved by A. Demarest, N. Y. for Mechanics Institute of San Francisco.** Struck in bronze, 75 mm. about 1880, Extremely Fine. ($125-200)

4596 Lot of four different white metal Agricultural medals. Agriculture, Manufactures, Sciences and Arts. by Agricultural Mechanical and Horticultural Associate of Mobile, Ala. In center Awarded To — uninscribed. White metal, Brilliant Prooflike Uncirculated 39 mm.; Georgia, "National Exposition Rome,Ga.OCT.1857." Portrait in center of unknown person. Reverse "Reward of Industry to" uninscribed. White metal, Brilliant Prooflike Uncirculated 32 mm.; "Indiana State Board of Agriculture" around farm scene in middle. Reverse a wreath "Awarded To" in white metal, Brilliant Prooflike Uncirculated, 31 mm.; and "Hartford County Agricultural Society" seated figure in center with farm implements. Probably from Maryland. Reverse "Awarded to" space "for the Best Specimen of", uninscribed. White metal, Brilliant Prooflike Uncirculated with minor scuffing, 37 mm. Total: 4 pieces. ($150-250)

4597 **Lot of three different white metal Agricultural medals.** Large 50 mm. piece showing farm scene, farmer in foreground. On ribbon "Agriculture Evolutus". On reverse "Minnesota State Agricultural Society"; wreath and "Awarded to" uninscribed. 4598 **Major group of five different New York State white metal Agricultural medals.** (1) "awarded by the Farmers & Mechanics Club"; around, in wreath "of Hicksville, L.I. 1877", below "Lovett.N.Y." Obverse in wreath sheaf of wheat, plow, sickle, scythe, etc. 44 mm., white metal, Brilliant Prooflike Uncirculated; (2) "American Institute Semi-Centennial Medal" standard scence as on other American Insitute medals, below in exergue "New York 1881". On reverse in wreath, uninscribed, "Awarded To". White metal, Brilliant Prooflike Uncirculated, 39 mm. See photo. (3)"St. Lawrence County Agricultural Society", identical to Garrett IV, Lot 2099, which was in silver, this white metal, Brilliant Prooflike Uncirculated. White metal silvered, Brilliant Prooflike Uncirculated minor scuffs. (5) "Union Agricultural Society of Ridgeway and Shelby N.Y." around. In center "Organized, July 17TH. 1858." On obverse in symbolic cornucopia, "All Things Flourish with Industry". White metal, Brilliant Prooflike Uncirculated. Total: 5 pieces. ($250-350)

4599 **Utica Mechanics Association, 1860 by S. Ellis.** Large 57 mm. medal, engraved by S. Ellis who made many of the Mint medals, but not listed by Julian. The only record we find of this medal is in the 1975 Price List of International Collectors Service, as Lot 100, where priced at $47.50, also awarded in 1860. Mint records also indicate that medals were made by the Mint for Utica, so one must assume that this just was an oversight of Mr. Julian. They state clearly a Mint medal-Julian did not list, but used this price list for other information. Obverse shows a full length figure, leaning on a shortened column pointing at a cornucopia. Reverse is engraved, in **silver** "John C. Oley Best Ladies Boots and Shoes 1860". Uncirculated with hairlines, beautifully toned. ($300-400)

4600 Two Ohio Agricultural medals. First is the three muses on obverse operating a coining press, by G. J. Lovett with reverse "The Ohio State Board of Agriculture" around, with "Awarded To" on ribbon, uninscribed. This 51 mm. white metal, Prooflike Brilliant Uncirculated medal with a few rim dents, solves a mystery from the Garrett IV Sale, Lot 1839. This unreported reverse die shown in Garrett in silver was not identified, here it is obviously the original intent to be with the Ohio Agricultural medal, another mystery solved! The other medal shows a fair scene, with archway marked "N.O.F.A." On reverse around "Northern Ohio Fair Association Awarded to" uninscribed in center. Medal is 40 mm. white metal. Prooflike Brilliant Uncirculated. Total: 2 Pieces. ($125-175)

4601 Three Agricultural medals. "Rhode Island Industrial Exhibition" with panoramic view of agriculture, mechanical and industrial implements in center. Reverse, wreath, uninscribed, 51 mm. in white metal, Prooflike Brilliant Uncirculated with numerous scuffs; "The Reward of Industry" with agricultural symbols on obverse, on reverse around "Calhoun County Grange Fair Awarded To" below "Demarest, N.Y."No state, but believe North or South Carolina. In 45 mm. white metal, Prooflike Brilliant Uncirculated; and unattractive piece "Sullivan County Agricultural and Mechanical Society 1867" all lettering, reverse in wreath "First Premium". In 38 mm. white metal, Prooflike Brilliant Uncirculated from so far unidentified state. Total: 3 pieces. ($100-150)

4602 **South Carolina Institute 1857** Attractive obverse, around "Diversified Industry A Nations Prosperity". In center varied agricultural and mechanical implements including a loom. Signed W. KEEMAN. Reverse in a wreath, "The South Carolina Institute.", engraved "To Chas. H. Johnson for Gas Burning Apparatus 1857". Silver, 48 mm. Uncirculated with nice toning. ($125-225)

4603 **Maryland Institute, uninscribed copper issue Julian AM-31.** This medal, identical in design to Lot 4225, is very thick, struck in copper Proof with virtually full original mint red. It of course has an uninscribed reverse, and is by all odds rarer than silver specimens — they were not made for sale to the general public. Very rare. ($100-up)

4604 American Institute award medal, Julian AM-1. This piece engraved "To G. H. Horn & G. G. Hubbard for a Telegraph 1851". Nicely toned silver, About Uncirculated with a few scuffs in reverse field. ($90-130)

4605 **Franklin Institute Longstreth medal.** This very rare issue of the Institute is not listed in Julian, engraved by C. Winkens and has an uninscribed reverse. Copper, Uncirculated 41 mm. and first we've seen. Obviously rare. ($150-200)

4606 Group of Boston area college and school medals. Harvard square silver medal (little big for a charm) 29x28 mm. for Phi Beta Kappa engraved to H. A. Haven, circa 1850. Toned Uncirculated; Radcliff College a medal from when it was a religious based school, showing picture of school on obverse and Virgin Mary on reverse, bronze 32 mm. Uncirculated; and hexagonal Boston City Medal, engraved to Adeliza Fefsenden very similar to Franklin medals in use, this awarded in 1830. Silver, Extremely Fine. Total: 3 pieces. ($125-150)

4607 Group of college medals. Haverford College 1869 by Isaac F. Wood, Series B No. 1 — we've seen this medal in copper and white metal, but this beautifully toned silver Proof is first in this metal; Lockwood Sewing School, Auburn, N.Y. white metal, Prooflike Brilliant Uncirculated; Davis Medal (with his portrait) for the University of Rochester, 1851. White metal, About Uncirculated; City College of New York, struck by the U. S. Mint, Julian CM-14, engraved by W. H. Key. Records indicate that 237 bronze pieces struck in 1866. Bronze, Extremely Fine; and Cleveland Bench Show Association, showing dog in center, 40 mm. bronze About Uncirculated with obverse spot. Total: 5 pieces. ($150-up)

Columbian Exposition Medals

The following few lots represent a nice grouping of Columbian Exposition medals from the 1892-3 period, with a few other related Columbian pieces. Listings are by Eglit's *Columbiana*, and a number of unlisted medals are shown in the last lots. An increasingly popular series, perhaps because of the approaching 500th Anniversary.

4614 **Magnificent ANS massive silver medal, Eglit 104.** This medal was engraved by Whitehouse, struck by **Tiffany & Co.** for the American Numismatic Society. Illustrated in *American Journal of Numismatics*, Vol. 28 pg 53-4. Well less than 50 made in silver, and excessively rare. Uncirculated and only second seen in silver in past 30 years. ($350-500)

4615 **Encased stamp Columbian medal, Eglit 136B.** The encased medals, as shown in the photograph have a ticket or a stamp in celluloid on the reverse — for some strange reason this had a USED 10c Columbian mounted, and must be original, as from Springfield Museum. Values higher than 2c were unknown to Eglit. Aluminum and Uncirculated. ($125-200)

4616 **Maryland's participation in the Fair. In bronze and white metal, Eglit 138.** The cataloguer, a specialist in Maryland exonumia, has never seen the white metal version of this medal, while the bronze type is very rare. Obviously the white metal was intended to be attached to the hanger described by Cleveland and Storer, but Eglit obviously never saw the medal. Bronze is in Proof, and white metal also a Proof with hole for suspension. Total: 2 pieces. ($125-175)

The balance of the buttons unearthed by the consignor are being offered in the following five lots — most of the Regiments recorded on these buttons are previously unrecorded. The Indian burial site where these buttons were found is in northern California, not in the Northwest Territories as the previous ones that were discovered.

4707 **Civil War Cardboard Currency — the rarest of the rare.** In the sequence of Civil War Emergency issues, first they tried postage stamps (too fragile and they stuck together); then stamps in small printed envelopes — very rare still but impractical, they cost more to issue than face value for circulation; the famous encased postage stamps of J. Gault — a practical success, very much an improvement, but again the merchant had to pay over cost. The other limited use issue was Civil War Cardboard issues—except for a small druggist hoard from New York found in the late sixties, all are excessively rare. The piece shown here of "Columbia County Bank" probably in New York State is yellow, dated 1862 and has an illegible signature under the "10" cent denomination. Very Fine, light yellow and excessively rare. ($100-up)

United States Coins

Welcome to the final portion of our magnificent Springfield Collection Part II unreserved public auction sale. In this section of the catalogue we feature a diverse and interesting selection of over 1200 lots of choice and highly sought after United States coins.

In keeping with the general tenor of the preceding parts of the collection, the U.S. material offered here is heavily composed of what can be called "collector's coins." These are coins that have always enjoyed strong demand from collectors wishing to complete type and date sets.

For instance, featured in this part of the sale is a nice grouping of early American coins, from Colonial issues to silver dollars. A Very Fine 1652 Oak Tree Shilling kicks off the sale, followed by some choice Connecticut coppers and a wonderful mint red Fugio Cent.

Early coppers include a small but nice offering of half cents from 1793 to 1857, and a nice grouping of large cents, including three 1793s. Collectors will also find interesting a very rare 1794 Valentine-1 half dime, as well as a 1795, 1800 and 1803. Early dimes include a 1796, 1802 and 1805, as well as a nice 1832. A very nice run of early half dollars and dollars will attract a lot of spirited bidding on the part of collectors.

Also highlighting the sale is a large group of choice Morgans, a superb run of trade dollars, including an Uncirculated 1875-S/CC, an MS-65 1893/2 Barber Dime, as well as a rare 1858 Mint State $3 gold.

All in all, the U.S. material will prove to have many attractions for the collector, and some unusual gems for the investor. It is a fine finale to one of the most interesting sales we have recently held.

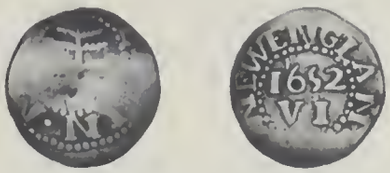
Lots 5001-5649

Colonial and State Coins

5001 **1652 (struck about 1660) Oak tree shilling. Noe-5. Very Fine,** tree details weakened by die failure, obverse borders and all of reverse bold, natural steel gray toning with a light iridescence, microscopic scratches in central obverse. Late die state with the straight die crack vertically at right reverse edge. Shows signs of faint teethmarking where some Salem Puritan attempted to bend this for a "witch token". Straight edge of die shows above THV as always, proving that the dies were not cylindrical as on the willow tree coins. Most common of the oak tree issues, but still rarer than the pine tree shillings as a type, and undervalued in comparison.



5002 **1652 Pine tree sixpence. Noe-33.** VG, but weak across center of obverse and bottom of reverse; steel gray toning. Obverse die off-center, as always. Tree with pellets copied from the large size pine tree shilling Noe-1, with which this is contemporary. Scarce denomination, ten times scarcer than the shillings, nearly twice as rare as the threepence.

5003 1722 Rosa Americana penny. Type of Nelson-9. U's in legends on both sides, rosette after date and after AMERICANA, period after REX. Sharpness of Fine, but the splendid surfaces suggest a much higher grade.

5004 Pair of 1723 Wood's Hibernia coins. (1) Farthing, usual DEI GRATIA type. Fine. (2) Halfpenny. Normal date, period after REX and date, no period before H. Strong Very Fine. (Total: 2 pieces)

5005 Three diverse issues: (1) 1785 Nova Constellatio copper. Good condition; (2) 1788 Massachusetts cent. Ryder 14-J. Very rare, the only variety with the single date line. VG. (3) 1783 Washington draped bust cent, no button. Fine. (Total: 3 pieces)

5006 **1785 Connecticut copper. Mailed bust right type.** Miller 6.3-G.1. Obverse portrait similar to the African head; large Liberty cap. **The lovely glossy chocolate brown surfaces suggest a grade of AU,** and a few details are of near full mint sharpness, but this was imperfectly struck, so that many details, particularly in the centers, are much weaker, and some were not brought up at all. Somewhat granular in centers as made (this granularity was on the original planchets). Comparable to the 1975 EAC sale coin. Lot 20, although this is from a later die state with heavy multiple clash marks at top of reverse. Should be examined.

5007 Group of Connecticuts: (1) 1785 MBR M.4.4-C (R-4). Sharpness of VG-Fine, but a few deep planchet defects; (2) 1786 MBL. M.5.4-N (R-6). Fine, but dark and porous; (3) 1786 MBL. M.5.5-M (R-3). Good; (4) 1787 MBL M.11.1-E. VG; (5) 1787 DBL. M.33.15-r.1. Fine, cleaned; (6) 1787 DBL. M.33.3o-T.2. Fine-VF, granular, but very attractive. (Total: 6 pieces)

5008 **1786 Connecticut. Mailed bust right, small head; ETLIB INDE. Miller 2.1-A (R-3).** Dies aligned medal fashion (180 degrees away from coin alignment), as evidently on all of this variety. **Where struck up at all this is close to Mint State,** but the design simply did not impress in the centers, and the original planchet granularity can be seen. An overall grade of Ex. Fine would be too conservative; far better than 1975 EAC sale, Lot 31, apparently **one of the top two or three known** of this famous type.

Note: Dies by James F. Atlee, and known to have been struck at the Rahway, N.J. mint in the first part of 1786, as a profitable sideline to this operation's legal minting of New Jersey coppers. Four obverse and five reverse dies were used, but this is the only obtainable variety in decent condition; the others being R-6 or R-7.

5009 Three 1787 draped bust left Connecticuts: (1) M.37.1-CC.1, one of the ET LIR varieties. Fine. (2) M.19-g.4. Fine-VF; (3) M.33.37-Z.9. Fine, few light marks. (Total: 3 pieces)

5010 Pair of 1787 draped bust left Connecticuts: (1) M.46-BB. VF, corrosion along part of obverse border; (2) M.32.6-X.6 (R-5). VF, but very dark and porous. (Total: 2 pieces)

5011 **1787 Draped bust left. Miller 33.34-Z.11 (R-5).** Wide legend, but AU, TO, and EC much too close; heavy break through upright of T in ET, and LIB corrected from a previous erroneous LIR. **Almost EF,** medium grayish brown with choice surfaces, and nothing in the way of defects. Just a shade more worn than Lot 241, 1975 EAC sale (at $300) and therefore the second finest known to us. Obtained from us years ago at $199, worth double or more that figure today.

5012 1787 Connecticut. Draped bust left. Miller 33.13-Z.1 (R-5). Fine, small flan clip at 11:00, few minor planchet laminations, and a deeper defect at lower reverse. Rare.

5013 1787 Connecticut. Draped bust left. Miller 32.6-X.6. Fine and perfect for the grade. Difficult variety to find in decent condition.

5014 1788 Connecticuts: (1) MBL. M.9-E (R-4). Fine, defect at center of reverse; (2) MBL M.7-E (R-4). VG, no defects; (3) DBL. M.16.6-H. Fine, defective flan, two small clips. (Total: 3 pieces)

5015 **1787 New Jersey. Maris 43-d. Strong VF,** full strike in centers, date bold (seldom so). Glossy chocolate brown surfaces, minor edge defect at REA, otherwise perfect. Comparable to the 1976 ANA sale piece, called "EF." Common variety but most are worn and from a late die state with an illegible date.

5016 Miscellaneous group: (1) 1787 N.J. Maris 63-s. VG, but porous and with many obverse lamination defects; (2) 1783 Washington large military bust cent. VF; (3) 1783 Washington draped bust cent with button (rare). VG, rough, evidently once in a fire. (4) 1783 Washington UNITY STATES. Fine; (5) 1783 Washington double headed cent. Fine or so. (Total: 5 pieces)

5017 1787 Auctori Plebis token. VF or better reverse; obverse weaker as always, surfaces demand an overall grade of VF. Late reverse break from top of head to globe. Struck in Birmingham as a private speculation, copying the common Connecticut 1787 cents, type of Miller 33-Z. Scarce issue.

5018 (1792) Kentucky token. Usual variety with plain edge. Very Fine.

5019 Three Washington cents: (1) Baker-2. 1783 draped bust. Fine. (2) Baker-4, the 1783 large military bust. Fine. (3) Baker-6, the double-headed cent. VF, cleaned. (Total: 3 pieces)

5020 **1783 Washington small military bust. Baker-4a. Plain edge, original. EF,** dark brown with some original mint gloss in protected areas. As nice as they come.

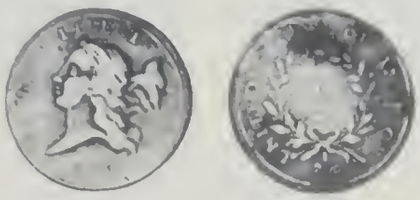
5021 **1783 Washington UNITY STATES cent. Baker-1. EF,** far above average strike with full date and fraction, and free of the heavy planchet striations at borders nearly always seen on this issue. Ex. Parsons sale (Chapman), Lot 561, in original envelope.

5022 1795 Washington grate halfpenny token. Baker-29A, small buttons on coat (scarce). Strong VF but marred by an X scratched across the obverse.

5023 1795 Washington LIBERTY & SECURITY penny. Military bust left, usual ASYLUM edge. VF, but cleaned.

5024 **1787 Fugio cent. Newman 8-X. Mint red Uncirculated,** late heavy diebreak accounting for the local weaknesses. Hardly a gem, but free of the heavy black planchet defects characteristic of these Bank of New York hoard coins. Worth $1000 or more in this condition.

Half Cents



5025 **1793 Cohen-1, Gilbert-4. Fine-12,** dark porous charcoal, lighter on the relief areas, an area of corrosion at top of reverse, otherwise attractive. Rarest variety of the date.

5026 **1794 C-4, G-4, listed as R-4. VF-20,** dark steel, microscopically porous but very attractive, and with no defects of any kind. Light clash marks at throat and the usual weakness at the lower hair curls (compare to the similar Garrett piece, Lot 2, which brought $1400).

5027 1800, 1826, 1828 12 stars, 1849 large date. Fine-12 to VF-20, all attractive coins. (Total: 4 pieces)

5028 **1804 C-6, G-8, spiked chin;** reverse with final A distant from right ribbon. **AU-50,** iridescent tan, reverse really choice with some of the original mint surfaces. Couple of minor obverse scrapes, but a beauty. Near final state of the reverse die (die state between the "intermediate" and "final" states pictured in Cohen). Common in VG or Fine, but very rare in strict EF, and this is near condition census quality!

5029 **1806** C-4, G-3. Large double cut 6. Chapman hoard variety. **Choice AU-55,** much mellowing mint red, friction on high points from poor storage, but really never in circulation. Reverse die rotated 30 degrees to right.

5030 1806 C-1, G-1. Small 6; stemless wreath. AU-50, cleaned, retoning an attractive iridescent tan. Few microscopic scratches on either side.

5031 1806 C-1, G-1. Choice EF-45, gray-steel with considerable red, some of it evidently original color.

5032 **1807** C-1, G-1 (single variety). AU-50, olive, gold and grayish brown colors, beautifully mottled, the inevitable soft strike, but as nice an example of this date as you are likely to find. Unlike the 1806, this date is rare in Unc. The most recent record is $5000 for an MS-60 coin in the Superior Turkus sale. The present specimen is superior to Garrett's which went for a reasonable $290.

5033 1825 C-2, G-1, curl over 25, 12th star double-punched. Choice EF-45, bluish medium brown. Highly attractive example of this low mintage date, the first since 1811.

5034 1825 Same variety. Choice EF-45, identical sharpness to last, but cleaned and now retoning iridescent.

5035 **1828** C-3, G-1. 13 stars. **MS-60, Uncirculated,** attractive chocolate obverse with faint rose overtones, spot at 12th star; lighter brown reverse with some faded mint red and a stain at top border. Plenty of underlying mint lustre on both sides. Collins hoard coin, but in demand by the type collectors.

Note: The 1828 half cents come in three easily recognized varieties: (1) C-1, G-2. Evenly spaced date; reverse of 1826. Struck before 1826 C-2, which uses the same reverse. Scarcest of the three varieties; as few as 6 or 7 Uncs. exist, and only two or three of these have mint brilliance. (2) C-2, G-3. The twelve star variety. Extremely popular as one of the most ridiculous blundered dies of this era, but not as rare as last. However above EF it is quite scarce, and the piece may still be R-7 in Unc. This variety is unobtainable with mint red. (3) C-3, G-1. Date spaced 18 28, 2 low; first S in STATES and O in OF too low. The Collins hoard coin, making this very common even in spotty red Uncirculated. The supply has been pretty well absorbed by type collectors, however.

5036 1833 Choice AU-55, warm golden brown.

5037 1833 Choice AU-55, attractively iridescent, with some underlying mint lustre. Heavily clashed dies.

5038 1834 Choice AU-55, sea-green and violet, clashed reverse die.

5039 1835 and 1851. AU-50 and VF-20, both cleaned, the 1835 harshly so on the obverse. (Total: 2 pieces)

5040 **1851 MS-60, mint red Uncirculated,** full original color with numerous light keg marks. Should still bring about $1000.

5041 **1855 MS-65, Choice Uncirculated,** near full mint red, toning down on the high points, spot at 10th star.

5042 1857 MS-60, tan and sea-green Uncirculated. Popular last year!

Large Cents

(See Color Photo)

5043 **1793 Chain cent.** Sheldon-4, Crosby 4-C. Periods after date and LIBERTY; second reverse with AMERICA spelled out in full. **Fine-12 overall,** obverse weaker than reverse, as always. Dark steel with underlying fine porosity, small area of roughness on upper hair strands and some partially arrested corrosion along reverse border at 10:00. Some roughness in center of reverse was skillfully smoothed down decades ago. Overall much nicer that Lot 1765 of our 1981 ANA sale which sold for an even $3000.

5044 **1793 Wreath cent.** S-8, Crosby 9-G. Horizontal stem above date; high triangular bow to wreath. **Strict Good-4,** medium brown, excellent surfaces. The weakness running diagonally across the reverse can be attributed to die failure. Couple of harmless rim dents and two old reverse scratches, but basically problem-free.

(See Color Photo)

5045 **1793 Liberty cap.** S-13, Crosby 12-L. **Fine-12,** grayish charcoal, lighter brown on relief areas, underlying ancient porosity in fields. The only serious defect is an edge flaw at 10:00 on the reverse. Rather pleasing example of the type.

5046 **1794** S-21, the flat pole; reverse as on three "head of 1793" varieties. **Choice VF-30,** splendid medium brown-steel surfaces suggesting EF, and it would be graded at that level by many specialists. Small edge clip, as illustrated. Entirely free of the usual small planchet defects that mar many of these.

5047 1794 S-65. VF-20/Fine-12. Steel-rust color with traces of old porosity. Few obverse gouges hidden in details of upper hair strands and a few noticeable rim bumps, but essentially a commercial "VF."

5048 **1795 Lettered edge.** S-75. VG-8, smooth light brown surfaces, one or two tiny defects in center of reverse which really shouldn't even be mentioned on a coin of this grade. Many times rarer than the plain edge thin planchet coins, all of which were struck in 1796.

5049 1796 Draped bust. S-97. VG-8 or so, weak around the obverse rim, and some old light obverse scratches.

5050 1797 S-131, stemless wreath. VG-8, weaker at borders at right on both sides, few light scratches running across the obverse. Popular as a type.

5051 **1798 S-170.** Small 8, second head punch with extra lower curl. **VF-20, bold,** steel gray surfaces. Important, as Sheldon lists a pair of VF-35 coins and a VF-25 in the condition census.

5052 1798 S-157, three denticles joined below 9 in date. Small 8, first style head punch. Fine-12, free of defects and corrosion.

5053 **1807/6 S-273. Choice VF-30** or better, charcoal color with the lovely surfaces suggesting EF, but this is from the extremely advanced die state with numerous heavy clash marks and weak areas from the injured dies. Very late rim break over ST.

5054 1807 S-276. VG-8, rotated reverse die. Also 13 late date cents: 1817, 1830, 1835 (2 pcs.), 1838, 1839 (4 pcs.), 1843 (3 pcs.), 1851. Fine-12 to VF-20 for these. (Total: 14 pieces)

5055 1814 Plain 4. VF-20, softly struck, choice surfaces.

5056 1818 Randall hoard variety. **MS-60, red Uncirculated,** usual spots and stains for these, nothing too serious.

5057 **1820** Randall hoard variety. **MS-63, Select Uncirculated,** beautiful lustrous chocolate brown, more attractive than the last in our opinion.

(See Color Photo)

5058 **1838** Newcomb-1 (Tip of 1 in date recut; I in UNITED recut at upright). **MS-65, Choice iridescent gray and olive Uncirculated,** hints of rose and bluish overtones, underlying mint lustre. Really a beauty and should go up toward four figures.

5059 1840, 1851, 1853. All Choice EF-45, first and last cleaned. (Total: 3 pieces)

5060 1850 Closed 5. MS-63, Select Uncirculated, chocolate brown with hints of faded mint color.

5061 1850 Open 5. MS-60, dullish Uncirculated with a spot and a stain on obverse, and some tiny marks on reverse near OF.

5062 1852 MS-63, Select lustrous grayish brown Uncirculated with mint red mellowing to rose in the protected areas. Attractive, and should bring $500.

5063 1852 MS-60, dullish steel Uncirculated with hints of red on obverse.

5064 1852 MS-60, Uncirculated, some red on obverse.

5065 1854 MS-60, Uncirculated, dipped a pinkish-tan, but attractive anyway.

5066 1854 Choice AU-55, cleaned.

5067 1856 MS-60, sea-green Uncirculated, somewhat dull, but attractive in its own way. Underlying lustre subdued, but it is there.

Small Cents

5068 **1857 Flying eagle.** High leaves at C and T. **MS-63, Select Uncirculated,** beautiful sunset toning, and just about a full strike. More desirable than the dipped pieces often met with.

5069 1857 Flying eagle. High leaves. MS-60, Uncirculated, lightly iridescent. Better than usual strike on eagle, but some weakness at STATES.

5070 1857 Flying eagle. AU-50; 1909-S Indian and 1931-S Lincoln. Both of these Choice AU-55. The first two of this trio have been cleaned. (Total: 3 pieces)

5078 1861 and 1864L. Choice EF-45, the 1861 is cleaned. (Total: 2 pieces)

5079 **1862 Choice Brilliant Proof-65,** bronze-golden, few tiny contact marks and flyspecks away from gem quality.

5080 **1862 From our Chesterfield sale,** Lot 3564 and catalogued as "Choice Brilliant Uncirculated, MS-65. Light dusky toning. Extremely sharp. Interesting die break on reverse rim."

5081 1862 MS-60. Uncirculated, mostly brilliant, few contact marks, two or three of these on reverse rim.

5087 1864L VF-20, rather average for the grade.

5088 1865 MS-60, dull brown Uncirculated. Also 1866 EF-40. (Total: 2 pieces)

5089 **1867 Over small 67. MS-65, Choice olive-gold Uncirculated,** struck from clashed and roughened dies. 67 of date from the regular punches, but first placed much too high, and punched too lightly into die, then corrected. Discovered in the late 1950s.

5090 1867 MS-60, pink and gray Uncirculated.

5091 1869 Proof-60. This coin has a choice brilliant reverse, but obverse has been harshly cleaned and stripped of all of its Proof surface.

5105 1884 MS-63, Select Uncirculated, light brown with attractive iridescent overtones. Will probably sell for $100 or less but more attractive to the cataloguer than most fully "brilliant" examples that regularly sell for $500 and up. Who says beautiful coins have to be expensive?

(See Color Photo)

5185 **1884 Choice Brilliant Proof-65.**

5186 **1884 Choice Proof-65,** bluish-steel toning, vestiges of an old reverse fingerprint, but the piece is so lovely overall, we believe a lowering of the grade would do injustice to the coin.

(See Color Photo)

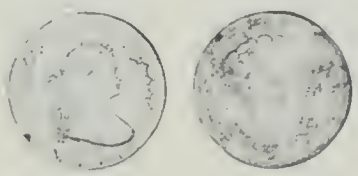
Half Dimes

Very Rare 1794, Valentine-1

(See Color Photo)

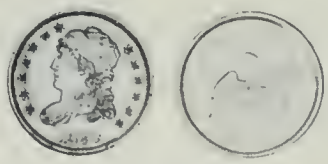
5286 **1794 V-1, Hilt 2-B (R-6).** Wide date; double leaf to top right branch ending under S. **VF-20,** natural light gray. Except for a minuscule chip under top left leaf this is completely defect-free. Short point to end of bust, like the silver dollar, but different from the 1794 half dollars. Double leaf to top right branch found only in 1794. Obverse and reverse dies by Robert Scot: note 7 distinct curls (Gardner's dies have 6) and the lack of a truncation line under the bust. Believed to have been included in the March 30, 1795 delivery of 7756 pieces. A former R-7, reduced to mid range R-6 by Hilt, who estimates about 25 pieces known. We know of two Uncirculateds, including a prooflike presentation piece offered in a Merkin auction about a decade ago, and an AU-55 in the Garrett sale.

5287 **1795** V-5, Hilt 10-E. In LIBERTY, L is low, IB too far apart, crack from rim to nose through Y; no berries under the wings. **VF-20** or so, much of the detail on the eagle's wings obscured from die failure. Iridescent gray toning and decidedly attractive. Light adjustment marks in center of obverse. Obverse die by Scot, reverse by Gardner, according to Hilt (the three Gardner reverses have a more forceful wreath, look at the top right inside leaf. On Gardner's dies it is short and bold; on Scot's it is longer and thinner.



5288 **1800** V-2, the LIBEKTY variety. More or less VF-20, cleaned, chip on rim near first star, and corresponding point on reverse; possibly very skillfully repaired, although this is only conjecture on our part. Heavy patch broken out of die left of date. Much of the reverse is weak from die failure.

5289 **1803** V-2. Obverse of V-1 with large crude 8 made from overlapping zeros (as in 1800) and small 3; reverse of 1805 with leaves touching I and A (not C). **Fine-12,** attractively iridescent, small rim defect at 10:00 obverse, dig at center of reverse shield, few light reverse scratches. Sharp detail in center of obverse, weak at rims, very weak in center of reverse, all typical for the variety. Commonest of the three 1803 varieties, but nonetheless extremely rare above VF level.



5290 1830 V-2. Choice AU-55, brilliantly lustrous, well struck, couple of faint scratches above date, barely deep enough to disturb the lustre, much less the actual surfaces. Obverse die cracked in an arc from 6th star to forecurl and out to rim between 8th and 9th stars; O in OF recut, F defective, AM apart, small berries, upper one stemless. Probably struck in 1832: cracked die obverse of V-5 muled with a reverse first used to make 1831 V-2, then used with 1829 and 1830 obverses and finally with two different 1832 dies.

5291 1831 V-5. AU-50, brilliant prooflike obverse, reverse toning to a duller gold, faintest signs of an old cleaning. Obverse of V-4; reverse with the die scratch running from point of top leaf through wingtip and out in field towards N. Final S in STATES centered above S U.

5292 1832 V-2. AU-50, light iridescent toning near obverse rims, deeper blue-gold tones over reverse. Bottom loop of 8 filled, 12th star recut, 10th and 11th too close; OF punched too far right, then corrected, obvious on F. Crossbars of shield fuse together as a single blob of metal.

5293 1832 V-1. AU-50, much lustre, natural silvery-gray, and quite attractive. 1 and 2 high in date, 12th star recut; faint traces of an underlying *horizontal C in AMERICA*. Early reverse die state with no sign of the usual break at the second T in STATES. Second S in STATES over the space between S and U, closer to U.

5294 **1835** V-7. Small 5 in date; small 5C, the type of 1836. **MS-63, Select Uncirculated,** light warm gray toning, partly prooflike on the reverse and mostly choice. Not fully struck up, but no noticeable weak areas either. Ones no finer trade as MS-65 at coin shows all the time.

5295 1835 Choice VF-30, cleaned. Also 1837 Seated, large date. EF-40, toned. (Total: 2 pieces)

5296 1837 Seated. Choice EF-45, deep greenish-gold toning.

5297 1838 No drapery. EF-40, steel toning. Also 1853 arrows. Choice EF-45, but cleaned. (Total: 2 pieces)

5298 1844 VF-20, toned, scratch in left obverse field; 1854 arrows. AU-50, lightly toned, few reverse rim nicks. (Total: 2 pieces)

5299 **1851-O AU-50,** highly lustrous, partly prooflike, comparatively strong strike with most of the fine details on the head visible. Few scattered contact marks, including a field nick to the right of the knees, but a pleasing specimen of the date. Only about 15 pieces have been offered as "Uncirculated" at public auction in the past decade, many of them really no finer than this one.

5300 **1853 Arrows at date. MS-65,** Choice frosty Uncirculated, full head, nearly full detail in borders (seldom the case), characteristic diagonal die polish lines on reverse. Always popular.

5301 1857 AU-50, dull gray toning.

5302 **1858-O MS-60,** deep russet and peacock blue toned Uncirculated, head details better than half up, sharply clashed dies. Scarcer than generally known in mint state; we've seen few over the years, and handled fewer still.

(See Color Photo)

5303 **1863** Glittering blue and olive iridescently toned **Choice Proof-65,** deeply iridescent and very attractive. V-1, double punched 1 in date, die of all originals, proofs and business strikes alike. A splendid prize because of the colors, and to dip or clean a coin like this would be a crime of the highest order.

5304 1864 Proof-60, harshly cleaned, removing all of the original mirror surfaces, then artificially retoned greenish-gold. Still retains full sharpness and probably improvable. A date in demand.

5305 1867 Select Brilliant Proof-63, toning to iridescent at rims, light underlying hairlines. Scarce date.

5306 **1867 MS-60, prooflike first strike Brilliant Uncirculated,** struck from the proof dies, as above, but after they had clashed at least twice. Weakness at bottom of shield, part of rock, and upper left branch of wreath, outward bulge above head, evidently from either a bent or sunken die. Comparison with the above proof, which is perfectly struck, will prove most instructive. Scarce, only 8,000 regulars, offered in BU less than half as often as a proof, and about unobtainable in circulated condition.

5307 **1868 MS-65, Choice Uncirculated,** beautifully iridescent, toned mostly in golds and pastels, partly prooflike quality to the surfaces. Cluster of faint scratches in right obverse field, not disturbing the colors. Not fully impressed at head, rims, denticles; definitely a business strike. Like the last, seen less than half as often as a proof of this date, although this is from a much higher initial mintage.

5308 1870 Proof-60, deep blue-gold toning.

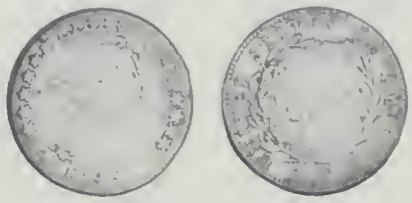
5309 1870 From our Chesterfield sale, Lot 3662 and catalogued as: "Choice Brilliant Uncirculated, MS-65. Prooflike. Some scattered marks in the field, enough so that if taken on their own they would reduce the piece to slightly below MS-65, Unc. status. But, the extraordinary prooflike surface which extends to all portions of the obverse and reverse, more than compensates for it in the cataloguer's opinion, so we feel that MS-65, Unc. is a fair grade."

5310 **1870 MS-63, Select Uncirculated,** slate-gray toning with gold tints in protected areas; partly prooflike.

5311 1872 MS-60, Uncirculated, a little dull, golden-gray toning, softly struck up.

5312 1872-S Choice AU-55, cleaned.

Dimes



5313 **1796** AG-3, details range from VG down to Fair, natural bluish gray patina, and the attractive surfaces suggest a higher grade. Could realize the full Good condition price.

5314 **1802** AG-3, most details strictly Good, but left obverse rim is worn down. Dullish steel toning, like the last, defect-free.

5315 **1805 VF-20,** light gray, mostly bold. Spine from tip of 5 extends into bust; small reverse stars, 4 berries, narrow A's in legend, heavy die rust near D in UNITED. Possibly a left-over die from as early as 1800.

5316 1807 Good-4, blue toning. Late shattered die state causing numerous local weaknesses, most of them near the borders. Central details VG or better in places.

5317 1823/2 Wide overdate; small E's in reverse legend (as in 1809-1822). Choice EF-45, cleaned, prooflike in fields, soft strike in center of obverse as on every other coin of this variety we have ever seen. Scarce, much more so than the close date; large E's variety.

5318 1827 Close date, 8th and 9th stars too close, 9th and 10th distant; CA in AMERICA too close. EF-40, cleaned, weak impression at the rims.

5319 1827 Wide date, 7th star in from border and out of line with the other six; O and F spaced wide in OF. Choice VF-30, blue toning, near EF level. Also 1835 EF-40, but cleaned and artificially retoned. (Total: 2 pieces)

5320 1829 Small round 0 in 10C. Choice EF-45, lightly cleaned, retoning gold and iridescent.

(See Color Photo)

5321 **1832 High 2 in date. MS-63, Select Brilliant Uncirculated,** beautifully lustrous jewel, splendid deep impression. Faint traces of what appears to be cabinet friction on a few of the curls, otherwise a gem. Will bring far up into four figures, and it could be that even $2000 will not capture it. Despite the mintage, the most common bust dime in BU by a small margin; even so, much rarer than the similar half dimes, and still undervalued in comparison.

5322 1833 Choice EF-45, cleaned.

5323 1837 Seated. Large date. Choice VF-30, deep iridescent toning.

5324 1838-O Choice VF-30, but dull on left half of coin.

5325 **1838 Stars.** Ahwash-10, obverse die cracked in half diagonally from 7th star down to base below foot. **MS-60, Uncirculated,** deep steel toning with a few nicks in obverse field. Rare.

5326 1838 Stars. EF-40, light gray toning.

5327 1839 MS-60, Uncirculated, gray and gold.

5328 **1846 A-1. Choice EF-45** with warm gold toning, although this one came to us marked "Choice AU-55, finest known business strike." Seven or eight proofs of this rare date exist, including the one we sold in Garrett, making Proof the most common grade for the date above VF! None in any grade in Wolfson; Miles had a lustrous AU which was presumably a little better than the piece offered here; the Merkin April 1966 dime collection sported only a VF, as did Gilhousen. Ahwash lists this as "High R-7" in Uncirculated, but where are they?

5329 1853 Arrows. MS-60, Uncirculated, cleaned, retoning.

5330 1853 and 1874. Both with arrows. EF-40, light grayish toning. (Total: 2 pieces)

5331 1855 Arrows. MS-60, Uncirculated, dull steel gray toning.

5332 **1856-S A-1. AU-50,** cleaned, retoning golden. First year of issue from the San Francisco Mint and legitimately rare; only 70,000 pieces struck. We are aware of only three auction records for Uncirculated pieces: The Miles Collection specimen; Merkin 3/1968 sale, Lot 258, and Lot 718 of the F.C.C. Boyd "World's Greatest Collection," auctioned by Kosoff. An AU appeared in the 1954 ANA sale, another in the Gilhousen sale, and a third in the Wolfson sale. Very likely the present coin is within the top 8 or 9 of the date.

5333 1857 MS-63, Select Uncirculated, irregular gold tarnish over a light gray base, strictly original. Head about half up.

5334 **1859 MS-65, Choice Uncirculated,** light silvery gray, deepening to a lovely rose and green iridescence around the obverse rim. Almost a full strike, head about 80 percent full or more. Enthusiastically labelled by the consignor as "Fully struck honcho!"

5335 1862 MS-60. Uncirculated, russet and blue toning, deepest at the rims, some moderate obverse rim damage at 9:00. Seen less than half as often as the proof.

5336 1862 MS-60, prooflike Brilliant Uncirculated, dipped, very weak strike at head.

5337 1869 Brilliant Proof-60, pale gold toning, light hairlines, but full proof surfaces.

5338 1871 Proof-60, deep greenish steel toning, light tarnish. Much better looking than it will be if it is dipped.

5339 1873 Arrows. MS-63, Select Brilliant Uncirculated, frosty.

5340 1873 Arrows. Choice AU-55, cleaned, heavy tarnish in a band across the obverse, weak strike at head.

5341 1874 Arrows. MS-60, Brilliant Uncirculated, prooflike, lightly cleaned.

5342 **1875 MS-65, Choice Uncirculated,** gorgeous silver and sky-blue toning, usual weak impression at center of obverse, head is flatly struck.

5343 1875-CC Mintmark inside wreath. MS-60, Uncirculated, struck from extremely worn and rusted dies, dulling the lustre somewhat.

5344 1875-S Mintmark inside wreath, medium S. MS-63, Select Uncirculated, warm gray toning, flat strike at head.

5345 1876-CC MS-63, Select Uncirculated, weakly struck from heavily rusted dies, dulling the mint lustre. Numerous small rim breaks around the obverse, as made. Hardly attractive, but a typical product of the Carson City Mint in this period, and interesting as such.

5346 1876-S MS-65, Choice Brilliant Uncirculated.

5347 1877-CC MS-60, Brilliant Uncirculated, nearly a full head.

5348 1878 Select Brilliant Proof-63.

5349 1879 Choice Brilliant Proof, light iridescence at obverse rim.

5350 **1879 MS-65, Choice Brilliant Uncirculated,** rich gold toning, deepest around the obverse rim and over much of the reverse. Prooflike surfaces, but with shimmering mint frost in fields, and not fully struck up at head and on left half of wreath. Also one or two scattered tiny contact marks. Nevertheless, near gem quality and rarer than the proof.

5351 1881 Choice Brilliant Proof-65.

5352 **1880 MS-63, Select Brilliant Uncirculated,** prooflike, light contact nicks on devices, and not fully struck at head. Second 8 in date recut and slightly defective at bottom loop. Very scarce, this date and the last are normally offered in Proof.

5353 1880 Proof-60, gold and blue tones, some hairlines.

5354 **1884 Select Brilliant Proof-63**, a gem except for a nick on the obverse at A of STATES.

5355 **1890 Struck 20 percent off-center towards 11:00. MS-60, Brilliant Uncirculated.** Very scarce error, particularly in top condition. Could bring a high three figure price.

5356 1892 Barber. Choice AU-55, obviously dipped, but near full lustre.

5357 **1892-S MS-63, Select Uncirculated,** greenish gold toning.

5358 **1893 MS-65, Choice russet-gold toned Uncirculated,** not fully struck at denticles but superb color and lustre. This is the only accepted overdate in the Barber Dime series and is quite rare. This exceptional coin should bring exceptional bids.

5359 **1894 Select Brilliant Proof-63,** few light scattered hairlines in center of the reverse, otherwise a full Proof-65 coin.

5360 1896 AU-50, cleaned, some lustre.

5361 1899 Proof-60, mostly brilliant, light hairlines and minor reverse cloudiness.

5362 1900 Struck 15 percent off-center towards 11:00. VG-8, harshly cleaned, scarce.

5363 1902 Brilliant Proof-60, hairlined.

5364 **1905-O Large O. MS-60, lightly toned Uncirculated,** some microscopic planchet roughness (in the strip from which this blank was punched out) on cap, otherwise choice.

5365 1911 MS-60, Uncirculated, dull and porous, probably once heavily tarnished and then scrubbed.

5366 1912 MS-60, Uncirculated, mottled dullish gray and gold toning, weak obverse strike.

5367 1914 MS-63, Select Brilliant Uncirculated.

5368 1914-S MS-65, Choice Brilliant Uncirculated.

5369 1915 MS-63, Select Brilliant Uncirculated.

5370 1915 From our Chesterfield sale, Lot 3678 and described as: "Choice Brilliant Uncirculated, MS-65. Tiny nick on neck. With vertical die striae due to incomplete finishing of the die surfaces."

5371 1915 MS-63, Select Brilliant Uncirculated.

5372 1916 Barber. MS-63, Select Brilliant Uncirculated.

5373 1916 Mercury. MS-65, Choice Uncirculated, natural silvery-gold toning, full bands. A beauty!

5374 1916 Mercury, 1926, 1929. MS-60 to MS-65, BU, full bands on first, bands nearly full on third. (Total: 3 pieces)

5375 1916 Mercury. MS-60, Uncirculated, cleaned, full bands.

5376 1916-D VG-8

5377 1916-D VG-8.

5378 1916-D Good-4, nearly VG.

5379 1917 MS-65, Choice Brilliant Uncirculated, full bands.

5380 1923-S MS-60, Brilliant Uncirculated, attractive. Full bands.

(See Color Photo)

5420 **1875-S MS-63, Select Uncirculated,** a frosty beauty with old antique gold toning at the rims. Not quite a full strike but better than average, and a lovely type coin that would be sold by most dealers as a full MS-65.

5421 **1875-S MS-63, Select Brilliant Uncirculated.**

5422 1875-S MS-60, Uncirculated, the toning is attractive, but artificial.

5423 1875-S Choice AU-55, near full lustre, originally marked "MS-63."

5424 1875-S EF-40, cleaned, reverse tarnish streak.

5425 1875-S Choice VF-30, some lustre.

Quarters

5426 **1796** B-2, high 6 in date. Good-4 overall, but weak at most of reverse border. Smooth surfaces with a light steel gray tone, free of the usual damage and repairs. Should realize close to $3000.

5427 **1805** B-2, five berries. **VF-20,** toned, sharp strike for the date, clashed reverse die. Much underrated date.

5428 1806 B-3. Fine-12, sharp, but harshly cleaned.

5429 1821 B-3. Fine-12, attractive natural blue-gray color, few light old scratches across obverse, not disturbing color.

5430 1834 No period after 25C. Choice EF-45, some lustre.

5431 1834 With period. EF-40, attractive blue toning at rims.

5432 1834 Period. EF-40 with medium gray toning.

5433 1838 Bust. Choice EF-45, gold and gray toned, attractive despite a couple of marks in obverse field. Scarcer than many collectors believe.

5434 1844 Choice AU-55, nearly full mint lustre, suggestions of a pale gold tone, sharp strike.

5435 1850-O EF-40, natural steel and silvery-green tones, soft impression at rims. Scarce, unappreciated date in decent condition.

5436 1853 Arrows and rays. Choice EF-45, bluish gray patina.

5437 1853 Arrows and rays. Choice VF-30, light toning.

5438 1853-O Arrows and rays. Fine-12, toned. Also 1854 EF-40, cleaned, obverse marks, and an 1860 in VF-20. (Total: 3 pieces)

5446 **1874-S Arrows. MS-63, Select Uncirculated,** frosty, natural color, never dipped or cleaned, light olive-gold tones over full lustre. Attractive piece.

5447 **1877-CC MS-63, Select Brilliant Uncirculated,** struck from lightly rusted and clashed dies.

5448 1877-CC MS-60, deep russet and iridescent toned Uncirculated.

5449 1877-CC MS-60, Brilliant Uncirculated, frosty, good strike, attractive.

5450 1878 Proof-55, light contact marks. Gold toning.

5451 **1878-CC MS-65,** gold and light violet toned choice Uncirculated.

5452 **1886 MS-65, Choice Brilliant Uncirculated,** but there is a staple scratch above the head on obverse, and a few scattered field hairlines. Scarce, just 5,000 regulars made, the lowest total for any regular issue quarter-dollar since 1827!

(See Color Photo)

5453 **1888 Choice Proof-65,** fantastic sunset and silvery blue colors, few faint underlying hairlines on obverse.

(See Color Photo)

5454 **1888 MS-65, Choice frosty Uncirculated,** pale gold toning, not a trace of a prooflike surface. Rare, and one of the last of the 10,000 business strikes.

5456 1892 Barber. Choice AU-55, with deep antique gold toning and a ring of blue-violet around rims.

5458 **1894-S MS-63, Select Brilliant Uncirculated,** scarce.

5459 1896 EF-40 and 1896-O Fine-12, but scratched up on the obverse. (Total: 2 pieces)

5460 **1896-S** Good-4, toned, perfect coin for the grade.

5463 1906-D Choice AU-55, the lustrous reverse is mint state.

5489 1929 MS-63, Uncirculated, deeply toned and tarnished.

5490 1929-D MS-60, Uncirculated, toned, light tarnish spots.

Note: Bidders might be interested in what we mean by distinguishing "toning" from "tarnish." Briefly, toning is easily removable with a standard silver dip solution, tarnish isn't.

5491 1930 MS-65, Choice Brilliant Uncirculated, head three-fourths up.

5492 1930 MS-63, Select Brilliant Uncirculated, head detail about half full.

5493 **1932-S MS-63, Brilliant Uncirculated.**

Half Dollars

(See Color Photo)

5498 **1795 O-108 (R-5). VF-20,** toned in warm grays and golds, traces of lustre. Heavy mint-caused adjustment marks in center of obverse. Obverse die by Scot; reverse by Gardner. Our records show that this variety is extremely rare above VG!

5499 **1795 O-105 (R-4). Fine-12,** medium gun-metal toning, obverse edge dent and three or four reverse rim nicks. Type 1 edge die: two stars after both FIFTY and DOLLAR, this die used on the 1794 halves and the first of the 1795s.

5500 **1803 Large 3; small reverse stars. O-101. EF-40,** various shades of light gray, interestingly streaked like the grain of wood, few nicks on both rims.

5501 **1806** Pointed 6; stem through claw. **O-121 (R-6).** Surfaces demand a grade not lower than VF-20, some lustre around the rims, considerable prooflike surface over most of the reverse, old gold tarnish at borders. Details weak in center of the obverse, bold enough elsewhere. Rare, few records in any grade.

5502 1807 Bust right. O-102. Fine-12, toned, but bent and with several reverse rim bruises.

5503 **1807 Bust left by Reich. O-114, large stars; no recutting on 50C. AU-50,** toned a deep reddish-gold with blue at the rims, some underlying lustre. This must be one of the most underrated of all U.S. silver coins. The bust left style is at least two or three times as rare as the bust right heraldic style, despite the contradictory mintage figures usually quoted, which are nearly certainly incorrect. In addition, over 80 percent of the bust left halves seen are a single die variety, O-112 (large stars; 50/20 on reverse). The other varieties never turn up, except in well-worn condition.

5504 1810 O-110. VF-20, cleaned. Reverse die rotated 20 degrees to right. Rare with the rotated die.

5505 1810 Fine-12 with blue toning; 1836 lettered edge. VF-20, toned, few reverse rim marks. (Total: 2 pieces)

5506 1811 Large 8, like in 1812-1815. O-104. Choice EF-45, dark gray tones with hints of subdued gold, well struck and attractive.

5507 **1812 O-104. MS-60, Uncirculated,** mostly brilliant but with light to medium gold tones at the rims. Few contact marks here and there but not rubbed up all over the bust like most of this type that make the rounds as "BU." Reverse die rotated 75 degrees to right, very rare.

5508 1812 O-109, late die state. Choice VF-30, toned.

5509 **1813 O-101. 50C/UNI. AU-50,** highly lustrous, mostly brilliant but with the beginnings of a pale gold tone, struck after the dies clashed. Few overlaps from the edge lettering machine, as on all of this variety we have seen. Really rare this nice, usually seen F-VF, should bring a strong price, perhaps close to the four figure level.

5510 1813 O-101, 50C/UNI. Another. Choice VF-30, grayish gold toning, attractive. Pieces in this condition have been bringing $400 and up at our auctions.

5511 1813 O-109. AU-50, very weak at rims (as struck), obverse with iridescent toning around border, brilliant in center, reverse evenly and iridescently toned. Late obverse clash marks of the kind usually seen on O-110. What appears to be rim damage on the reverse is not; evidently the reverse die was damaged around the edges, perhaps by being dropped on a hard surface. This banged up die was then used to strike this piece. Probably struck in 1814, along with O-110, under emergency conditions.

5512 1814/3 O-101. VG-8, iridescent deep gray, choice surfaces suggest a higher grade. Not perfectly centered on obverse, usual clashed and broken dies.

5513 **1822/1 O-101. Choice EF-45,** light gray with gold-blue overtones at rims. Traces of lustre. Two reverse rim dents, but overall a nice specimen of this scarce overdate.

5514 **1822 O-113. Choice AU-55,** brilliant, fully lustrous beauty, good strike, a few faint rubs from Unc.

5515 **1827 O-146, famous curled base 2 in date. Choice EF-45,** bold, deeply iridescent with pink-gray and sea-green tones predominating. The only obverse die with this style 2, against nearly 40 different obverses with the square base 2. These have been selling at $400-$600 at auction lately.

5516 1827 O-146, another curled base 2. Just EF-40, softly struck, faint carbon streak at top of right wing.

5517 1827 Square 2. Choice EF-45, deeply toned; also 1831 EF-40 but cleaned. (Total: 2 pieces)

5518 1827 Square 2. EF-40, cleaned.

5519 **1828 O-107, curled base, knobbed 2.** Another famous variety. **EF-40,** olive-gray toning on obverse, and the most gorgeous pink, blue and gold iridescence imaginable on the reverse. A premium piece, worth more than the EF we had in the Chesterfield sale at $250.

5520 Pair of 1829 half dollars, unattributed to Overton, but two easily recognizable types: (1) Close date, large C in 50C. Fine-12, toned. (2) Wide date, smaller C in 50C. Choice VF-30. (Total: 2 pieces)

5521 **1832 O-113a,** struck from extremely worn dies badly in need of polish. Nearly impossible to grade, we have called this one **Choice AU-55,** but it retains all of the lustre it ever had; the piece was originally marked as "MS-63." Very weak at rims, no denticles, stars and letters drawn to edge, pronounced flow lines from radial expansion under heavy friction, bulging arc in front of face, usual weakness at part of scroll. A most interesting coin; an entire book on minting techniques in the early 19th century could be written simply using this one coin as an example!

5522 1832 O-110. AU-50, brilliant, highly lustrous beauty. Edge of 1832-1836, vertical bars between words, inscription blundered due to slippage in a worn Castaing machine.

5523 1832 O-106. AU-50, greenish gray tones, traces of lustre at rims, nick above left wing. Same edge type, similarly blundered. Scarcer than last.

5524 1832 O-103. AU-50, brilliant, near full lustre, lightest gold toning starting to develop. Easily a commercial "BU." Same edge type, similar blunder.

5525 **1833 O-107. Choice AU-55,** nearly full lustre, touch of light gold toning, very similar in appearance to last, except that it is weakly struck on left wing and part of scroll above. Obtained as "MS-63," and it does have the look. Listed as R-3 but seldom seen above VF; the Overton plate coin is more or less EF, and the piece in our Getty sale (Lot 1034) was called "Borderline Unc." and noted as the finest seen by that specialist consignor.

5526 1833 O-109. AU-50 or so, gold toning, much lustre. One of the few 1833 varieties that can be recognized "at arm's length": Final S in STATES far to right of S in motto, the only such reverse. Listed as R-3, but another variety seldom seen in high grade; the Getty piece was only EF.

5527 1833 O-106. Late die state, very weak around the rims, denticles gone. AU-50, brilliant, near full lustre. None in our Getty sale, but we know of several AU-Uncs.

5528 1834 Large date and letters, type of 1833. O-102, recut 3 in date. AU-50, steel-gold tones, nearly full underlying mint lustre.

5529 **1835 O-102.** From our Chesterfield sale, Lot 3319 and catalogued as: "Choice Brilliant Uncirculated, MS-65. A beautifully struck fully frosty and lustrous specimen. Some contact marks on the very highest points (otherwise the coin would be in an even higher grade), but they are minimal and overall the piece is far, far finer than the usually seen Uncirculated example. A really gorgeous coin!"

5530 **1835 O-109. Choice AU-55,** full mint lustre, a gorgeous brilliant piece that nearly anyone would call "BU." Nearly equal to the above piece, and should bring $500 or more. A good type set coin.

5531 1835 Fine-12, light gray toning.

(See Color Photo)

5532 **1836 Lettered edge. O-117. MS-63, Select Uncirculated,** a frosty brilliant beauty with a hint of light gold toning, softly struck on eagle's neck and left wing, but otherwise choice. Will be bid up to $1500 in this condition. Ex Getty, Lot 1082 at $550 in May, 1977.

5533 **1836 O-116. 50/00 reverse.** Choice VF-30, cleaned, retoning, couple of small reverse rim dents. Popular, scarce variety.

5534 **1836 Reeded edge.** Dies by Gobrecht, after Kneass and Reich. **Choice EF-45,** gold toning, some lustre. Always extra popular because of the ultra-low reported mintage of 1200 pieces.

5535 1837 Medium diameter, same as the above 1836, but different edge collar with coarser reeding. Choice AU-55, iridescently toned, much lustre, few abrasions on neck.

5536 1837 Similar. AU-50, cleaned, weak around reverse rim.

5537 1837 Similar. EF-40 with deep iridescent toning, once cleaned.

5538 1837 Similar. EF-40, light toning, few small marks.

5539 1838 EF-40 or so, harshly cleaned, faint scratches in left obverse field. Heavily broken obverse and reverse dies.

5540 **1839 Bust. MS-60, Brilliant Uncirculated,** light scattered bagmarks, none too serious, touch of light gold toning, weak at parts of reverse legend.

5541 1839-O Bust. VF-20, light toning. Usual recut O mintmark (as on 99 percent of this date), cracked through date and much of reverse legend; latest die state.

5542 1839 Seated. Although this was obtained as "No drapery," it is in fact the "with drapery" type, but the drapery folds under the elbow are very weakly impressed and only partly visible. We've seen several others like this, and they always seem to trade as the more expensive "no drapery" type. Beware! This particular piece grades as follows: EF-40, bold, harshly cleaned. Shattered reverse die.

5543 1853 Arrows and rays. EF-40, nice light toning.

5544 1853 Arrows and rays. EF-40, bolder than last, dullish gray toning, traces of lustre.

5545 1854 VG-8, nearly Fine. Also 1872 and 1915-D. Both of these VF-20. (Total: 3 pieces)

5546 **1855 Arrows. MS-60, Brilliant Uncirculated,** usual light scattered bagmarks in fields, none serious. Average strike for the date with minor local weaknesses.

5547 **1856 MS-63, Select Brilliant Uncirculated,** full strike. Lovely type coin with claims to MS-65.

5548 **1859 MS-65, Choice Brilliant Uncirculated,** excellent lustre and strike. Nearly free of contact marks.

5549 **1861-O MS-63, Select Uncirculated,** rich gold and blue tones, usual soft strike. Popular Civil War era coin.

5550 1870 Brilliant Proof-55, polished.

5551 1871-S Choice EF-45, lightly cleaned. Small, very high S mintmark, upper half of which is illegible, as struck.

5552 1872 MS-63, Select Brilliant Uncirculated.

5553 **1873 Arrows. Doubled obverse die, quadruple stripes in shield.** Choice EF-45, warm gray-gold toning, some lustre. This was first widely publicized by Boosel; it remained extremely rare until the late 1960s, still scarce today.

5554 **1874 Arrows.** Long arrowheads. **MS-60, Brilliant Uncirculated, frosty.**

5555 1877-S No drapery; type 2 reverse hub. Choice AU-55, brilliant, full mint lustre.

5556 **1879 Choice Proof-65,** lovely iridescent toning, light hairlines. Ex Helwig, Lot 2149.

5557 **1879 Select Proof-63,** brilliant with some gold iridescence developing at the rims.

5558 **1879 MS-65, Choice Uncirculated,** frosty, shimmering lustre in fields, lightly iridescent about the rims. Very rare, only 4800 struck.

5559 1884 Brilliant Proof-60, claims to a higher rating as the hairlines are very faint.

5560 1888 Brilliant Proof-60, faintest hairlines, full mirror surfaces, like the last.

5561 **1889 MS-65, Choice Brilliant Uncirculated,** frosty. Scarce, just 12,000 struck.

5562 1891 Select Proof-63, gold toning over light hairlines.

5563 1892 Proof-60, a little cloudy, lightly iridescent and attractive.

5564 1892-O AU-50 with some lustre.

5565 1896 Choice AU-55, gold peripheral toning.

5566 1899 MS-63, Select Brilliant Uncirculated.

5567 1900-O AU-50, lovely light iridescent gray.

5568 **1910 Choice Brilliant Proof-65.**

5569 1911 MS-60, light gray toned Uncirculated.

5570 1915-S MS-60, Brilliant Uncirculated, light gold toning, not fully struck in places.

5571 **1916 Walking Liberty type. MS-65, Choice Brilliant Uncirculated, nice strike.**

5572 1916-D MS-60, Brilliant Uncirculated, weak strike in the centers.

5573 1916-D Choice AU-55, lustrous, light scratches above head and two reverse rim nicks at 3:00. Good strike.

5574 1917 Type 1, matte surfaces as in 1916. MS-63, Select Brilliant Uncirculated, full hand, near full head.

5575 1918-S Choice AU-55, much lustre, weak strike in centers.

5576 **1920 MS-65, Choice Brilliant Uncirculated,** average strike for the date; head and hand details largely absent.

(See Color Photo)

5577 **1921 MS-65, Choice Brilliant Uncirculated,** a touch of light toning. Full hand, near full head, few scattered light bagmarks on high parts of obverse device, but a highly attractive example of this rare date, suitable for a fine date set. Valued at $5000.

5578 **1929-D MS-63, Select Brilliant Uncirculated,** reverse is fully choice; obverse nearly so except for some light scattered bagmarks here and there, head about half up, which is better than average for these.

5579 **1929-D MS-63, Select Brilliant Uncirculated,** toned on obverse only. Similar to last, but the mottled obverse toning manages to hide most of the bagmarks; choice reverse. Similar strike to last.

5580 **1933-S MS-63, Select gold and olive toned Uncirculated,** full strike, head and hand details as full as you will ever find in this series; overall really close to MS-65.

Silver Dollars

5688 **1795 Flowing hair. B-5. VF-20,** cleaned, few rim nicks on either side.

5689 1795 Flowing hair. Another B-5. Good-4, retoning after an old cleaning.

5690 1795 Flowing hair. B-7, three leaves under wings. VG-8, cleaned, retoning a pale gold at rims.

(See Color Photo)

5691 **1795 Draped bust.** B-14, bust too far left. **EF-40,** violet gray toning, sharp detail, defect-free.

(See Color Photo)

5692 **1795 Draped bust. B-15. Choice EF-45,** light iridescent gray.

5693 1795 Draped bust. B-15. AG-3, rough, once in fire.

5694 **1797** Stars arranged 10 left, 6 right; large letter reverse. **B-3. Fine-12,** light gray, faint adjustment marks and a few very faint scratches on obverse device, usual weak reverse from a worn-out die. Rare, probably still R-6.

5695 **1798 B-23, Heraldic eagle. EF-40,** warm gray toning, well struck, traces of lustre.

5696 1798 B-27. Choice VF-30, once cleaned, retoning, traces of lustre at the rims, detail near EF level, especially on the obverse.

5697 **1799/8 15 stars on reverse. B-3. Choice VF-30 or better,** toned an even violet-gray, excellent smooth surfaces. Some indications that this was carefully cleaned many years ago, but it is hardly noticeable today, and the lovely tones are obviously original. Popular blundered die: two extra stars punched into reverse die, then the two end clouds made extra large to try to hide them.

5698 **1799/8 13 stars on reverse. B-1, rarer than the last. Choice EF-45,** deep olive and medium gray tones, attractively mottled. Rim defect below 1 in date, probably as made, otherwise choice.

5699 1799 B-17a. Sharpness of more or less AU-50 but this piece has been harshly cleaned and recolored. Probably worth a VF price.

5700 **1799 B-4a. Irregular date; 15 stars on reverse, die of B-3. EF-40,** soft strike with many details barely VF, but the choice surfaces pull up the overall grade to EF. Lovely lavender-gray tones with some attractive iridescence and some underlying mint lustre. Heavily cracked obverse die; third use of this die, previously used on B-13 and B-15.

5701 1799 B-8. Choice Fine-12 or better, warm gray toning, traces of lustre near the rims, weakly struck in centers but the surfaces suggest VF, and the piece is completely free of defects. Someone will be pleased with this.

5702 **1799 B-9,** usual die breaks. **EF-40,** dipped brilliant, much original lustre survives. Commonest 1799 variety; a type set coin.

5703 **1799 B-10. EF-40,** deep iridescent toning, attractive.

5704 1799 B-21. VF-20, lightly toned, sharper on obverse than reverse.

5705 1799 B-21. Fine-12, light irregular toning, rim nick above E in STATES, otherwise a nice piece for the grade.

5706 **1800** B-14, the dotted date variety. **EF-40,** light silvery-gray with much underlying lustre. Really attractive and could easily be called Choice EF-45.

(See Color Photo)

5707 **1801 B-1. Choice EF-45,** the surfaces are full of original mint lustre and overlaid by attractive medium gold and greenish blue toning. Scarcest date of type; only three obverse dies actually used in 1801, although five more 1801 dated dies were produced, and not needed. Instead they were altered at the mint to read 1802/1 and used the following year.

5708 1801 B-3. VF-20, cleaned, some lustre near rims.

5709 1845 VF-20, cleaned, deeply retoning.

5710 1846 Choice VF-30, brilliant, lustre near rims, really a borderline EF.

5711 1848 EF-40 but harshly cleaned and recolored. Rare date.

5712 **1850 Choice EF-45,** toned, much underlying prooflike surface, few tiny rim nicks but attractive and really scarce; only 7500 struck, the lowest total for any regular issue silver dollar since 1797!

5713 1856 Choice EF-45, rich gold and violet toning, signs of an early cleaning.

(See Color Photo)

5714 **1859-S MS-60, Uncirculated,** warm gray tones, underlying lustre, weak strike with some faint slide marks across breasts and knees. Rare, just 20,000 struck, and the first San Francisco silver dollar; seldom seen above VF. The prooflike AU-55 in the Garrett sale brought a respectable $4750. This coin is from our 1978 ANA auction sale, Lot 1151.

5715 1860-O VF-20, cleaned.

5716 **1863 Select Proof-63,** mottled toning in various grays and golds, underlying hairlines, but mirror surfaces intact. 460 proofs struck this year.

5717 1871 VG-8, cleaned.

5718 **1872-S EF-40,** traces of lustre. Only 9000 struck; one of only three San Francisco seated dollars; the others are 1859-S, offered above, and the extremely rare 1870-S.

Trade Dollars

6025 1873 Proof-60, various mottled gold tones, hairlined and partly cloudy. 865 pieces struck, 600 for the sets, 265 for sale as singles.

6026 **1875 Proof-60,** steel-blue and orange tones, attractively mottled. Type I reverse (berry under claw, wing free of second arrowshaft), as used 1873-76. **Extremely rare with this reverse;** only 6 traced by Breen out of possibly a dozen or so known in all. Number coined of this type unknown, but believed to have been included in the 300 proofs delivered in January of the year.

(See Color Photo)

6027 **1875-S/CC Overmintmark.** Type I reverse, as always. **MS-60, Brilliant Uncirculated,** not well brought up at head or breasts, peculiar faint die striations slanting up to right, free of the usual heavy contact marks, and could be graded MS-65 on that basis. Our conservative grade is based on a slight lack of proper depth to the mint lustre, but since this is the result of the way the piece was produced, other specialists may disagree and grade the coin higher. Usual die state: chip on right upper arm; die breaks through legend at right. Discovered about 1963, this caused a sensation at the time, and was still regarded as R-7 when Taxay's book was published in 1970. Many more have been found since, but many, if not most of these new pieces, are heavily chopmarked. Evidently this variety was struck late in the year, and the entire coinage was shipped directly to the Orient. Ex NERCA's "Rare Coin Fund I" Auction sale, Lot 717, where this was graded higher.

6028 **1875-S** Type I reverse, medium S mintmark. MS-63, Select Brilliant Uncirculated, good strike, head details nearly full, hints of a light tone developing, contact marks are small and well-scattered. Reverse die shattered at the borders. Same source as last, graded "MS-65."

6029 **1875-S Type I.** Medium S mintmark. **MS-63, Select Brilliant Uncirculated,** obverse a full MS-65, reverse nearly so with only a few moderate bagmarks here and there. Struck similarly to last, except there is an additional weakness around parts of the reverse border. Shattered reverse die, but a different die than the last, though the breakage pattern is very similar.

6030 **1875-S** Similar. **MS-60, Uncirculated,** pale gold toning, weak strike, usual faint storage rubs in fields, mostly on obverse, but nearly free of bagmarks. This one would look better if dipped.

6031 1876 Type II reverse hub. Choice AU-55, mostly brilliant, frosty lustrous, prooflike reverse.

6032 **1876-S Type I reverse,** large S mintmark similar to the 1875-S "medium S." **Choice AU-55,** nearly full lustre, warm gray toning.

6033 1876-S Type I reverse, large S mintmark. Choice EF-45.

6034 1876-S Type II reverse, small S mintmark. EF-40, gray toning.

6035 **1877-CC** Type II reverse, as on apparently all. **Choice AU-55,** gold toned, much lustre. Last 7 of date minutely repunched. Very scarce in strict Uncirculated, this piece should attract some interest.

6036 **1877-S MS-63, Select Brilliant Uncirculated,** reverse fully MS-65 and obverse very close, the only thing that disturbs us is some microscopic hairlines only visible when the coin is tilted sharply in the light, but this is equal to many a dealer's "MS-67 wonder coin." S mintmark leans sharply left, presumably a scarce variety.

6037 **1877-S Choice AU-55,** near full lustre with only faint signs of friction.

6038 1877-S Mintmark crudely misshapened (damaged punch?) and recut. **Choice AU-55,** cleaned, darkly toned at rims. Evidently a rare variety.

6039 1877-S Pair. AU-50 but poorly cleaned, and EF-40, cleaned, abrasion in left obverse field partly buffed out, reverse edge dent. (Total: 2 pieces)

6040 1877-S Crude S mintmark, recut at lower serif, different than Lot 6038 above, as it is very thick in the center. AU-50, cleaned, retoning a neutral gold.

6041 1877-S EF-40, deeply toned.

(See Color Photo)

6042 **1878 Select Proof-63,** brown-gray with attractive iridescent overtones. First of the Proof only Trades; 900 struck but rarer than that figure suggests, possibly some melted the following year.

6043 **1878-CC** Reverse of 1877-CC with CC mintmark spaced about symmetrically below S in GRAINS. **Choice AU-55** with gold-gray toning and underlying lustre. Full sharpness on devices, but too many contact marks in fields to justify a mint state rating. Scarce, only 97,000 pieces struck (all in the first two months of the year); many of these allegedly melted after demonetization. The Garrett piece (Lot 730), called only AU-50, but undergraded, brought an eye-popping $5500!

6044 **1878-S MS-63, Select Brilliant Uncirculated,** this would be a frosty gem, but it is here downgraded because of a staple scratch below the outstretched arm. A moment of carelessness by someone erased about half this coin's value.

(See Color Photo)

6045 **1880 Select Proof-63,** deep gray surfaces with vivid rose and blue overtones. The deep toning covers up the hairlines, making the piece appear to be Proof-65 at first glance.

6046 1880 Proof-60, cleaned, retoning sea-green and iridescent.

(See Color Photo)

6047 **1882 Select Brilliant Proof-63,** some minor cloudiness but free of the usual hairlines, and it is a good bet that this one could be improved.

Changeover Pairs

A rare and Unique Offering of Changeover Pairs. In our recent *Rare Coin Review*, No. 40, September, 1981, James M. DiGeorgia discussed this subject in detail, and offered a group of the original 120 known pairs. To quote DiGeorgia:

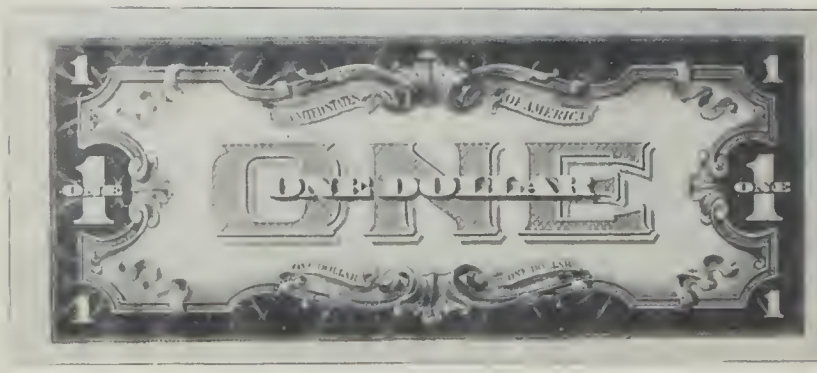
"These Changeover pairs, which consist of two differing series notes that are consecutively numbered, represent one of the great rarities of U.S. Currency! They are also commonly known as Holdover and Crossover pairs. In recent years less than twenty pairs of these extremely rare, 1928/1928A and 1928A/1928 notes have been known to exist and have been available to collectors.

"These rare notes owe their existence primarily to the high cost of engraving plates, which cost the Bureau of Engraving and Printing in the late 1920s and early 1930s approximately $17,000 each. When a government official whose name appeared on existing plates left, the same printing plates were used long after his departure (ed. note — as in the case of the more recent Barr notes), in hopes of getting maximum utility out of them. Therefore, since the emphasis was on economy and not on protocol, it was not unusual at times for the Bureau of Engraving and Printing to have printed several different series simultaneously. During these periods of time the occurrence of CHANGEOVER PAIRS was made possible.

"The physical creation of these notes occurred following the second stage of printing when sheets of notes from all presses were stacked in preparation for the third stage of printing, where notes are serial numbered. Occasionally one stack of one series would be placed atop a stack of another series. When these sheets were fed from these stacks into the third stage printing press, these incredible currency rarities were created.

"We estimate that there are less than 120 of these 1928/1928A and 1928A/1928 Changeover Pairs either on the numismatic market or within collector portfolios . . . "

Although we stated that no further pairs were readily available, the following five lots (five pairs) were bought from our original supplier's investment customer and he has consigned them for sale. It should be pointed out that **all five pairs are 1928/1928A,** none of the 1928A/1928 were purchased (or maybe not available) by the investor.



6253 1928/1928A $1 Silver Certificates. Serials H98173428A and H98173429A. Crisp New or better. (Total: 2 pieces)

6254 Another of the 1928/1928A Changeover pairs. Serials H98173740A and H98173741A respectively. Crisp New. (Total: 2 pieces)

6255 Another of the 1928/1928A Changeover pairs. Serials H98174490A and H98174491A respectively. Crisp New. (Total: 2 pieces)

6256 Still another of the 1928/1928A Changeover pairs. Serials H98174526A and H98174527A respectively. Crisp New. (Total: 2 pieces)

6257 The final pair in the group of 1928/1928A Changeover pairs. Serials H98173596A and H98173597A respectively. Crisp New. (Total: 2 pieces)

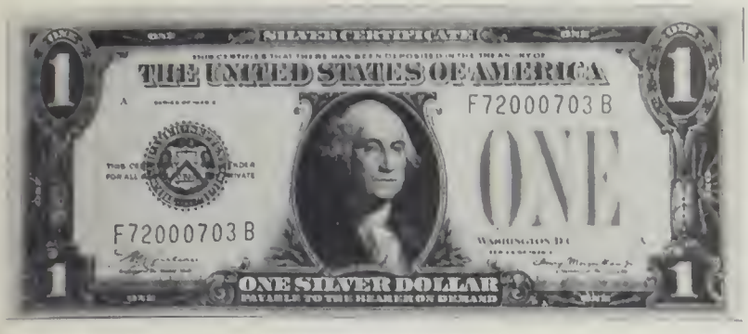
6258 **A lovely collection of small size $1 notes in Tom's Currency Album.** The collection is complete starting with the red seal Coin Note of 1928 through 1957A *excepting only* notes of 1928C and 1928E. All notes are at least Crisp New with the exception of 1928D which is Very Fine. It includes lovely copies of the experiment "R" and "S" notes, Hawaii and African Invasion notes, 6 different notes showing all the reverse types plus two extremely rare mismatched serial notes of 1957 and 1957A.

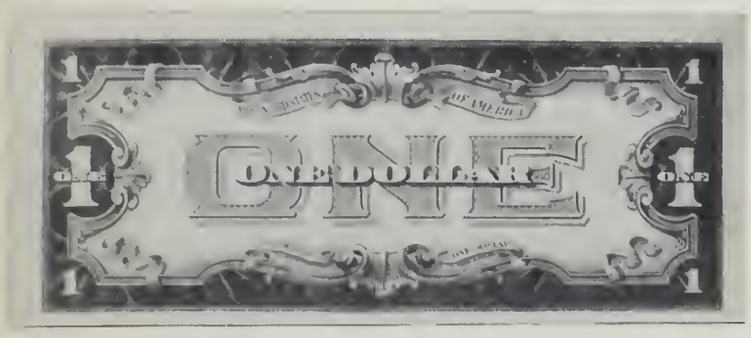
The mismatched 1957 notes occurs in the second digit, only 10,000 were printed and the 1957A is more spectacular where the mismatch occurs in the first digit. The condition, with the one exception as mentioned, run Crisp New and most are Gem Crisp New. Our estimated retail value of this collection is from $1300 to $1770. (Total: 31 pieces)

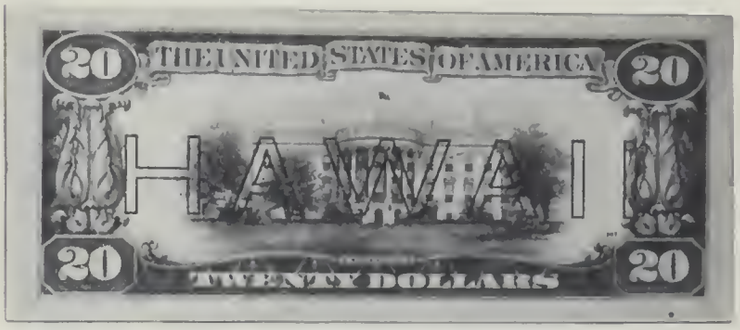
6259 1928B Legal Tender $2 Crisp New, only obverse centering keeps it from Gem Crisp New. Lovely.

6260 1928C Silver Certificate $1, About Uncirculated due to counting crease.

6261 1928D Silver Certificate $1. Crisp New.







6262 **The rare Silver Certificate, 1928E $1 serial F72000703B in Crisp New.** Almost unknown in Gem Crisp New, and this has been the most popular note of the series in recent months. Just lovely.

6263 1934 Silver Certificate $1. Seven consecutively numbered issues in Crisp New. (Total: 7 pieces)

6264 1935A Silver Certificate $1, the Experimental Series, marked with **Red S**. F-1610, in demand and rare.

6265 Almost identical to preceding lot (but a different serial number!) Also F-1610 with Red "S" in Crisp New, bordering on Gem Crisp New as centering is near perfect.

6266 Large lot of Silver Certificates numbering 17 pieces, only one duplicate. Includes 1928; 1928A; 1934; 1935; 1935A; 1935B; 1935C; 2 copies 1935D; 1935E; 1935F; 1935G; 1935GA; 1935H; 1957; 1957A; and last but not least a choice African Invasion note of 1935A. All Crisp New, many better. (Total 17 pieces)

6267 Group of $5 and $10 Silver Certificates, 11 notes in all. The $5 include 1934; 1934A; 1934B; 1934C; 1934D; 1953; 1953A * note; 1953B; and $10 include 1934C; 1934D; 1953B. All at least Crisp New. (Total: 11 notes)

6268 1935A African Invasion note, $1 Crisp New.

6269 1935A African Invasion note, $1 Crisp New.

6270 1935A African Invasion note, $1 only New as some offset on back.

6271 1935A African Invasion note, $1 Crisp New.

6272 Pair African Invasion notes, $5 1934A in Crisp New and $10 1934A in Extremely Fine due to minor crease. (Total: 2 pieces)

6273 Pair of African Invasion 1934A $10. One specimen is Crisp New but top cut was made slightly ragged, and second specimen called About Uncirculated due to minor tear in margin — not into the design. (Total: 2 pieces)

6274 Pair of $5 Hawaiian overprints, consecutive numbers. Both 1934A, both Crisp New, but one has minor age toning on edge of reverse. A lovely pair and it would be a shame to break them up. (Total: 2 pieces)

6275 **The rare $20 Hawaii overprint of 1934, clearly in Crisp New but couple** *of minor* tropical stains removes it from the Gem Crisp New category. Rare.

6276 **A choice collection of specialized Federal Reserve notes mounted in a Tom's Currency Album.** First is a set of 12 of the 1963 with almost matching last two digits, 81, 82 or 83. Next is a complete set of the 12 districts, all * (star) notes of 1963 series. Next there are two sets of 1963A from all 12 districts, one of regular 3 digit matching numbers, and one star note (not matched). Finally there are some matching number notes, akin to Changeover pairs. First, 1963A C00006615A, with a series 1963 A00006615*; next pair C00006665A of 1963A with F00006665* of 1963 and third J00006665* also of 1963. Next is 1963A with E00002012A, another 1963A 00006651A mated with an E00006651* followed with a 1963 F00006651*, and J00006651* also of 1963. Finally three number combinations, all 1963A's; H11117775A, C22222220A and finally J63222230A. All notes are Gem Crisp New. Unusual collection. (Total: 61 pieces)

6277 1969 $1 Federal Reserve notes, set of each of 12 different districts with **last 3 digits matching.** Gem Crisp New. (Total: 12 pieces)

6278 1969 $1 Federal Reserve notes, set of each of 12 different districts, all are star notes. Gem Crisp New. (Total: 12 pieces)

6279 1976 $2 Federal Reserve notes, set of each of 12 different districts, all with matching last two digits (69). Gem Crisp New. (Total: 12 pieces)

6280 Group of three Federal Reserve notes. 1934C $5; 1934D $10; and 1934D $20 with counting thumbprint. All Crisp New. (Total: 3 pieces)

6281 Four matching pairs of 1969 Federal Reserve $1 notes as follow: C00006331A with H00006331*; C00006332A with H00006332*; C00006345A with H00006345*; and finally C00006346A with H00006346*. An amazing group of 4 pairs in Gem Crisp New. (Total: 8 pieces)

6282 Two sets of matching pairs from **the same Federal Reserve Bank, Kansas City, 1969C $1. Pairings are J02767770B with J02767770*; and J02767774B with J02767774*.** Fantastically rare, in Gem Crisp New. (Total: 4 pieces)

6283 One matched pair from Kansas City, 1974 $1: J00005940B with J00005940* — a real showpiece. Gem Crisp New. (Total: 2 pieces)

6284 Three more pairs of matching numbers, first 1963 $1; D00004334A with J00004334*; and 1963A $1 D00004422A with J00004422*; and also 1963A D00004477A with J00004477*—once again 3 rare pairs. Gem Crisp New. (Total 6 notes)

6285 The famous Barr notes of 1963B. Only issued at 4 branches, B, E, G, and L in star notes. Regular issues only issued at five branches, B, E, G, J, and L. This matched set has all same last three digits, 403. This is Barr complete. (Total: 9 pieces)

6286 $5 Federal Reserve Notes, 1950A; 1950B; 1950E and 1963A. All in Gem Crisp New. (Total: 4 pieces)

6288 High value Federal Reserves. Four $20, 1950B; 1950C; 1950E; and 1963; plus $50 1963A. All Gem Crisp New. (Total: 5 pieces)

6289 Two small Nationals, S-1994 $5 from Bank of America in San Francisco, Very Fine; and scarce type FR-S-2073, $10 of 1929 in About Uncirculated. (Total: 2 pieces)

6290 1928 Gold Certificate $20, about as perfect as can be found in Gem Crisp New.

6291 **The extremely rare, full uncut sheet of the $1 Hawaiian issue of 1935A series.** Only 25 were ever authorized and clearly less than a dozen copies exist. This fantastic pristine sheet is mounted between plastic, and is fully Crisp New and we are tempted to call it Gem Crisp New. Metcalf and Russell bear out the issuance data. This sheet is numbered F41964043C to F41964048C and F41966041C to F41966046C. A true classic.

Fractional Currency

6292 1st Series. F-1230 5c, plain edge showing U. S. Stamp in brown, plain edge, ABN reverse. Crisp New; and the real originator of the Fractional series, the 1st series with fully perforated edges, F-1241 showing the 10c U.S. stamp in green, without ABN. New. Lovely pair. (Total: 2 pieces)

6293 Group of five pieces of Fractional. The 3rd series F-1226 in New but some 'tea' stains?; the 5c, F-1238 in same series in Crisp New; a 10c 5th series F- 1266 in Gem Crisp New; the 2nd series 25c F-1286 with surcharge 18-83-S with red back in Crisp New; and 25c 5th series, F-1308 in Crisp New. A delightful little group. (Total: 5 pieces)

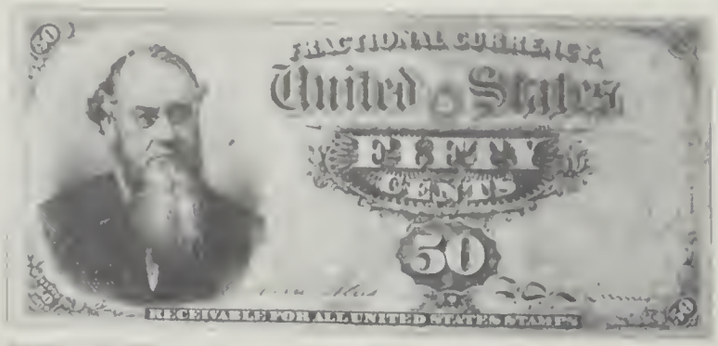
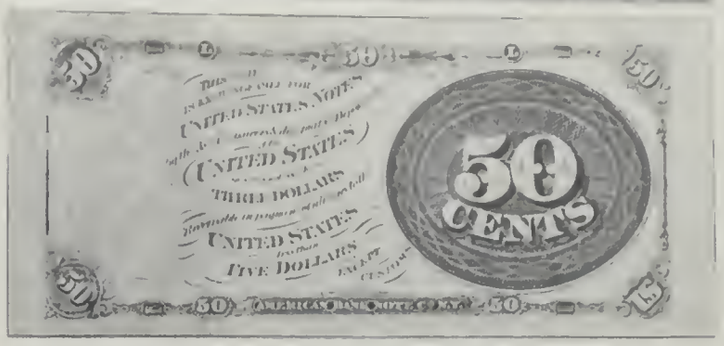
6295 3rd series Red back 50c note F-1327, with "a" surcharge. Crisp New and perfect.

6296 4th series 50c note, F-1375 also in Crisp New, the only note showing Lincoln in the Fractional series.





6297 **Another 4th series 50c note, F-1376 showing Stanton.** This popular note is Gem Crisp New and has the bright blue right end. The star of the Fractional group offered here.

6298 Final type of the 4th series 50c notes, F-1379 showing Dexter, Crisp New; plus the only type of the 5th series 50c notes, F-1381 also in Crisp New. (Total: 2 pieces)
